Regional Economic Outlook, October 2011, Western Hemisphere International Monetary Fund. Western Hemisphere Dept.,2011-11-03 Despite the recent deterioration in the global economic environment, projections for the region involve only a modest worsening of the outlook. The October 2011 Regional Economic Outlook: Western Hemisphere cautions, however, that there are severe downside risks. A sharp slowdown in Asia, for example in response to a recession in advanced economies, could impact commodity prices, with negative effects on Latin American commodity exporters. With global monetary policy likely to remain accommodative, capital flows could exacerbate overheating and amplify vulnerabilities in emerging markets. Countries with strong real linkages to the United States face a somewhat weaker outlook and should give priority to reducing public debt. Although much of the Caribbean is recovering from a prolonged recession, the outlook remains constrained by high public debt and weak tourism flows. This issue finds that policies can play an important role in mitigating the economic impact of terms-of-trade shocks, and underscores the need to rebuild policy buffers.

**Regional Economic Outlook, May 2011, Europe** International Monetary Fund. European Dept.,2011-05-12 The May 2011 Regional Economic Outlook: Europe anticipates that recovery in the region will solidify, with recoveries in advanced and emerging Europe likely to be mutually reinforcing. Advanced Europe continues to absorb most of

emerging Europe's exports, while the role of emerging Europe as a market for advanced Europe will expand. Chapters discuss the outlook and policy priorities for advanced and emerging Europe, and analyze the role of financial integration in the buildup and resolution of imbalances within the euro area.

**Latin American Economic Outlook 2010** OECD,2009-11-30 The OECD Latin American Economic Outlook 2010 provides a fresh analysis of economic trends in the region with a particular focus on the role that international migration and remittances play in shaping the current context.

**African Free Trade Agreements and Intellectual Property** Michael Blakeney,Getachew M. Alemu,2024-02-12 This informative book examines the intellectual property (IP) provisions of the sub-regional and continental Free Trade Agreements (FTAs) that have been implemented in Africa to facilitate trade and promote economic integration. Michael Blakeney and Getachew Mengistie Alemu explain how FTAs can be used when setting IP standards in order to influence the ongoing effort to develop effective international agreements with Africa.
