The publication's thirty-five original essays and provocations—by some of the most highly respected voices within and beyond the academy—address the theoretical underpinnings and practical expressions of these connections. Well-Being and Higher Education opens the discussion on learning's connection to well-being; responds to current challenges against the state of higher education today; and brings to the forefront a conversation considering the greater purposes of higher education and the need to preserve and revive the institution's role to look beyond itself to a greater good.

My Years with the IAF Pratap Chandra Lal,1986 This is the first time that an Air Chief is sharing his thoughts and memories with the reading public. His span of service covers a period of thirty-three years: from the end of 1939 to the beginning of 1973. It includes the Burma campaign of World War II, the restricted fighting in Kashmir in 1947 and 1948, the Chinese debacle in 1962 and the two full scale wars with Pakistan in 1965 and 1971. He had 4,274 hrs of flying with the Air Force to his credit and the experience of flying 58 types of aircraft from Wapitis to supersonic jets. In 1965 he was the Vice Chief of Air Staff and in 1971 the Chief. His honesty and forthrightness many readers will find engaging& but perhaps a few who were on the scene then may find them unpalatable. In a way this is the story of aviation in India, in particular of the Indian Air Force. It is a story of a real life adventure the genesis, growth and achievements of the youngest of the three defence services. Sir Winstom Churchill said of the RAF: Never before in the history of human conflict was so much owed by so many to so few. That is true also of the Indian Air Force. Though this does not purport to be a history of the Indian Air Force without it no history would be complete.

Hidden Agenda Mike Bara,2016-10-14 Space expert Mike Bara looks at the secret space program of the American military that has been going on for over 60 years. Bara looks the Army Ballistic Missile Agency (TM)s proposed Project Horizon which was a study to determine the feasibility of constructing a scientific / military base on the Moon. On June 8, 1959, a group at the Army Ballistic Missile Agency (ABMA) produced for the U.S. Department of the Army a report entitled Project Horizon, A U.S. Army Study for the Establishment of a Lunar Military Outpost. The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Wernher von Braun, head of ABMA, appointed Heinz-Hermann Koelle to head the project team at Redstone Arsenal. Their plans called for 147 early Saturn A-class rocket launches to loft spacecraft components for assembly in low Earth orbit at a spent-tank space station. A lunar landing-and-return vehicle would have shuttled up to 16 astronauts at a time to the base and back. While officially Project Horizon was scrapped by the military, or was it? Bara looks into the secret space program, the possibility of secret bases on the Moon and many rumors surrounding the military (TM)s secret projects in space. The book will ask and answer many questions. Was Wernher von Braun involved in the Roswell crash investigation? Why did he suddenly become fascinated with highly advanced theoretical physics propulsion systems during the Apollo years, and why did all of this public research suddenly oego black in the early 1960s? Did NASA and the Pentagon know and expect to find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the TV cameras in order to hide their explorations of one of these bases? What was the top secret oeChapel Bell experiment on Apollo 16? Has teleportation been developed from captured alien technology and used to transport humans to secret NASA/DOD bases on Mars? Do space shuttle videos taken in the 1990s show proof of a highly advanced secret US space fleet? Does hacker Gary Mackinnon (TM)s discovery of defense department documents identifying oenon-terrestrial officers serving in space mean that the US has secret space platforms designed to fight a war with an alien race? And, have these secret military space platforms been photographed by civilian observers here on Earth?
