Basic Knowledge and Conditions on Knowledge Mark McBride,2017-11-01 How do we know what we know? In this stimulating and rigorous book, Mark McBride explores two sets of issues in contemporary epistemology: the problems that warrant transmission poses for the category of basic knowledge; and the status of conclusive reasons, sensitivity, and safety as conditions that are necessary for knowledge. To have basic knowledge is to know (have justification for) some proposition immediately, i.e., knowledge (justification) that doesn't depend on justification for any other proposition. This book considers several puzzles that arise when you take seriously the possibility that we can have basic knowledge. McBride's analysis draws together two vital strands in contemporary epistemology that are usually treated in isolation from each other. Additionally, its innovative arguments include a new application of the safety condition to the

law. This book will be of interest to epistemologists—both professionals and students.

Barbara Bodichon's Epistolary Education
Meritxell Simon-Martin, 2020-06-30 This book brings together feminist histories in education with an innovative approach to epistolary narrative analytics. In deploying the notion of the epistolary bildung the author rigorously and eloquently shows how the correspondence of Barbara Bodichon can shed fresh light in a range of personal problems and public issues in women's lives, which remain relevant today - Maria Tamboukou, Professor of Feminist Studies, University of East London, UK This book assesses Barbara Bodichon's significance in the history of the women's movement in Britain by elaborating a conceptualisation of letters as sources of feminist development. Bodichon was the leader of the first women's suffrage committee in England, which collected 1,500 signatures in favour of the female vote – a petition presented in the House of Commons by sympathising MPs to support the amendment of the 1867 Reform Bill. This book explores the significance of letter-exchange in Barbara Bodichon's feminist becoming as she managed to mobilize partisans and secure signatures by means of chains of friendship letters spreading across the country. For letters functioned as platforms where, concomitantly to her making sense of her experiential input, Bodichon adopted, redefined and challenged circulating discourses – transforming them in the

process and hence contributing to the production of feminist knowledge, intersubjectively and collaboratively in dialogue with her addressees. At the crossroads of history of feminism, gender history and history of women's education, this book explores the significance of letter-exchange in Bodichon's development into one of the galvanizing figures of the women's rights movement in Victorian England.

C.B.S. The Chucklehead Broadcasting System Louis A. Coppola,2008-01-09 Here's the scoop, pilgrim. Broadcast gossip from the other side of the window. C.B.S is a fictional insider's look at broadcasting through the eyes of a maverick radio technician who has worked with the top media honchos from the '50's to the '90's. An ersatz story from an airhead who developed into an astute observer of people's characteristics and the demise of the Fourth Estate, Louis A. Coppola seasons his journal with humor and street philosophy: News is nothin' but the glorification of insignificance. In this fictional autobiographical journey readers are transported from Hawaii to Hollywood to Disneyland, then on to the Big Apple and Big City broadcast journalism- a symphony of off-key characters full of diminuendos and crescendos. There's Uncle Woolly Crankcase, Sue Clueless, Wally Aces, news editor RoundyTurkel, Chink and Cholly, technicians Jalanzo, the Commander, and the stentorian announcer Devious Septum.

Código de derecho penal internacional Hernando Sánchez Sánchez,Raúl Eduardo Sánchez Sánchez,2009 Con la creación de los tribunales penales internacionales ad hoc para la antigua Yugoslavia y Ruanda y el establecimiento de la Corte Penal Internacional como órgano internacional permanente de investigación y juzgamiento se ha hecho evidente la necesidad de ofrecer un texto especializado que recoja los diferentes instrumentos del derecho penal internacional. Aunque en el ámbito doctrinario existen importantes aportes que contribuyen a la recopilación de los diferentes textos del derecho internacional estos han estado enfocados especialmente en el derecho internacional público y en los crímenes de guerra, sin que haya un compendio que abarque los diferentes instrumentos internacionales relacionados con el derecho penal

internacional. Con la pretensión de hacer una contribución al reconocimiento y al fortalecimiento de las instituciones del derecho internacional este texto sólo incluye los temas sustanciales y no procedimentales del derecho penal internacional; es decir, relaciona los instrumentos jurídicos internacionales que sirven de base dogmática para el estudio de dichas instituciones y deja de lado tratados sobre asistencia judicial, extradición o mecanismos internacionales de cooperación judicial entre los países.

El monte Testaccio y la llanura subaventina
Antonio Aguilera, Antonio Aguilera Martín, 2002 El presente trabajo está dividido en tres capítulos que, desde lo general a lo particular, estudian la formación e historia del Monte Testaccio en la regio XIII de la Roma clásica. El Testaccio es un vertedero estatal dedicado exclusivamente a recibir los envases del aceite encaminado a Roma por el estado romano. En efecto, la excavación que desde 1989 viene realizando en él un equipo español dirigido por los profesores Blázquez y Remesal, ha permitido comprender que el Testaccio es un basurero estatal únicamente constituido por ánforas que llevaron a la Ciudad aceite desde la Bética (« 85%), África del Norte (« 10%) y provincias del Mediterráneo (« 5%). En el tercer capítulo, el último libro, se estudian las vicisitudes históricas del Monte Testaccio, no

sólo en la antigüedad sino también hasta nuestros días. Así, era necesario poner en relación los nuevos hallazgos realizados por la misión arqueológica española, que excava actualmente el Monte con los antiguos datos recogidos por Dressel y Bruzza (básicamente en el CIL SV) y más modernamente por Rodríguez Almeida. Todas estas informaciones debían contrastarse con las noticias históricas que tenemos sobre el Monte desde la Edad Media y que fueron básicamente recopilados por Orano.

Representações Sociais das Práticas Artísticas na Formação e Atuação de Professores do Campo

Cristiene Adriana da Silva Carvalho, 2019-07-16 O livro Representações sociais das práticas artísticas na formação e atuação de professores do Campo lança um novo olhar para as práticas artísticas como formas de concepção, fruição e reflexão artística, presentes no processo de formação e atuação de professores do Campo. A autora constrói a análise das Representações Sociais a partir da abordagem processual e da perspectiva Representações Sociais em Movimento, em busca de analisar as alterações nas formas de pensar, sentir e agir dos sujeitos diante de situações que os pressionam a movimentar. Parte-se de uma perspectiva longitudinal que abordou os sujeitos em seu processo de formação no curso superior e após formados em sua atividade docente. Por seu conteúdo que dialoga com referências das áreas de Ensino da Arte, Prática Docente, Educação do Campo e Representações Sociais, a obra caracteriza-se por uma linguagem didática e dinâmica, apresentando levantamentos do tipo

Estados da Arte dessas áreas do conhecimento, revelando-se como referência fundamental para os pesquisadores que desejam compreender a fundo o processo de construção epistemológico do objeto de estudo. Destaca-se, ainda, o detalhamento dos procedimentos metodológicos utilizados de forma complementar: entrevista narrativa, questionários, análise documental e observação da realidade. Tal leque é um convite ao leitor para apreender informações detalhadas sobre o processo de coleta, categorização e análise de dados, realizado por meio de categorização, análise de trajetórias e análise léxica com o software Iramuteq, revelando-se, dessa forma, de fundamental importância para os pesquisadores que desejam conhecer tais procedimentos. A obra revela-se como leitura fundamental para compreender o crescente panorama de formação de professores do campo no Brasil, bem como um diálogo com a operacionalização do ensino das áreas do conhecimento no contexto real da escola do Campo.
