**Media, Audiences, Effects** Paul J. Traudt, 2005 In this undergraduate text, Traudt (U. of Nevada, Las Vegas) uses the classic *The Early Window: Effects of Television in Children and Youth* as inspiration

to examine the theories and applications of media effects research. His 15 chapters include summaries, references, activities and additional reading. Ethics in Obstetrics and Gynecology Laurence B. McCullough, Frank A. Chervenak, 1994 This book offers a comprehensive and clinically practical approach to ethics in the everyday practice of obstetrics and gynecology. The topics the authors address include: contraception, abortion, selective termination of multifetal pregnancies, gynecologic cancer, in vitro fertilization, surrogacy, prenatal diagnosis, fetal therapy, cephalocentesis, prematurity, HIV infection, and court ordered cesarean delivery. The issues involved in making decisions in many of these areas are a source of conflict, and lead to crisis between the physician and patient. One of the book's strengths is its emphasis on prevention and, if prevention fails, management, of the conflicts and crises which arise in these areas of medicine. The authors develop their preventative and management strategies on the basis of a framework for bioethics in the clinical setting. This framework is rigorously established and defended. The authors argue that four virtues -- self effacement, self sacrifice, compassion, and

integrity -- generate the physician's obligation to protect and promote the patient's interest. They then identify the three types of patient's interests -- social role interests, subjective interests, and deliberative interests -- and they reinterpret the ethical principles of beneficence and respect for autonomy in terms of these. The concept of the fetus as patient, the physician's obligation to third parties, and the moral standing of fathers and family members are also addressed. The implications of their argument sets the stage for the discussions of prevention and management in the remaining sections of the book. Ethics in Obstetrics and Gynecology is a unique addition to the literature in both biomedical ethics and obstetrics and gynecology. It demonstrates that ethics should be regarded as an essential part of obstetrics and gynecology, and that clinical practice is incomplete without i

**Individualizing Gender and Sexuality** Nancy J. Chodorow, 2012-05-04 Nancy Chodorow, in her

groundbreaking book *The Reproduction of Mothering*, quite simply changed the conversation in at least three areas of study: psychoanalysis, women's studies, and sociology. In her latest book, *Individualizing Gender and Sexuality*, she examines the complexity and uniqueness of each person's personal creation of sexuality and gender and the ways that these interrelate with other aspects of psychic and cultural life. She brings her well-known theoretical agility, wide-ranging interdisciplinarity, and clinical experience to every chapter, advocating for the clinician's openness, curiosity, and theoretical pluralism. The book begins with reflections on Freud's *Three Essays on the Theory of Sexuality*, followed by considerations of Melanie Klein and Stephen Mitchell, as well as on her own work and on the postmodern turn in psychoanalytic gender theory. Subsequent chapters address contemporary clinical-cultural issues such as women and work, women and motherhood, and men and violence. Concluding chapters elaborate on the multiple ingredients and the personal affective, conflictual, and defensive constellations and processes that create sexuality and gender in each individual. Ending with a chapter on homosexualities as compromise formations, Chodorow deepens her account of clinical individuality and sex-gender transference-countertransference while bringing her readers back to Freud and to the many strands that followed, as she consolidates a consistent line of interest in sexuality and gender, theory and practice, sustained over a lifetime.

**Girls Gone Skank** Patrice A. Oppliger, 2015-02-18  
Instead of advancing women's social and professional empowerment, popular culture trends appear to be backsliding into the blatant sexual exploitation of women and girls at younger and younger ages. This study investigates the effects of mass marketed sexual images and cultural trends on the behaviors and attitudes of young girls and describes many ways in which young girls are increasingly taught to go to outrageous lengths in seeking male attention. Topics include the powerful effects of cultural phenomena such as revealing fashions, plastic surgery, and beauty pageants in influencing teen and preteen girls to willingly participate in and promote their own sexualization. These chapters also explore other cultural factors contributing to this early sexualization of young girls, including absentee parenting and material overindulgence. Later chapters focus on the sexual representations of females in the mass entertainment media, focusing specifically on how popular magazines, television programs, films, and the Internet prey upon, promote, and reinforce young girls' physical and sexual insecurities.

**The Myth of German Villainy** Benton L. Bradberry, 2012-07  
As the title *The Myth of German Villainy* indicates, this book is about the mischaracterization of Germany as history's ultimate villain. The official story of Western

Civilization in the twentieth century casts Germany as the disturber of the peace in Europe, and the cause of both World War I and World War II, though the facts don't bear that out. During both wars, fantastic atrocity stories were invented by Allied propaganda to create hatred of the German people for the purpose of bringing public opinion around to support the wars. The Holocaust propaganda which emerged after World War II further solidified this image of Germany as history's ultimate villain. But how true is this official story? Was Germany really history's ultimate villain? In this book, the author paints a different picture. He explains that Germany was not the perpetrator of World War I nor World War II, but instead, was the victim of Allied aggression in both wars. The instability wrought by World War I made the 1917 Bolshevik Revolution in Russia possible, which brought world Communism into existence. Hitler and Germany recognized world Communism, with its base in the Soviet Union, as an existential threat to Western, Christian Civilization, and he dedicated himself and Germany to a death struggle against it. Far from being the disturber of European peace, Germany served as a bulwark which prevented Communist revolution from sweeping over Europe. The pity was that the United States and Britain did not see Communist Russia in the same light, ultimately with disastrous consequences for Western Civilization. The author believes that Britain and the United States joined the wrong side in the war.

