Word and Image in Russian History Maria di Salvo, Daniel H. Kaiser, Valerie A. Kivelson, 2019-08-28 *Word and Image* invokes and honors the scholarly contributions of Gary Marker. Twenty scholars from Russia, the United Kingdom, Italy, Ukraine and the United States examine some of the main themes of Marker's scholarship on Russia—literacy, education, and printing; gender and politics; the importance of visual sources for historical study; and the intersections of religious and political discourse in Imperial Russia. A biography of Marker, a survey of his scholarship, and a list of his publications complete the volume. Contributors: Valerie Kivelson, Giovanna Brogi (University of Milan), Christine Ruane (University of Tulsa), Elena Smilianskaia (Moscow), Daniela Steila (University of Turin), Nancy Kollmann (Stanford University), Daniel H. Kaiser (Grinnell College), Maria di Salvo (University of Milan), Cynthia Whittaker (City Univ. of New York), Simon Dixon (University of London), Evgenii Anisimov (St. Petersburg), Alexander Kamenskii (Higher School of Economics, Moscow), Janet Hartley (London School of Economics), Olga Kosheleva (Moscow State University), Maksim Yaremenko (Kyiv), Patrick O'Meara (University of Durham), Roger Bartlett (London), Joseph Bradley (University of Tulsa), Robert Weinberg (Swarthmore College)

By Honor Bound Nancy Shields Kollmann, 2016-11-01 In the sixteenth and seventeenth centuries, Russians from all ranks of society were bound together by a culture of honor. Here one of the foremost scholars of early modern Russia explores the intricate and highly stylized codes that made up this culture. Nancy Shields Kollmann describes how these codes were manipulated to construct identity and enforce social norms—and also to defend against insults, to pursue vendettas, and to unsettle communities. She offers evidence for a new view of the relationship of state and society in the Russian empire, and her richly comparative approach enhances knowledge of statebuilding in premodern Europe. By presenting Muscovite state and society in the context of medieval and early modern Europe, she exposes similarities that blur long-standing distinctions between Russian and European history. Through the prism of honor, Kollmann examines the interaction of the Russian state and its people in regulating social relations and defining an individual's rank. She finds vital information in a collection of transcripts of legal suits brought by elites and peasants alike to avenge insult to honor. The cases make clear the conservative role honor played in society as well as the ability of men and women to employ this body of ideas to address their relations with one another and with the state. Kollmann demonstrates that the grand princes—and later the tsars—tolerated a surprising degree of local autonomy throughout their rapidly expanding realm. Her work marks a stark contrast with traditional Russian historiography, which exaggerates the power of the state and downplays the volition of society.

Russia, Ritual, and Reform Paul Meyendorff, 1991 The reform of the liturgical books conducted in Muscovite Russia in the mid-17th century was an alignment of Russian liturgical usage with contemporary Greek practice. Historians have up to now generally accepted the official interpretation of the reform as a correcting made on the basis of ancient Greek and Slavic sources. In fact, the reform was based exclusively on contemporary sources chiefly the 1602 Venice Euchologion (Greek) and 17th century South-Slavic editions from Kiev and Striatin. Far from being a return to sources, or a correction, the reform consisted simply in the uncritical transposition of contemporary Greek practice onto Russian soil.

A Vision of Change for America United States. President (1993-2001 : Clinton), Bill Clinton, United States. Office of Management and Budget, 1993 This report was prepared to accompany President Clinton's first address to a Joint Session of Congress. It describes in detail the comprehensive economic plan being proposed by the new administration for the nation. The plan has three key elements: economic stimulus to create jobs now while laying the foundation for long-term economic growth; long term public investments to

