Anita Dennis

After the Software Wars Keith Curtis,2009 Computers are an advancement whose importance is comparable to the invention of the wheel or movable type. While computers and the Internet have already changed many aspects of our lives, we still live in the dark ages of computing because proprietary software is still the dominant model. One might say that the richest alchemist who ever lived is my former boss, Bill Gates. (Oracle founder Larry Ellison, and Google co-founders Sergey Brin and Larry Page are close behind.) Human knowledge increasingly exists in digital form, so building new and better models requires the software to be improved. People can only share ideas when they also share the software to display and modify them. It is the expanded use of free software that will allow a greater ability for people to work together and increase the pace of progress. This book will demonstrate that a system where anyone can edit, share, and review the body of work will lead not just to something that works, but eventually to the best that the world can achieve! With better cooperation among our scientists, robot-driven cars is just one of the many inventions that will arrive -- pervasive robotics, artificial intelligence, and much faster progress in biology, all of which rely heavily on software. - Publisher.

Adobe After Effects 7.0 Anita Dennis,2006 Learn how to create, manipulate, and optimize motion graphics for film, video, DVD, and the web. In this series of lesson, you'll learn how to produce animations, dazzling effects, 3D layers - and much more! The book covers the basics of learning After Effects and provides countless tips and techniques to help you become more productive and adept using it. You can follow the book form start to finish, or choose only those lessons that interest you. -- back cover.

Password Patricia Inc Bunin,2013-02 Password: SeniorMoment is based on Patricia Bunin's weekly Senior Moments column published in the San Gabriel Valley Tribune, Whittier Daily News, Redlands Daily Facts, Pasadena Star-News, San Bernardino Sun, and the Inland Valley Daily Bulletin. The book is a collection of personal vignettes that illustrate how aging adults design and define their lives. The stories within deal with everything from taking care of aging parents to online dating to learning the ins and outs of the Internet.
