TimeBomb Scott K. Andrews, 2014-10-09 New York City, 2141: Jana Patel throws herself off a skyscraper, but never hits the ground. Cornwall, 1640: gentle young Dora Predennick, newly come to Sweetclover Hall to work, discovers a badly-burnt woman at the bottom of a flight of stairs. When she reaches out to comfort the dying woman, she's flung through time. On a rainy night in present-day Cornwall: seventeen-year-old Kaz Cecka sneaks into the long-abandoned Sweetclover Hall, in search of a dry place to sleep. Instead he finds a frightened housemaid who believes Charles I is king and an angry girl who claims to come from the future. Thrust into the centre of a war that spans millennia, Dora, Kaz and Jana must learn to harness powers they barely understand to escape not only villainous Lord Sweetclover but the forces of a fanatical army . . . all the while staying one step ahead of a mysterious woman known only as Quil. *~*Readers love TimeBomb!*~* 'A fast-paced, time-hopping thriller' SciFiNow 'Tremendous fun... a riveting series opener... I finished the book in one sitting. If you enjoy fast-paced, action-driven time travel stories, this book is for you' A Fantastical Librarian 'A rip roaring roller coaster ride of a read that keeps you on your toes and is a WHOLE lot of fun' Liz Loves Books 'I was sucked into this book from the beginning and found it extremely hard to put down' Escapades of a Bookworm 'Impeccably unique and mesmerising, Andrews takes an astoundingly interesting take on time travel' Once Upon a Moonlight Review 'Executed perfectly, with likeable, intelligent and witty characters thrust into the mix of things' The Book Bag 'Well-written, funny, sad and exciting... a rocket of a timeslip adventure, designed to appeal to adults young and old and it most certainly succeeds' For Winter's Nights

Time Bomb Joelle Charbonneau, 2018 Seven students trapped in their school after a bomb goes off must fight to survive while also discovering who among them is the bomber in this provocative new thriller from the author of the New York Times bestselling Testing Trilogy. Perfect for fans of This Is Where It Ends. A congressman's daughter who has to be perfect. A star quarterback with a secret. A guy who's tired of being ignored. A clarinet player who's done trying to fit in. An orphaned rebel who wants to teach someone a lesson. A guy who wants people to see him, not his religion. They couldn't be more different, but before the morning's over, they'll all be trapped in a school that's been rocked by a bombing. When they hear that someone inside is the bomber, they'll also be looking to one another for answers. Told from multiple perspectives, Time Bomb will keep readers guessing about who the bomber could be--and what motivated such drastic action.

The New World Scott K. Andrews, 2017-07-27 Kaz, Dora and Jana - three people from three different time periods, brought together by forces they don't understand, given powers they can barely comprehend. Their powers have brought them together. And nothing - not war, not betrayal, and not even death - has been able to tear them apart. And now, after everything they've been through, they're about to find the bonds of their friendship tested in ways they could never have imagined. This is the stunning, epic conclusion to the incredible story begun in TimeBomb and continued in Second Lives: a story of friendship, of love, and of learning what it means to be extraordinary.

Timebomb James Barrington, 2016-05-16 An action-packed espionage techno-thriller featuring a British intelligence agent who must stop a bomb threat before innocent lives are lost. What should have been a routine arrest turns into a bloody shoot-out near Geneva that leaves four terrorists and four policeman dead, and maverick British agent Paul Richter on the run from a murder charge. Closer to home, a homeless person is viciously murdered on the Isle of Sheppey, then a surveillance operation in Stuttgart goes badly wrong when someone tips off the terrorists that the police are closing in. As Richter looks for some connection between these widely separated events, he discovers a diabolical plot intended to devastate the city of London and leave thousands dead—a plot that will combine the world's largest ever non-nuclear explosion with the power of the sea to deadly effect. As the tension mounts, Richter finds himself pitted against both a vicious and highly experienced professional terrorist and a ruthless gang of international criminals—but the identity of the mastermind comes as a shock to everyone. For readers of James Patterson, Will Jordan and Chris Ryan, the Agent Paul Richter series is intense, visceral and totally unmissable.

