**Management of Time, Tools, and Study Environment** The Open The Open Courses Library,2019-12-13 Management of Time, Tools, and Study Environment How to Learn Like a Pro Most books on management tasks involved in effective learning start with the famous (and infamous) topic of procrastination. This is why we begins with foundational issues, perspectives and beliefs about ourselves such as our world view that operates at the bottom of our pile of motivations, and our sense of self-efficacy (or lack thereof) that generates thoughts that either work for or against us when it comes to successfully managing time, tools, and environments of learning. This book deals with procrastination itself, often a by-product of a negative or unexamined world view and a low sense of self-efficacy, but with an emphasis on how to overcome it. Chapter Outline: World View And Self Efficacy Procrastination Schedules And Scheduling Graphic Organizers And Study Cards The Open Courses Library introduces you to the best Open Source Courses.
