Cyber Criminology Hamid Jahankhani, 2018-11-27 This book provides a comprehensive overview of the current and emerging challenges of cyber criminology, victimization and profiling. It is a compilation of the outcomes of the collaboration between researchers and practitioners in the cyber criminology field, IT law and security field. As Governments, corporations, security firms, and individuals look to tomorrow's cyber security challenges, this book provides a reference point for experts and forward-thinking analysts at a time when the debate over how we plan for the cyber-security of the future has become a major concern. Many criminological perspectives define crime in terms of social, cultural and material characteristics, and view crimes as taking place at a specific geographic location. This definition has allowed crime to be characterised, and crime prevention, mapping and measurement methods to be tailored to specific target audiences. However, this characterisation cannot be carried over to cybercrime, because the environment in which such crime is committed cannot be pinpointed to a geographical location, or distinctive social or cultural groups. Due to the rapid changes in technology, cyber criminals' behaviour has become dynamic, making it necessary to reclassify the typology being currently used. Essentially, cyber criminals' behaviour is evolving over time as they learn from their actions and others' experiences, and enhance their skills. The offender signature, which is a repetitive ritualistic behaviour that offenders often display at the crime scene, provides law enforcement agencies an appropriate profiling tool and offers investigators the opportunity to understand the motivations that perpetrate such crimes. This has helped researchers classify the type of perpetrator being sought. This book offers

readers insights into the psychology of cyber criminals, and understanding and analysing their motives and the methodologies they adopt. With an understanding of these motives, researchers, governments and practitioners can take effective measures to tackle cybercrime and reduce victimization.

Matrix política Daniel Ivoskus, 2022-09-05 El riguroso trabajo de transitar el camino que lleva a una persona a ganar una elección requiere metodología y trabajo. Un plan de acción de pasos concretos que en su conjunto conforman la matriz de la Matrix. No hay político que no se parezca a sus votantes. Y los resultados de cada elección no son más que espejos en los que quienes depositaron el voto en una urna miran a la persona que los representa. A un consultor le pertenece la estrategia, pero quien decide siempre si se ejecuta o no es el candidato. Ese intercambio de poder, con los límites que cada uno tiene, hará que esa relación sea exitosa y la campaña se traduzca en votos que son, finalmente, lo único que interesa a ambos. Este es un libro para quienes quieran incursionar en el vasto mundo de la política como candidatos, consultores, comunicadores y periodistas. Y un libro para el votante, para que conozca cómo se produce ese encuentro nada casual entre el líder y él. También para el que no sabe cómo empezar una carrera política, pero sueña con cómo terminarla. Para el que necesita profesionalizarse y aggiornarse a las nuevas herramientas. Es un libro para políticos de carácter, decididos, que no quieren cometer errores o por lo menos minimizarlos al extremo. Y también un libro para que la gente que vota sepa que tiene la llave más poderosa, que es la de hacer valer su opinión, su pensamiento y su palabra a través de las urnas, en el sublime acto de elegir a sus representantes. A ese posible candidato y lector de este libro le abro la puerta de la Matrix. Esa usina móvil de ideas, sentimientos, planificación, asesoramiento, investigación y planteos que convertirán el deseo de un hombre o una mujer en el plan de acción de un candidato.

The profile of a man of God Edir Macedo, 2018-07-17 God needs people who are

filled with the Holy Spirit, who are worried about their own will or future, and who have adopted the character of the Lord Jesus. These people need to think like He thinks, speak like He speaks, behave like He behaves, and feel like He feels. These people must embrace their faith in the Lord Jesus in order to be tools in God's hands and reveal His character to the world. The Lord Jesus said that many are called but few are chosen. But who is chosen. But who is chosen? How are they identified? Why were anointed men of the past different from men today? In The Profile of a Man of God, Bishop Macedo tries to answer these and many other questions based on what he has seen in the Work of God and, above all, in His Word.

Pablo Escobar's Dietbitcoin Roberto Escobar, 2018-03-16 PABLO ESCOBAR'S DIETBITCOIN - THE TRUE LIFESTORY OF HIS BROTHER AND WHAT LEAD TO THE CREATION OF DIETBITCOIN Arguably the largest and most successful criminal enterprise in history, at times the Medellin drug cartel was smuggling 15 tons of cocaine a day, worth more than half a billion dollars, into the United States. Roberto Escobar knows - he was the accountant who kept track of all the money. How much money? According to Roberto, he and his brother's operation spent \$1000 a week just purchasing rubber bands to wrap the stacks of cash -- and since they had more illegal money than they could deposit in the banks, they stored the bricks of cash in their warehouses, annually writing off 10% as spoilage when the rats crept in at night and nibbled on the hundred dollar bills. At the height of this cartel's reach, in order to help them deliver their goods,

the Escobars purchased thirteen 727 airliners from Eastern Airlines when that airline went bankrupt. They also purchased six Russian mini-submarines. Roberto knows - he did the books. In short, this is Pablo Escobar's story in the words of one of his closest confidants, his brother Roberto. It's all here -- the brutal violence inside the world of the drug cartel, dealing with American drug forces and the CIA, the problems the Escobars faced when going up against the Colombian mafia, even Pablo's moments of kindness and compassion towards less fortunate countrymen in Colombia. others. As Roberto points out, although many people view Escobar as a monster, thousands still visit his grave every year to mourn him, and revere him as a savior. Now in his 60s, Roberto, who has served 14 years in Colombian jail for his part in the Medellin cartel, now wants to set the record straight, once and for all. After all of the violence, Roberto Escobar settles down and launches his own Cryptocurrency called dietbitcoin (DDX). He does this in response to what he believes is the fraud that the American government is pulling by them having created bitcoin which is set to fail.

Sin and Repentance Denis O'Callaghan, 1967

Secrets of Occultism Oliver Bland, 2007-10 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the

angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of

the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

In the footsteps of Jesus Edir Macedo, 2018-07-13 How can we find the way? Since the world began people have always looked for a way out of their problems - often without success. Many have claimed they have the 'solution' to all life's problems and promise to bring hapiness and meaning to life. In *The Footsteps of Jesus* is an easy-to-read book that will not only help people find their way out of their problems, but also teach them how to get the most out of life. And most importantly, how to live forever.