increase the productivity of people and businesses; and a balanced deficit-reduction plan to prevent the drain of private investments that generate jobs and increase incomes. The text is organized into four sections: (1) A New Direction (a brief 3-page preamble); (2) A Legacy of Failure (a 16-page statement of the problem, under subheadings such as Skyrocketing Health Care Costs); (3) What We Must Now Do (a 92-page statement of the solution, under subheadings such as Investing in the Future: Reducing the Deficit To Increase Private Investment and Restoring Fairness); and (4) The Task Remaining (a brief 6-page wrap-up). A closing Appendix contains 25 pages of statistical tables outlining various discretionary program savings, proposed changes to mandatory programs, stimulus proposals, investment proposals, and revenue and receipts proposals. Most tables provide figures for each year for the 6-year period 1993-1998. The field of education is touched upon in the report at six locations: (1) Relative Earnings by Education for 25-34 Year Olds (Chart 2-9, p. 18); (2) Chapter 1 Compensatory Education (p.31); (3) Pell Grants (p. 32); (4) Lifelong Learning, covering full funding of Head Start and related child care funding and Medicaid, National Service, Dislocated Workers Program, Job Corps Expansion, Summer Youth Employment and Training Program, Youth Apprenticeship, and various Department of Education reforms and initiatives (p. 57-59); (5) Impact Aid b Projects (p. 87); and (6) Reform of Student Loan Programs (p. 92). Picturing Russia Valerie Ann Kivelson, Joan Neuberger, Associate Professor of History Joan Neuberger, 2008-01-01 What can Russian images and objects—a tsar's crown, a provincial watercolor album, the Soviet Pioneer Palace—tell us about the Russian people and their culture? This wide-ranging book is the first to explore the visual culture of Russia over the entire span of Russian history, from ancient Kiev to contemporary, post-Soviet society. Illustrated with more than one hundred diverse and fascinating images, the book examines the ways that Russians have represented themselves visually, understood their visual environment, and used visual images in social and political contexts. Expert contributors discuss images and objects from all over the Russian/Soviet empire, including consumer goods, architectural monuments, religious icons, portraits, news and art photography, popular prints, films, folk art, and more. Each of the concise and accessible essays in the volume offers a fresh interpretation of Russian cultural history. Putting visibility itself in focus as never before, *Picturing Russia* adds an entirely new dimension to the study of Russian literature, history, art, and culture. The book enriches our understanding of visual documents and shows the variety of ways they serve as far more than mere illustration.

Old Believers in a Changing World Robert Crummey, 2011-04-26 This important collection of essays by a pioneer in the field focuses on the history and culture of a conservative religious tradition whose adherents have fought to preserve their beliefs and practices from the seventeenth century through today. Old Belief had its origins in a protest against liturgical reforms in the Russian Orthodox Church in the mid-1600s and quickly grew into a complex torrent of opposition to the Russian state, the official church, and the social hierarchy. For Old Believers, periods of full religious freedom have been very brief—from 1905 to 1917 and since the fall of the Soviet Union. Crummey examines the ways in which Old Believers defend their core beliefs and practices and adjust their polemical strategies and way of life in response to the changing world. Opening chapters survey the historiography of Old Belief, examine the methodological problems in studying the movement as a Russian example of popular religion, and outline the first decades of the history. Particular themes of Old Believer history are the focus of the rest of the book, beginning with two sets of case studies of spirituality, culture, and intellectual life. Subsequent chapters analyze the diverse structures of Old Believer communities and their fate in times of persecution. A final essay examines publications of contemporary scholars in Novosibirsk whose work provides glimpses of the life of traditional believers

in the Soviet period. Old Believers in a Changing World will appeal to scholars and students of Russian history, to those interested in Eastern Orthodoxy, and to those with an interest in the comparative history of religious movements.

At War with the Church Georg Bernhard Michels, 1999 This detailed study examines the social, religious, and institutional conflicts accompanying the Russian Schism of the seventeenth century. By analyzing who opposed the reforms of Patriarch Nikon (1652-58) and under what circumstances, the author presents a complex and multi-faceted world of popular religious resistance that has been hidden from view for centuries. The documentary records of Russian church and state archives--most studied here for the first time--reveal that the schism evolved in two phases. The first phase began in 1652 and encompassed the activities of Old Believer literati as well as unrelated protests by social outcasts and independent-minded individuals. The second phase began in 1666 with a systematic church campaign to enforce the Nikonian forms of worship. The author argues that the vast majority of ordinary Russians rejected Nikonian symbols such as the three-finger sign of the cross and the new service book because they perceived them as tokens of obedience to church authority, and not because they responded to the teachings of Old Believers. In fact, the book demonstrates that seventeenth-century Old Believers' literary and moralist concerns aroused little interest among contemporaries. The Russian Schism's central feature was the assertion of religious autonomy by clerics and laymen. Countless small, locally endowed hermitages and a few larger monasteries, having never been integrated into the church's institutional structure, were now in revolt; monks and nuns living outside of official monasteries preached heterodox ideas and violence, or founded alternative communities in the forests; defrocked and unemployed priests, deeply hostile to the church, participated in local uprisings; and a number of parish priests defended themselves with force against attempts to depose them. Manifestations of lay dissent included attacks by peasants and brigands on church representatives in Siberia and at Lake Onega; group suicides; quasi-Protestant quests for religious salvation by individual peasants and artisans; and underground religious networks sponsored by Novgorod and Pskov merchants. The book provides a thorough reassessment of the Russian Schism, relying primarily on archival documents and thus departing from the traditional focus on Old Believer writings and biographies.

