The Ontario & Western Railway Northern Division John Taibi,2003 The New York & Oswego Midland Railroad-reorganized in 1879 as the New York, Ontario & Western Railway-was born out of necessity and a desire to populate and industrialize the interior regions of New York State. The railroad meandered down from Oswego, traversed the north shore of Oneida Lake, and then took a southerly route through Oneida and Norwich before turning east for a mountainous crossing to gain the village of Sidney. The railroad was not a success in its time. The New York, Ontario & Western brought a degree of financial stability to the northern division, and the line functioned through the late 1950s. The Ontario & Western Railway Northern Division features photographs of the Ontario & Western, a railroad long on scenery but short on freight. The Ontario & Western inherited a railroad in search of revenue and a circuitous route that passed through one small community after another. Small wooden country depots dotted the line, locomotives of meager proportions pulled the trains, and dedicated employees did their best to keep the railroad solvent. The railroad is still fondly remembered today by those who rode its cars and witnessed its passing trains.

The 15:17 to Paris Anthony Sadler,Alek Skarlatos,Spencer Stone,Jeffrey E. Stern,2016-08-23 Now a major motion picture directed by Clint Eastwood, in theaters February 2018. An ISIS terrorist planned to kill more than 500 people. He would have succeeded except for three American

friends who refused to give in to fear. On August 21, 2015, Ayoub El-Khazzani boarded train #9364 in Brussels, bound for Paris. There could be no doubt about his mission: he had an AK-47, a pistol, a box cutter, and enough ammunition to obliterate every passenger on board. Slipping into the bathroom in secret, he armed his weapons. Another major ISIS attack was about to begin. Khazzani wasn't expecting Anthony Sadler, Alek Skarlatos, and Spencer Stone. Stone was a martial arts enthusiast and airman first class in the US Air Force, Skarlatos was a member of the Oregon National Guard, and all three were fearless. But their decision-to charge the gunman, then overpower him even as he turned first his gun, then his knife, on Stone-depended on a lifetime of loyalty, support, and faith. Their friendship was forged as they came of age together in California: going to church, playing paintball, teaching each other to swear, and sticking together when they got in trouble at school. Years later, that friendship would give all of them the courage to stand in the path of one of the world's deadliest terrorist organizations. The 15:17 to Paris is an amazing true story of friendship and bravery, of near tragedy averted by three young men who found the heroic unity and strength inside themselves at the moment when they, and 500 other innocent travelers, needed it most.

Boston & Maine Trains and Services Bruce D. Heald Ph.D.,2005-08-17 The Boston & Maine Railroad serviced most of New England as a primary mode of transportation during the 19th and 20th centuries. The birth of this railroad spurred the growth and development of industry in New England. This heritage is captured in *Boston & Maine Trains and Services*, the fourth volume in Arcadia's Images of Rail series to focus on the history of this railroad. The trains and services included in this book are the Pullman passenger cars, work trains with flatcars, boxcars, circus trains, plows, stock, cabooses, as well as the Boston & Maine bus service, trucks, and air service.

Nevada Northern Railway Mark S. Bassett,J. Joan Bassett,2011-08-01 The Nevada Northern Railway is the sole survivor from a grand era when railroads served mines throughout the state. Built in 1905-1906 to develop the incredible copper deposits of the Nevada Consolidated Copper Company in White Pine County, it was--and still is--a workaday railroad. Although its primary purpose was to haul ore, it eventually served the community with a daily passenger train between East Ely and Cobre until 1941. Over 4.5 million people rode the trains, and a mountain of copper ore was moved. In 1983, the Nevada Northern Railway ceased operating, and two years later the entire ore line, including the railroad's yard and shop facilities in East Ely, was donated to the White Pine Historical Railroad Foundation that now operates the railway as a museum. Instead of relics in glass cases or repainted old equipment on static display, the museum preserves a working steam railroad, delighting train enthusiasts year-round with passenger service and special seasonal excursions.
