Electronic Document Preparation and Management for CSEC® Examinations Coursebook with CD-ROM Kyle Skeete,2011-11-03 This book covers the new EDPM CSEC syllabus to be taught from September 2011. It introduces computing fundamentals, electronic communication and keyboarding techniques before teaching the Microsoft Office (2003 - 2010) skills required by the course. Next, students are shown several aspects of document preparation, complete with sample documents. After covering document management and ethics, it gives SBA tips and exam papers (with answers included on the CD). Exercises and summaries are found at the end of each chapter. The accompanying CD-ROM is packed with material including interactive revision questions, PowerPoint presentations, tutorial videos, exercise files and a comprehensive glossary.

Performing with Microsoft Office 2003 Iris Blanc,Cathy Vento,Jean-Jacques Ed. Blanc,2004-06 The Performing Series takes students to a higher level of learning through applied and project-based activities that go beyond the mechanics of the software. Most textbooks begin by teaching students software skills. The Performing Series presents various business documents first, then shows students the Office 2003 skills they need to create them. This approach shows students the relevance of what they are learning as they apply technology to task.

Third Forest Vegetation Simulator Conference ,2008 The Forest Vegetation Simulator (FVS) is a suite of computer modeling tools for predicting the long-term effects of alternative forest management actions. FVS was developed in the early 1980s and is used throughout the United States and British Columbia. The Third FVS conference, held February 13-15, 2007, in Fort Collins Colorado, contains 20 papers. They describe the use of FVS on the stand and landscape scale, and to analyze fuels management in the presence of insects and fire. Several papers compare FVS predictions of the effects of insects and disease to field measurements. FVS is continually evolving and improving in technology and capability to meet the needs of its ever increasing user community. Papers describe new methods for data acquisition and preparation for input to FVS, new economic analysis capabilities within FVS, new methods for simulating forest regeneration, new developments in calculating growth and mortality, and future plans for incorporating the effects of climate change in model simulations.

Inside Active Directory Sakari Kouti,Mika Seitsonen,2002 Inequality in Education: Comparative and International Perspectives is a compilation of conceptual chapters and national case studies that includes a series of methods for measuring education inequalities. The book provides up-to-date scholarly research on global trends in the distribution of formal schooling in national populations. It also offers a strategic comparative and international education policy statement on recent shifts in education inequality, and new approaches to explore, develop and improve comparative education and policy research globally. Contributing authors examine how education as a process interacts with government finance policy to form patterns of access to education services. In addition to case perspectives from 18 countries across six geographic regions, the volume includes six conceptual chapters on topics that influence education inequality, such as gender, disability, language and economics, and a summary chapter that presents new evidence on the pernicious consequences of inequality in the distribution of education. The book offers (1) a better and more holistic understanding of ways to measure education inequalities; and (2) strategies for facing the challenge of inequality in education in the processes of policy formation, planning and implementation at the local, regional, national and global levels.

Linked Data for Libraries, Archives and Museums Seth van Hooland,Ruben Verborgh,2014-06-18 This highly practical handbook teaches you how to unlock the value of your existing metadata through cleaning, reconciliation, enrichment and linking and how to streamline the process of new metadata creation. Libraries, archives and museums are facing up to the challenge of providing access to fast growing collections whilst managing cuts to budgets. Key to this is the creation, linking and publishing of good quality metadata as Linked Data that will allow their collections to be discovered, accessed and disseminated in a sustainable manner. This highly practical handbook teaches you how to unlock the value of your existing metadata through cleaning, reconciliation, enrichment and linking and how to streamline the process of new metadata creation. Metadata experts Seth van Hooland and Ruben Verborgh introduce the key concepts of metadata standards and Linked Data and how they can be practically applied to existing metadata, giving readers the tools and understanding to achieve maximum results with limited resources. Readers will learn how

to critically assess and use (semi-)automated methods of managing metadata through hands-on exercises within the book and on the accompanying website. Each chapter is built around a case study from institutions around the world, demonstrating how freely available tools are being successfully used in different metadata contexts. This handbook delivers the necessary conceptual and practical understanding to empower practitioners to make the right decisions when making their organisations resources accessible on the Web. Key topics include: - The value of metadata Metadata creation – architecture, data models and standards - Metadata cleaning - Metadata reconciliation - Metadata enrichment through Linked Data and named-entity recognition - Importing and exporting metadata - Ensuring a sustainable publishing model. Readership: This will be an invaluable guide for metadata practitioners and researchers within all cultural heritage contexts, from library cataloguers and archivists to museum curatorial staff. It will also be of interest to students and academics within information science and digital humanities fields. IT managers with responsibility for information systems, as well as strategy heads and budget holders, at cultural heritage organisations, will find this a valuable decision-making aid.

Alison Balter's Mastering Microsoft Access 2000 Development Alison Balter,1999 What Alison's book offers over most or all of the other books on the market is that Alison is able to take a highly technical topic and present it in a manner that is easy to comprehend. It is a book that the reader will often want to read from cover to cover, but it can also act as an excellent reference. The CD includes all source code from the book, sample databases, and complete applications.

Troubleshooting Microsoft Office XP Nancy Muir,Nancy Stevenson,Elaine J. Marmel,2001-12-31 Troubleshooting Microsoft Office XP provides fast answers to problems that can arise when using the latest versions of Microsoft Word, Excel, Outlook, and PowerPoint-especially when they are used together. Each section of the book opens with a diagnostic chart featuring clear, step-by-step solutions to try right away, plus alternate solutions to try if the problem is more complex. Screen images illustrate what users see on their computers as they work through the steps.

Performing with Microsoft Office XP Iris Blanc,Cathy Vento,Blanc, Jean-Jacques,Vento,Iris Blanc Cathy Vento,2001-11-29 The Performing Series takes students to a higher level of learning through applied and project-based activities that go beyond the mechanics of the software. Most textbooks begin by teaching students software skills. The Performing Series presents various business documents first, then shows students the Office XP skills they need to create them. This approach shows students the relevance of what they are learning as they apply technology to task.