Timebomb Gerald Seymour, 2012-02-16 A rollicking spy novel from the international-bestselling author of *Battle Sight Zero*, “the best thriller writer in the world” (*The Daily Telegraph*). In 1992, after being fired from a top-secret nuclear facility, a top KGB man buried a dirty bomb. Sixteen years later he has found a buyer for it. Traveling with the buyer is an undercover policeman, working for MI6. But as their shadowy journey begins, it becomes clear to a top psychiatrist that their man may be suffering from Stockholm syndrome and the whole operation is very likely to be thrown into jeopardy. Displaying a fast-paced narrative and an in-depth knowledge of international politics, *Timebomb* is a racing thriller to keep you reading late into the night. “Seymour shifts focus among his large cast with a nimbleness that heightens suspense, sustains interest and creates a reader’s sympathy for (or at least an understanding of) even the most violent characters . . . To the author’s aesthetic credit, *Timebomb* ticks to a satisfying if ambiguous conclusion.” —*The Wall Street Journal* “Seymour, who is classed with espionage luminaries like Ambler and le Carré, has crafted a convoluted plot and a host of complex and exquisitely tormented characters, but it’s his focus on human frailty that makes *Timebomb* a winner.” —Booklist “Intricately crafted and clocklike in its controlled release of psychological and geopolitical tension.” —Kirkus Reviews

Time Bomb Jonathan Kellerman, 2003-05-20 NEW YORK TIMES BESTSELLER By the time psychologist Dr. Alex Delaware reached the school the damage was done: A sniper had opened fire on a crowded playground, but was gunned down before any children were hurt. “Virtually impossible to put aside until the final horrifying showdown.”—*People* While the TV news crews feasted on the scene and Alex began his therapy sessions with the traumatized children, he couldn’t escape the image of a slight teenager clutching an oversized rifle. What was the identity behind the name and face: a would-be assassin, or just another victim beneath an indifferent California sky? Intrigued by a request from the sniper’s father to conduct a “psychological autopsy” of his child, Alex begins to uncover a strange pattern—it is a trail of blood. In the dead sniper’s past was a dark and vicious plot. And in Alex Delaware’s future is the stuff of grown-up nightmares: the face of real human evil. **BONUS:** This edition contains an excerpt from Jonathan Kellerman’s *Guilt*.

Time Bomb Nigel Hinton, 2006 Now grown, Andy tells the story of the summer of 1949 when, embittered after enduring injustice at their English school and disappointed by the adults in their lives, he and his friends wrestle with thoughts of revenge and deal with several life-changing secrets.

Timebomb: The Global Epidemic of Multi-Drug Resistant Tuberculosis Lee

Reichman, Janice Hopkins Tanne, 2001-11-05 This is an excellent book. It should be read by all who are interested in any aspect of Tuberculosis, including the growing problem of Multi-Drug Resistant Tuberculosis. Journal of American Medical Association The book serves an important function, relaying statistics and TB hot spots, proposing funding and international standardized treatments. Government officials, researchers and nonprofit health organizations will likely cast this as the authoritative book on the subject. Publishers Weekly Like other recent works on the threat of infectious diseases such as Laurie Garrett's *The Coming Plague*, *Timebomb* has the power of fiction and it is sometimes easy to forget that it is not. Unlike the Garrett book, which is more a collection of short dramatic stories collectively telling a big picture about our coexistence and evolution with microbes, Reichman selects one story and presents it in novel form with better material than most science fiction. The book is organized in a clear and riveting manner. Within the narrative style, the book is rich with up-to-the-minute details and references that add to its depth. An incredible account of politics and disease dynamics occurring at all levels, *Timebomb* helps us realize that controlling or eradicating TB is not just about science and facts; likely if it were, TB would have long been relegated to the history books. *Nature Medicine Magazine* Tuberculosis, supposedly defeated by antibiotics half a century ago, has returned in a highly contagious and fatal new form that cannot be treated with conventional drugs. Multidrug-resistant TB (MDR-TB), could cause some 10 million deaths over the next decade and is thriving in the overcrowded prisons of the former Soviet Union. As *Timebomb* explains in unnerving detail, the virtual collapse of the world's borders means that refugees, tourists, immigrants, business travelers, and others can spread the TB bacillus very efficiently. London, for example, has experienced a 100% increase in reported cases in the past 10 years. Written by the world's preeminent TB expert and an award-winning medical and health writer, *Timebomb* details the evolution and the current state of the MDR-TB epidemic, interweaving the science of MDR-TB with personal stories of people whose lives have been threatened by the deadly bacteria.

