Daoism Ronnie L. Littlejohn,2009-03-16 'The way that can be told is not the eternal Way; the name that can be named is not the eternal Name.' So begins the first verse of the mysterious Dao De Jing, foundation text of the ancient Chinese religion of Daoism. Often attributed to semi-mythical sage Laozi, the origins of this enigmatic document - which probably came into being in the third century BCE - are actually unknown. But the tenets of Daoism laid down in the Dao De Jing, and in later texts like the Yi Jing (or Book of Changes), continue to exert considerable fascination, particularly in the West, where in recent years they have been popularised by writers such as the novelist Ursula K LeGuin. In this fresh and engaging introduction to Daoism, Ronnie L Littlejohn discusses the central facets of a tradition which can sometimes seem as elusive as the slippery notion of 'Dao' itself. The author shows that fundamental to Daoism is the notion of 'Wu-wei', or non-action: a paradoxical idea emphasising alignment of the self with the harmony of the universe, a universe in continual flux and change. This flux is expressed by the famous symbol of Dao, the 'taiji' representing yin and yang eternally correlating in the form of a harmonious circle. Exploring the great subtleties of this ancient religion, Littlejohn traces its development and encounters with Buddhism; its expression in art and literature; its fight for survival during the

wooden bridges, 118 ferries, 111 stupa monuments, and countless temples and monasteries in Tibet and Bhutan remains an awe-inspiring accomplishment. This book is a detailed study of the life and legacy of this great master. An extensive introduction discusses Tangtong Gyalpo's Dharma traditions, the question of his amazing longevity, his crazy activities manifested to enhance his own realization and to benefit others, and his astonishing engineering and architectural achievements. The book includes a complete translation of the most famous Tibetan biography of Tangtong Gyalpo, as well as the Tibetan text and English translation of a unique early manuscript describing his miraculous death. The text is further enriched with ten color plates and seventy-seven black-and-white illustrations.

Hidden Treasures and Secret Lives Michael Aris, 2012-10-12 First published in 1989. This book includes the Tibetan Buddhist hagiography and concentrates on the lives of Pemalingpa (1450-1521) and the Sixth Dalai Lama (1683-1706). One of the main purposes of this study is to communicate the human qualities of these saints to a rather broader audience.

The Awakened Ones Gananath Obeyesekere, 2012-02-07 While a rational consciousness grasps many truths, Gananath Obeyesekere believes an even richer knowledge is possible through a bold confrontation with the stuff of visions and dreams. Spanning both Buddhist and European forms of visionary experience, he fearlessly pursues the symbolic, nonrational depths of such phenomena, reawakening the intuitive, creative impulses that power greater understanding. Throughout his career, Obeyesekere has combined psychoanalysis and anthropology to illuminate the relationship between personal symbolism and religious experience. In this book, he begins with Buddha's visionary trances wherein, over the course of four hours, he witnesses hundreds of thousands of his past births and eons of world evolution, renewal, and disappearance. He then connects this fracturing of empirical and visionary time to the realm of space, considering the experience of a female Christian penitent, who stares devotedly at a tiny crucifix only to see the space around it expand to mirror Christ's suffering. Obeyesekere follows the unconscious motivations underlying rapture, the fantastical consumption of Christ's body and blood, and body mutilation and levitation, bridging medieval Catholicism and the movements of early modern thought as reflected in William Blake's artistic visions and poetic dreams. He develops the term dream-ego through a discussion of visionary journeys, Carl Jung's and Sigmund Freud's scientific dreaming, and the cosmic and erotic dream-visions of New Age virtuosos, and he defines the parameters of a visionary mode of knowledge that provides a more elastic understanding of truth. A career-culminating work, this volume translates the epistemology of Hindu and Buddhist thinkers for western audiences while revitalizing western philosophical and scientific inquiry.

Masters of Meditation and Miracles Tulku Thondup, 1999-11-16 Masters of Meditation and Miracles presents colorful biographies of thirty-five realized teachers whose lives were full of peace, enlightenment, and amazing miracles. Money Matters Richard T. Gray, 2018-03-23 In Money Matters, Richard Gray investigates the discourses of aesthetics and philosophy alongside economic thought, arguing that their domains are not mutually exclusive. The transition in Germany from an agrarian or proto-industrial economy to a capitalist industrial economy, which was paralleled by a shift from the exchange of money in coin to the use of paper currencies, occurred simultaneously with an efflorescence of German-language literature and philosophy. Based on close readings of canonical literary and philosophical texts, Gray explores how this confluence led to a rich cross-fertilization between economic and literary thought in Germany during this period. Money Matters documents the surprising degree to which literature and philosophy participated in the creation of modern economic paradigms, as well as the extent to which economics influenced literature and philosophy. The cultural artifacts of the period demonstrate the existence of an “economic unconsciousness”: persistent notions of value and exchange that inflect the aesthetic and thematic dimensions of literary and philosophical texts. This book offers a thought-provoking and original analysis of literature and ideas in the critical transition period from Kant and Goethe, through the German Romantics, to Marx.

Wellsprings of the Great Perfection Erik Pema Kunsang, 2012-11-27 Wellsprings of the Great Perfection presents the primary sources explaining how the Dzogchen teachings came into this world, who received them and through whom they passed. It is an impressive collection of original translations from a vast number of classical Tibetan documents, including songs of realization by the early masters of the lineage. The Dzogchen teachings of the Greatest Secret, also known as the Great Perfection, are the words of the compassionate Buddha, and among the causal and resultant vehicles, they are of the type that employ the fruition as the path. Wellsprings of the Great Perfection describes the origin, and gives both short and detailed historical accounts and teachings. I see a profound importance in studying, reflecting upon and practicing the authentic statements and explanations of the Dzogchen lineage masters- especially for people who aspire to realize the Great Perfection- the Through cut of primordial purity, the view of Trekcho. I therefore request readers to keep these scriptures in the center of their hearts. - Chokyi Nyima Rinpoche, author of Present Fresh Wakefulness The ultimate origin and absolute teachings of Dzogchen inscribed in this most sacred text and whispered by the greatest adepts of its lineage are finally available in this volume. Every serious student Dzogchen must study and enshrine it in their heart. - Tulku Thondup, author of The Healing Power of Mind

The Life of Shabkar ,2001-02-06 The Life of Shabkar has long been recognized by Tibetans as one of the masterworks of their religious heritage. Shabkar Tsogdruk Rangdrol devoted himself to many years of meditation in solitary retreat after his inspired youth and early training in the province of Amdo under the guidance of several extraordinary Buddhist masters. With determination and courage, he mastered the highest and most esoteric practices of the Tibetan tradition of the Great Perfection. He then wandered far and wide over the Himalayan region expressing his realization. Shabkar's autobiography vividly reflects the values and visionary imagery of Tibetan Buddhism, as well as the social and cultural life of early nineteenth-century Tibet.
