Restoring Trust In Higher Education Aneil K. Mishra,2017-03-09 Leaders from both private and public institutions provide a 360-degree view of the challenges and opportunities facing higher education—and offer a manifesto for restoring relevance and respect. Where is the value in higher education? How can higher education restore its relevance and trust with students and parents? Are there really any meaningful differences between public and private higher education? This volume probes those questions and more, exploring the myriad issues that have led many people to question whether higher education is worth the sacrifices it requires of parents and students. Drawing on the experience and expertise of a wide variety of highly renowned academics, respected government officials, and well-grounded individuals from the private sector, this thought-provoking book offers readers simple but powerful ways to evaluate whether prospective colleges and universities merit the very substantial investment of time, abilities, and financial resources they necessitate. Readers will learn what to look for in a college or university and what questions to ask in selecting an institution of higher education. They will also learn how parents, students, academicians, and other stakeholders can advocate for changes to benefit both higher education and the constituency it serves.

The Street Smart MBA James Mangraviti, Steven Babitsky, 2014-03-01 Business schools have long enticed students into their MBA programs with the promise that, after a short stint spent studying the ins and outs of the business world, they will be able to step right into the upper echelons of management or launch a business that soon has them flitting about the world in a private jet. Sounds great, you say. Sign me up! Not so fast. Sure, business school might prove a necessary prerequisite for those aiming to gain employment at a large financial institution, land a job with a consultancy, or accelerate their journey to managerial superstardom at a Fortune 500 company. But for aspiring entrepreneurs and established business owners alike, the truth of the matter is this: The ability to get a business off the ground and running successfully is not the byproduct of toiling away in a classroom, learning esoteric subjects like the economics of competition. Rather, all it takes to start and run a truly successful business are a few sensible, time-proven techniques that have been needlessly forgotten in business innovators' haste to reinvent the wheel. That's why, in *The Street Smart MBA*, Steve Babitsky and James J. Mangraviti, Jr., encourage you to ditch class—or, better yet, ditch b-school altogether—and go back to the business basics with a series of ten simple steps that will do more for your company than the letters M, B, and A ever will. There are no forays into game theory in *The Street Smart MBA*, no parables, and no intellectualizing. Instead what you will find is a practical, easy-to-understand, step-by-step business strategy guide that

encourages you to revive a handful of basic yet essential practices that many business owners have lost sight of, such as: Building a brand that is so synonymous with quality that you'll be able to maximize your company's profits in no time; Turning your company's products and services into profits by finding your company a niche, working with deadlines, and honoring your company's image above all else; Dealing with customer complaints head-on so that you can turn gripes into opportunities; Doing favors, mentoring, and sending gifts, in order to grow your business network; And much more. With its emphasis on ten simple yet time-honored principles that lead to business success, The Street Smart MBA is all the business education that entrepreneurs with great ideas and business owners with the drive to succeed will ever need.

Driving Innovation With For-Profit Adult Higher Education Online

Institutions Stein, David, Glazer, Hilda R., Wanstreet, Constance, 2022-01-14
The emergence of remote and for-profit universities has provided increased opportunities for adult learners to obtain higher education degrees in a technologically-dependent teaching-learning environment. During the pandemic, for-profit online learning institutions experienced increases in enrollment while face-to-face institutions experienced a decrease. Higher education accreditation bodies have legitimized distance learning virtual universities as sites for adult learners, especially part-time adult learners, and made distance education an accepted way to receive a higher education degree.

Driving Innovation With For-Profit Adult Higher Education Online Institutions focuses on teaching and learning in distance learning remote universities. This book explores, describes, and questions the role of these institution in the higher education landscape. This publication examines the ideas, programs, student services, and curriculum innovations that created the space for the for-profit distance education university to become a competitive force in the higher education marketplace. Covering topics such as driving achievement, internships, and part-time faculty, this book is an essential resource for university leaders, administrators, faculty, student services leadership and staff, higher education historians and researchers, accreditors and regulators, and academicians.