Clock King's Time Bomb Sean Tulien, 2011-07 The FLASH must stop the CLOCK KING, or the world will be frozen in time forever!

Timebomb Gerald Seymour, In 1992, after being fired from a secret nuclear facility, a KGB agent buried a nuclear suitcase. Sixteen years later he has found a buyer for it. Travelling to the exchange point with the buyer is an undercover policeman. But as their journey begins, it becomes clear that the agent may be suffering from Stockholm Syndrome, putting the lives of millions across Europe at risk...

Second Lives Scott K. Andrews, 2016-05-19 It began when three people from three different moments in history discovered that they could travel through time when they clasped hands. But the mysteries surrounding them have only deepened. There are risks to tampering with established events... timelines become snarled, histories become tangled... and one false move could destroy time itself! Jana, Kaz and Dora have escaped from their mysterious enemy, Quil, wounded and scared. Taking refuge in a place outside of time, they devise a plan to change the past, altering Quil's life so that she never meets them. From the streets of Beirut in 2010 to the domed cities of Mars in 2155 and beyond, the three teenagers fight for their future, and that of all humanity, by trying to rewrite the history of the person who has sworn to destroy them. What could be more

complicated - and important - than trying to save the world? As their feelings for each other grow stronger, though, Jana, Kaz and Dora find themselves at the centre of a different kind of battle. And when it comes to matters of the heart, there can be no real victors. *~*Readers love the TimeBomb series!*~* 'A fast-paced, time-hopping thriller' SciFiNow 'Tremendous fun... a riveting series opener... I finished the book in one sitting. If you enjoy fast-paced, action-driven time travel stories, this book is for you' A Fantastical Librarian 'A rip roaring roller coaster ride of a read that keeps you on your toes and is a WHOLE lot of fun' Liz Loves Books 'I was sucked into this book from the beginning and found it extremely hard to put down' Escapades of a Bookworm 'Impeccably unique and mesmerising, Andrews takes an astoundingly interesting take on time travel' Once Upon a Moonlight Review 'Executed perfectly, with likeable, intelligent and witty characters thrust into the mix of things' The Book Bag 'Well-written, funny, sad and exciting... a rocket of a timeslip adventure, designed to appeal to adults young and old and it most certainly succeeds' For Winter's Nights

Timebomb Adam Leighty,2009-12-14 Jack Billings is a normal guy. He is a loving son, a loyal sibling and a dedicated friend. The only unusual aspect of Jack's generally mundane life is his occupation which lands him in the struggle of his life. Teamed with his two lifelong friends, Jack is in a fight against time and an increasingly malicious foe to find and rescue his kidnapped sister before it's too late.

Timebomb: Before the Spring Rains Ndaba Sibanda,2020-09-25 To those who have walked through thick and thin without losing hope and focus. A man's mettle is constantly under the microscope of test and time. For, man is forever faced with the daunting task of rising above his plethora of adversities and infirmities and turning them into histories, glories and victories. Those are the definitive lifetime battles often wished away, yet there is spirit and strength of character in winning them rather than whining about them. Hare and Elephant were hauled to a court of justice. The ten-member jury had insects, birds, reptiles and animals in it. Bat presided over the deliberations. Every bird, every reptile, every animal and every insect watched the proceedings with keen interest. What would the outcome be and would they survive?

