Kevin Trudeau's Mega Memory Kevin Trudeau, 1997-04-23 Do you think you have a bad memory? Impossible, says Kevin Trudeau, the world's foremost authority on memory improvement training. There are no bad memories, only untrained memories. In order to release our natural memory, Trudeau says, we just need to learn to retrieve what we already know. As founder of the American Memory Institute, Kevin Trudeau has already helped more than one million people do just that. Each Mega Memory lesson in this book takes no more than thirty minutes per day and uses pictures, rather than the laborious word-association techniques of other memory systems, to activate our inborn memory. With this easy-to-follow system, you'll be able to instantly remember names, phone numbers, addresses, financial data, speeches, and schoolwork. Even better, Trudeau's system ensures instant recall and long-term Mega Memory. All you need is the desire to unleash your Mega Memory, and you can reap all these incredible rewards! Labeled with a learning disability at an early age, Kevin Trudeau was convinced his problem was an inability to recall information. He read everything he could on memory improvement. Eventually, he developed his own program for memory retrieval and formed the American Memory Institute. His Mega Memory home study system is the most utilized self-improvement series of all time.

Language, Culture, and Teaching Sonia Nieto,2017-09-01 Distinguished multiculturalist Sonia Nieto speaks directly to current and future teachers in this thoughtful integration of a selection of her key writings with creative pedagogical features. Offering information, insights, and motivation to teach students of diverse cultural, racial, and linguistic backgrounds, examples are included throughout to illustrate real-life dilemmas about diversity that teachers face in their own classrooms; ideas about how language, culture, and teaching are linked; and ways to engage with these ideas through reflection and collaborative inquiry. Designed for upper-undergraduate and graduate-level students and professional development courses, each chapter includes critical questions, classroom activities, and community activities suggesting projects beyond the classroom context. *Language, Culture, and Teaching* • explores how language and culture are connected to teaching and learning in educational settings; • examines the sociocultural and sociopolitical contexts of language and culture to understand how these contexts may affect student learning and achievement; • analyzes the implications of linguistic and cultural diversity for classroom practices, school reform, and educational equity; • encourages practicing and preservice teachers to reflect critically on their classroom practices, as well as on larger institutional policies related to linguistic and cultural diversity based on the above understandings; and • motivates teachers to understand their ethical and political responsibilities to work, together with their students, colleagues, and families, for more socially just classrooms, schools, and society. Changes in the Third Edition: This edition includes new and updated chapters, section introductions, critical questions, classroom and community activities, and resources, bringing it up-to-date in terms of recent educational policy issues and demographic changes in the U.S. and beyond. The new chapters reflect Nieto's current thinking about the profession and society, especially about changes in the teaching profession, both positive and negative, since the publication of the second edition of this text.
