Apple Jim Carlton, 1998-10-21 Apple Computer was once a shining example of the American success story. Having launched the personal computer revolution in 1977 with the first all-purpose desktop PC, Apple became the darling of the national business press and Wall Street. Yet by 1995, the company's change-the-world idealism had all but disappeared in a bitter internal struggle between warring camps. Raging internal mistakes, petty infighting, and gross mismanagement became Apple's hallmark, and today the company clings to a mere 3.7 percent share of the market it helped to create. Apple is the spellbinding account of what really went on behind closed doors, revealing the forces that dismantled this once great icon of American business.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Moon-face and Other Stories Jack London, 1906
JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways - robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Embodied Social Justice Rae Johnson, 2022-11-25
Embodied Social Justice introduces an embodied approach to working with oppression. Grounded in current research, the book integrates key findings

from education, psychology, sociology, and somatic studies while addressing critical gaps in how these fields have addressed pervasive patterns of social injustice. At the heart of the book, a series of embodied narratives bring to life everyday experiences of oppression through evocative descriptions of how power implicitly shapes body image, interpersonal space, eye contact, gestures, and the use of touch. This second edition includes two new body stories from research participants living and working in the global South. Supplemental guidelines for practice, updated references, and new community resources have also been added. Designed for social workers, counselors, educators, and other human service professionals working with members of disenfranchised and marginalized communities, *Embodied Social Justice* offers a conceptual framework and model of practice to assist in identifying, unpacking, and transforming embodied experiences of oppression from the inside out.

The Sixth Station Linda Stasi, 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media

and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.

Youth on Fire Melissa Michaels, 2017-01-26 Like our planet, young people across the globe are heating up. As they come of age, some are boiling with outrage about the environmental toxins, unconscionable injustices, and social challenges they face. Some are setting their communities ablaze with gang warfare, bullying, hazing, or other destructive acts of violence. Others are barely flickering, having dimmed their light through self-destructive behaviors, lost in addictions or a variety of numbing habits that sublate their life force. Many youth are simply invisible, lacking the encouragement of adults,

disregarded or discarded with no opportunities on the horizon. Yet at the same time, there is an ever-expanding group of youth on fire. In positive ways, they are collectively ignited-illuminating the path from addiction into action, from fragmentation into integration, from isolation into community. Youth On Fire tells the timely story of hundreds of diverse young people rising from the ashes and dancing into inspired leadership and creative action-bringing light to people and places suffering around the world. The processes, protocols, and practices described within these pages galvanize individuals and communities on every continent. If you are a young person or working with youth as an educator, parent, rites of passage guide, mentor, counselor, somatic practitioner, or community organizer, this book is for you.