Hospitable Healthcare Stowe Shoemaker, Peter Yesawich, 2023-09-05 “We thought we knew what patients needed...— Dr. James Merlino, Cleveland Clinic Most consumers agree their service experiences with hospitals, clinics, and physicians fall well short of their service experiences with hotels, resorts, and restaurants. So, what would their experiences be like if healthcare providers served them the same way hospitality providers do? Given that both industries share many common service touchpoints, one wonders whether healthcare service providers could adopt principles of hospitality to enhance the patient experience. The insights shared in this book reveal the answer: yes! Rich with original survey data, examples, and interviews with widely admired hospitality and healthcare service practitioners, *Hospitable*

Healthcare is a valuable resource guaranteed to enhance the patient experience. The first of its kind, Hospitable Healthcare introduces healthcare providers to an original service model based on principles the hospitality industry has used to create great guest experiences: PAEER (for Prepare, Anticipate, Engage, Evaluate, Reward). The model addresses four trends impacting healthcare: more patient-directed selection of healthcare service providers; greater transparency in the pricing of healthcare services to promote competition; more direct-to-consumer marketing to attract new patients; and the growing importance of patient satisfaction when payors determine reimbursement. As Shoemaker's and Yesawich's work reveals, Hospitable Healthcare is indeed just what the patient ordered!

Human Resource Management for MBA and Business Masters Iain Henderson, 2017-01-31 Packed with practical information and offering a solid foundation in HRM theory, *Human Resource Management for MBA and Business Masters* covers all the topics MBA students need to know in a concise, accessible way. One of the only texts available for HR non-specialist students doing a Masters or MBA, it looks at the changing world of the line manager and HR professional with regard to key topics such as HRM and strategy, employee resourcing, human resource development, employee relations and performance management. Annotated further reading for each chapter and questions for each case study help cement knowledge and understanding. Now aimed at a wider readership of management Masters students, this fully

updated 3rd edition of Human Resource Management for MBA and Business Masters features a greater international and contemporary focus, fresh case studies, coverage of the impact of new forms of employment and technology on HR, and updated online supporting resources. With diagrams and models throughout, it covers topics such as CSR, organizational culture and change, performance management and talent management, the criticisms of HRM levelled by the Critical Management School and different HRM challenges as they relate to each chapter. Online supporting resources for tutors include an instructor's manual, videos, multiple-choice questions and additional case studies; additional resources for students include multiple-choice questions and additional case studies.

Trust Tarun Khanna, 2018-08-14 A Harvard Business School professor and international entrepreneur explains the crucial ingredient for success in the developing world. Entrepreneurial ventures often fail in the developing world because of the lack of something taken for granted in the developed world: trust. Over centuries the developed world has built up customs and institutions like enforceable contracts, an impartial legal system, credible regulatory bodies, even unofficial but respected sources of information like Yelp or Consumer Reports that have created a high level of what scholar and entrepreneur Tarun Khanna calls "ambient trust." If a product is FDA-approved we feel confident it's safe. If someone makes an untrue claim or breaks an agreement we can sue. Police don't demand bribes to do their jobs. Certainly

there are exceptions, but when brought to light they provoke a scandal, not a shrug. This is not the case in the developing world. But rather than become casualties of mistrust, Khanna shows that smart entrepreneurs adopt the mindset that, like it or not, it's up to them to weave their own independent web of trust—with their employees, partners, clients, and customers—and with society as a whole. This can requires innovative approaches in places where the level of societal mistrust is so high that, as in one example Khanna provides, an official certification of quality simply arouses suspicion—and lowers sales! Using vivid examples from Brazil, China, India, Mexico and elsewhere, Khanna shows how entrepreneurs can build on existing customs and practices instead of trying to push against them. He highlights the role new technologies can play (but cautions that these are not panaceas), and explains how entrepreneurs can find dependable partners in national and local governments to create impact at scale

The SPEED of Trust Stephen R. Covey, Rebecca R. Merrill, 2008-02-05 Explains how trust is a key catalyst for personal and organizational success in the twenty-first century, in a guide for businesspeople that demonstrates how to inspire trust while overcoming bureaucratic obstacles.