I've Got a Time Bomb Cybil Lamb,2014-05-27 On her way home from a gay wedding, Sybil's eponymous protagonist is ambushed, beaten, and left for dead on the train tracks. Days later, Sybil awakens in a hospital and finds her skull has been reconstructed, but it quickly becomes clear that her version of normal and reality may have been permanently altered. When she falls in love with a very beautiful, but very married, actress, Sybil does what comes naturally: she presents the object of her affection with a homemade explosive device, and then abruptly leaves town. I've Got A Time Bomb chronicles her surrealistic journey living among the loners, losers, and leave-behinds in the dark corners of Amerika.

Time bomb Joëlle Charbonneau,2019-08-28 En ce samedi précédant la rentrée, le lycée devrait être vide. Pourtant, six ados y sont : Diana, la fille du sénateur, qui veut s'occuper de l'annuaire des élèves ; Rachid, qui cherche à se fabriquer une nouvelle carte de lycéen qui ne le stigmatiserait pas ; Z, parce qu'il est à la rue suite au décès de sa mère quelques semaines auparavant ; Tad, qui entend remettre à leur place ses coéquipiers de l'équipe de foot ; Cassandra, victime de bullying et bien déterminée à faire bouger les choses. Chacun a une bonne raison d'être là ; chacun a quelque chose à cacher. Soudain, deux bombes explosent, et les ados se retrouvent confinés dans le lycée. Chacun jauge l'autre, se méfie. Les peurs et les vieux démons redoublent lorsque les lycéens comprennent que le poseur de bombes est parmi eux, et qu'une troisième bombe menace d'exploser. Aussitôt, les soupçons se tournent vers Rachid, parce qu'il est musulman. Mais le véritable poseur de bombes, bien sûr, a un tout autre motif pour agir...

Timebomb Nicholas Cross,2012-06-20 Martin Short is the perfect average. He always makes sensible decisions and follows the expected path through life.Until now.Martin's life is about to turn upside down. The arrival of Giorgio, his Italian playboy neighbour, will set Martin on a path toward insanity. His life will never be the same, but is this a good or a bad thing?Join Martin on a journey that will be funny, exhilarating and uniquely strange. Find out why he is a man waiting to explode.

TIME BOMB. ,2024

Timebomb Joe Ardis Horn, Allie Anderson, 2018-02-15 Chronic illness. Obesity. Autoimmune disease. Cancer. Perhaps you are one of the millions of Americans manifesting symptoms of common chronic illness such as diabetes, Crohn's disease, lupus, fibromyalgia, chronic fatigue syndrome, arthritis, food allergies, leaky gut syndrome, irritable bowel syndrome, or one of many other conditions. Or, perhaps you are unaware of the Timebomb in your system, only in the early warning stages of your body headed toward chronic illness or disease: showing signs such as fatigue, brain fog, energy 'spikes' followed by 'crashes,' digestive issues, hormonal imbalance, constant need for antibiotics, or even premature aging. If this is the case, the groundbreaking information within this work is imperative and will help you take charge in order to change the course of your situation. **THIS IS NOT A WEIGHT-LOSS DIET!** Timebomb is a revelation involving an avoidable national health epidemic more pervasive than anyone could have imagined and touching as many as 80% of all Americans whether they know it YET or not! In Timebomb, you will learn:· how the USDA and FDA have failed to eradicate and correctly label deadly ingredients being legally added to our food every day· the deadly truth behind GMO foods and how consuming them is a dangerous roll of the dice· the most common underlying (and often reversible) cause behind many common illnesses plaguing Americans today and what can be done about it· how toxic ingredients are making you sick and impairing your mind· why the dangerous cycle of treating symptoms instead of identifying and addressing the underlying cause allows disease to hide beneath the surface and escalate, causing further damage to your body· the psychology behind food marketing· how big farming has corrupted our modern food supply and the small farmer just might be our biggest advocate for healthy, safe nutrition· practical, applicable 'how-to' information that will empower you to take charge of your situation and begin to overhaul your diet· how the modern health epidemic, largely brought on by our food supply, is only the most recent tactic in a deeper malaise effecting creation dating back to the beginning of time