*The Indian Mutiny and the British Imagination*

Gautam Chakravarty, 2005-01-13 Gautam Chakravarty explores representations of the event which has become known in the British imagination as the 'Indian Mutiny' of 1857 in British popular fiction and historiography. Drawing on a wide range of primary sources including diaries, autobiographies and state papers, Chakravarty shows how narratives of the rebellion were inflected by the concerns of colonial policy and by the demands of imperial self-image. He goes on to discuss the wider context of British involvement in India from 1765 to the 1940s, and engages with constitutional debates, administrative measures, and the early nineteenth-century Anglo-Indian novel. Chakravarty approaches the mutiny from the perspectives of postcolonial theory as well as from historical and literary perspectives to show the extent to which the insurrection took hold of the popular imagination in both Britain and India. The book has a broad interdisciplinary appeal and will be of interest to scholars of English literature, British imperial history, modern Indian history and cultural studies.

*Taronga* Victor Kelleher, 2013 The great dome of the sky, black, star-sprinkled, arched above him, appearing at that moment so limitless, so vast and free, that the fences and cages of Taronga were dwarfed, reduced to the point where they barely seemed to exist . . . Every so often, there comes a story so brilliant and lively and moving that it cannot be left in the past. Rediscover the magic of our country's most memorable children's books in the Penguin Australia Children's Classics series of stories too precious to leave behind.

**The Holocaust Denier** Trevor Poulton, 2012 Under the influence of a charismatic ethno-socialist named Kubizek, Constable Ward Price who is a member of the police force begins to question the

nature and extent of the Jewish Holocaust. He trawls through the ashes of the Third Reich in search of truth. Unable to discriminate between places of light and dark, he finds himself locked into a world of use-by dates. In this novel, there are no heroes, whether survivors, perpetrators, believers or deniers! \_\_\_\_\_ The backdrop is police culture, home renovations, 'correctspeak', and 'Incorrectspeak'. Set in Melbourne, it may be one of the first novels to explore in any depth the inner life of a Jewish Holocaust denier. Questions are asked, and answers are found and lost, with one of the themes being denying death itself.

\_\_\_\_\_ For some readers it is a crime novel, for others it is Faustian fiction, and for others a forewarning of the extinction of the 'Killer European'. Globally, numerous academic books, media articles, and films have been produced sustaining the view that any and all persons who question the extent of the Jewish Holocaust are either psychopaths or sociopaths. The campaign has resulted in laws making it a crime to question the extent of the Holocaust with penalties including up to 5 years imprisonment. Through Art (fiction) as opposed to Polemic, the novel explores the character of a police officer who in the process of searching for 'Truth' switches from being a Holocaust adherent to one who dismisses the 'historical event' as a sinister hoax. And he pays a price. \_\_\_\_\_ EXTRACTS FROM 'THE HOLOCAUST DENIER' \_\_\_\_\_ White Anglo-Saxon Person (p 234) \_\_\_\_\_ He waited till the end of the shift to consider his response. Once home, he could hear a voice that had been building up

inside of him like a marching band. Trumpets and trombones of words were drawing nearer. A voice that was loud and clear began imploring him that only an ideology can realise a faith capable of completing the imagination of the self, unifying the past and the future into a set of pure truths, but it must be a supreme ideology. Is it capitalism, fascism, feminism, environmentalism, mediaism, consumerism, humanism, spiritualism, anarchism, transcendentalism, cultural-Marxism, multiculturalism? And just when all hope seemed lost, Ward realised that National Socialism is truly the answer and he knows that for sure. 'So get dressed!' the band sang out. Filled with blood-consciousness, he soon had a mouth-watering sense of his intrinsic cultural identity and he needed to defend that. He was a little afraid that he might be losing himself, but all chemicals in his body began to stabilise. He no longer needed to live in the shadow of instability, in fear of drowning in a psychic stream of nebulous reflections. He was swiftly developing convictions and secret aspirations for the world about him as he walked down streets with trams rattling by, and horns tooting, and mouths opening and closing. He realised that he was an honourable person. He did not use the dead as bargaining chips. The dead are dead, the living confirmed. He belonged to Kubizek's Club of Err. His faith would endow him with shared ideals and standards to take him as close to truth as he could get without getting burnt. He was an ethnic in Australia. Not superior to the Jew or the Arab or the Aborigine or the Negro or the Indian or the Mongol. His future

resided with his own Nordic stock. It has been that way since the dawn of ages. He shouted with joy, 'I am a white Anglo-Saxon person!' And the world shuddered. \_\_\_\_\_ A new humanity is near (p281) \_\_\_\_\_ Ward had toured around the sun, the moon, and the stars twenty-six times. He had experienced the Big Bang for what it was worth. He had viewed life through a telescope. And already he was on his twenty-seventh trip. He wanted to die! But one only has one life so it is better to keep one's aspirations in perspective.