Managing Nothing Sudhir Varadarajan,2015-08-14 The Indian IT industry, which has grown at a phenomenal rate since 1991, today finds itself on the brink of a potentially painful transition to deliver more value and innovation. Managing Nothing throws new light on the challenge of innovation that has dogged the industry for over two decades. Drawing upon two decades of action research experience in two leading Indian IT firms, the author, through a narrative-reflexive inquiry, argues that the current crisis is not because leaders lacked foresight or business acumen. Instead, it is the limitation of mainstream managerial thought in dealing with the complexity of human interaction in global IT service networks that has reduced the pursuit of higher level capabilities such as consulting, service design and innovation to nothing. To help correct the situation, the book makes a startlingly obvious yet counter-intuitive suggestion: it exhorts managers and employees to pay attention to the small differences that emerge in ordinary day-to-day workplace interactions among people, i.e., the micro-politics of everyday work.

MBA Douglas Board,2015-09-07 Why is so much of the world MBA? When business school hot shot Ben Stillman is fired, he has the chance to find out. Ben jumps head first into turning his former business school into world-class madrasa of capitalism. Ben has 10 days to rescue the launch of its spectacular glass tower, and his own career—as well as confront terrorist

plots, undercover police, the extravagant demands of the super-rich, and the only woman who can save him from this madness. A satirical thriller, a love story, and a wry look at modern management ideology all rolled into one.

The Book of Trust Yoram Solomon, 2020-01-14 In *The Book of Trust*, 13-times author and founder of the Trust Building Institute Dr. Yoram Solomon shows you how to build the most important quality you can have: your trustworthiness. A trustworthy salesperson can sell the same product for 29.6% higher price. A trustworthy leader can increase productivity by 64%. Trustworthy CEOs generate 286% better shareholder returns. Yet, trust is deteriorating rapidly in our country. We have lost trust in the government, the media, major brands, our companies, and in each other. This book explains the seven laws of trust: Law #1: Trust is Continuous. Law #2: Trust is Contextual. Law #3: Trust is Personal. Law #4: Trust is Asymmetrical. Law #5: Trust is Transferable. Law #6: Trust is Reciprocal. Law #7: Trust is Two-sided. The model in this book demonstrates how to build your trustworthiness through six components: competence, shared values, fairness/symmetry, positivity, time, and intimacy. This model is based on more than a decade of research done by the author, decades of experience as an executive and board member of multiple organizations, from startups to multi-billion dollar entities, as an elected official, and as a member of the Israeli Defense Forces 35th Airborne Paratroopers brigade. This book is not theoretical. While based on research, it offers a strong action plan that helps you

identify and build the habits that will make you trustworthy. It is accompanied by a series of mini-books that include specific, one-page habits that would address any trustworthiness issue you might have in any relationship, professional or personal.

A Social Contract with Business as the Basis for a Postmodern MBA in a World of Inclusive Globalisation Jopie Coetzee, 2009 In A Social Contract with Business as the Basis for a Postmodern MBA in a World of Inclusive Globalisation, Jopie Coetzee places the MBA qualification on the centre stage

of the 21st century's global challenges facing humanity. He makes three substantial and original contributions to the field of Business Leadership. Firstly, he introduces a new research methodology, termed critical metasynthesis. Secondly, he presents a new model, termed The Social Contract with Business as the *raison d'être* for postmodern business. Thirdly, he develops a new educational context, a new vocabulary, as well as guidelines for a new canon of knowledge for business education and curriculum design for the postmodern MBA.

Mba Before College Aileen Yi Fan, 2018-10-17 Mark Twain said, "Twenty years from now you will be more disappointed by the things that you didn't do than by the ones you did do." I encourage every child to start his or her own business in college or high school, a time when no mortgage or family commitments are involved. It has never been easier to start a business in today's digitally connected world. Research shows that the fastest way to achieve financial freedom and fulfill one's growth and contribution is to start a business. The main purpose of this book is to introduce you to the concept of business administration, so you can start your business properly. The book covers the basic principles of business success: authentic leadership; effective communication; managing money, people and resources; acquiring skills and tools in operations, finance, and marketing; and understanding the business environment, economics, and the entrepreneurial process.
