Managing Translation Services Geoffrey Samuelsson-Brown, 2006-09-12 This is a sequel to the author's best-selling *A Practical Guide for Translators* first published in 1993 and now in its 4th edition. *Managing Translation Services* looks at how to successfully make the change from being a single freelance translator to developing a translation company offering a range of value added services. The book is intended principally for those who presently work as a freelance translator with all the inherent limitations this presents in terms of income and being reliant on the limited range of skills that the individual can offer. While some business skills will have been accumulated by virtue of working in a commercial environment, the transition from being responsible for oneself and taking the bold step of employing additional resources can be quite daunting. However, the opportunities this offers in terms of income and personal satisfaction are considerable. This book considers the initial steps towards business development, exploiting these opportunities and the rewards they can offer. Advice is given on setting up a translation business, organisational development, what a business plan needs to consider for successful growth, how quality management needs to be approached, managing human resources, customer relations and other topics. The book provides a wealth of ready-made examples of quality procedures, forms that support business management and sources of further information. It also considers an exit strategy and related long-term planning when disposing of the business. *Managing Translation Services* is based on the many years of experience gained by the author working as a staff translator, freelance translator, university lecturer in translation studies, and former head of an award-winning, ISO 9001 accredited company. As a result, it covers a range of management issues relating to providing professional translation services.

The Savvy Client's Guide to Translation Agencies John Yunker, 2010 Your translation agency is your voice to the world. Select the right agency, and the world will hear you loud and clear. Select the wrong agency, and the world may never know what you have to say-or worse, hear something you never intended to say. This book will help you select the right agency the first time. The book is designed to be used as both a learning tool and a reference. The first two-thirds of the book demystifies the terminology, the workflow, and the major technologies now being used. The last third of the book includes a directory of 44 translation agencies, to help executives begin their search. The book includes: * 10 things you should know about the translation industry* An overview of machine translation and how it is transforming the industry* 10 questions you should ask any prospective translation agency

Professional Issues for Translators and Interpreters Deanna L. Hammond, 1994-09-06 This volume brings both beginning and experienced translators and interpreters up to date on a broad range of issues. The seven sections take up success and survival strategies for a language professional, including the challenges posed by the changing global economy, the impact of new technologies, adjustments required by a different legal environment and traditional ethical practices. Such challenges and changes point to a need for continuing education and networking and for newcomers specialized postsecondary training. The issues are as broad as the translator and interpreter's

role in the modern world, as detailed as advice on setting up a workstation or choosing a degree program. The contributors, all practicing translators and interpreters, discuss also the value of the Association and its Committees to the profession and its individual members.

The Global Translator's Handbook Morry Sofer, 2013 This book provides everything translators need to know, from digital equipment to translation techniques, dictionaries in over seventy languages, and sources of translation work. It is the premier reference for all linguists, used by beginners and veterans, and its predecessor...

Translation Excellence Marilyn Gaddis Rose, 1987-01-01 This inaugural volume transcends its archival value. Indeed, taken as a whole, the essays pose a provocation for both translation practice and theory. The criteria proposed and the issues examined remain the same. Absolute excellence, however, continues to move beyond the horizon, and changes in technology and taste inevitably change both the implementation of the criteria and the evaluation of the issues. The attendant ambiguities may stem from a parenthesis in the volume: does excellence lie in the X-factor that elusive quality which renders one translation clearly superior to others?

The Translator's Handbook Morry Sofer, 2006 Since 1997, this translator's guide has been the worldwide leader in its field and has elicited high praise from some of the world's best translators. It has been fully updated in the 2006 edition.

Translation as a Profession Daniel Gouadec, 2007-06-06 Translation as a profession provides an in-depth analysis of the translating profession and the translation industry. The book starts with a presentation of the diversity of translations and an overview of the translation-localisation process. The second section describes the translation profession and the translators' markets. The third section considers the process of 'becoming' a translator, from the moment people find out whether they have the required qualities to the moment when they set up shop or find a job, with special emphasis on how to find and hold on to clients, avoiding basic mistakes. The fourth section concentrates on the vital professional issues of costs, rates, deadlines, time to market, productivity, ethics, standards, qualification, certification, and professional recognition. The fifth section is devoted to the developments that have provoked ongoing changes in the profession and industry, such as ICT, and the impact of industrialisation, internationalisation, and globalisation. The final section is devoted to the major issues involved in translator training. A glossary is provided, together with a list of Websites for further browsing.

Interpreting and Translation Services and the Applied Language Solutions Contract Great Britain: Parliament:

House of Commons: Justice Committee,2013-02-06 Evidence suggests that the MoJ did not have a sufficient understanding of the complexities of court interpreting work. Significant concern was revealed that quality standards could be diminished by the imposition of a tiered system to enable a wider pool of interpreters, and by the introduction of lower levels of pay. However, the Department pushed ahead with the contract and failed to properly anticipate or address the potential for problems with Applied Language Solutions' (ALS) capacity to deliver on its promises. ALS, and more recently Capita, has been unable to recruit qualified and experienced interpreters in sufficient numbers. Professional interpreters have largely boycotted the new arrangements and Capita-ALS clearly needed significantly more resources than it had at its disposal. It also only paid lip service to the regulatory duties accepted under the Framework Agreement, yet did not have the capacity to cope with complaints or to implement basic vetting procedures. The MoJ has had to monitor Capita-ALS very closely to secure the level of improvement necessary to make the Agreement workable, and continues to do so. The existing arrangements may not be financially sustainable as Capita is propping up the continuation of the Agreement, which mean that the Department's savings, originally projected to be £15million, are effectively being secured at the company's expense. Actions taken by MoJ also had the effect of hampering the inquiry when HMCTS issued an edict to its staff instructing them not to participate in the Committee's online consultation, established to invite direct observations from frontline staff of the performance of ALS