Archpriest Avvakum, the Life Written by Himself Avvakum Petrovich (Protopope), 1979

Days of a Russian Noblewoman Anna Labzina, 2001 Providing a unique glimpse into the domestic life of Russia's nobility in the late eighteenth and early nineteenth centuries, Days of a Russian Noblewoman combines a rare memoir and a diary, now translated into English for the first time. Anna Labzina was relatively well educated by the standards of her day, and she traveled widely through the Russian empire. Yet, unlike most writers of her time, she writes primarily as a dutiful, if inwardly rebellious, daughter and wife, reflecting on the onerous roles assigned to women in a male-centered society. Labzina was married young to Alexander Karamyshev, who, while well regarded in political and scholarly circles of his day, proved to be brutish and abusive at home. A Russian Voltairian, he professed atheism and free love. His unbridled behavior caused Labzina much grief, which she vividly recalls in her memoir. Because she moved among aristocratic circles, her reminiscences bring readers face to face with celebrated figures of politics and literature, including the Empress Catherine the Great and the Radiant Prince Grigorii Potemkin. As a pious and charitable woman, Labzina also speaks for others who rarely had a voice in literature: serfs, prisoners, and political exiles. Labzina wrote both her memoir and her diary during her second marriage, to Alexander Labzin, a leader in Russian Freemasonry and in the movement for religious revival. At the same time, she became actively involved in the spiritual life of his lodge, the Dying Sphinx. Her account of

her spiritual development and her social sphere offer unparalleled insights into male and female sensibilities of the time.

Religion und Integration im Moskauer Russland Ludwig Steindorff, 2010 Wie im gesamten mittelalterlichen und frühneuzeitlichen Europa fiel der Religion auch im Moskauer Reich eine Schlüsselrolle bei der Legitimation von Herrschaft und Integration der Gesellschaft zu. Die Vereinheitlichung der Lebensformen auf der Grundlage orthodoxer Kirchlichkeit war ein Bindeglied für die meisten Gebiete des Reiches. Doch konnte religiöser Dissens die Integration auch fallweise in Frage stellen? Wie weit ging die Kommunikation über die religiösen Grenzen hinweg? Waren doch im Moskauer Reich neben der Orthodoxie auch andere christliche Konfessionen, Islam und Naturreligionen präsent? In welchem Verhältnis standen die protonationalen Integrationspraktiken der russischen Orthodoxie zu den Anliegen imperialer Herrschaft? Lässt sich beim Vergleich mit Westeuropa von 'Gleichzeitigkeit des Ungleichzeitigen' mit Bezug auf Phänomene der religiösen Praxis sprechen? Können wir das Konfessionalisierungsparadigma auf die Geschichte des Moskauer Reiches übertragen? Autorinnen und Autoren aus Russland, Deutschland, den USA, Frankreich und Finnland geben hierzu Antworten. Der von Ludwig Steindorff herausgegebene Sammelband ist aus der X. Internationalen Konferenz zur altrussischen Geschichte her vorgegangen, die 2008 in Kiel stattfand.

The History of Time: A Very Short Introduction Leofranc Holford-Strevens, 2005-08-11 Why do we measure time in the way that we do? Why is a week seven days long? At what point did minutes and seconds come into being? Why are some calendars lunar and some solar? The organisation of time into hours, days, months and years seems immutable and universal, but is actually far more artificial than most people realise. The French Revolution resulted in a restructuring of the French calendar, and the Soviet Union experimented with five and then six-day weeks. Leofranc Holford-Strevens explores these questions using a range of fascinating examples from Ancient Rome and Julius Caesar's imposition of the Leap Year, to the 1920s' project for a fixed Easter. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Growth of the Law in Medieval Russia Daniel H. Kaiser, 2014-07-14 By examining the growth of legal institutions and concepts in Russia from the twelfth to the fifteenth centuries, Daniel Kaiser shows how the process of legal change reflects a gradual transformation of the political life, social relations, and accepted values of a traditional society. The Petrine Revolution in Russian Culture James Cracraft, 2009-07-01 The reforms initiated by Peter the Great transformed Russia not only into a European power, but into a European culture--a shift, argues James Cracraft, that was nothing less than revolutionary. The author of seminal works on visual culture in the Petrine era, Cracraft now turns his attention to the changes that occurred in Russian verbal culture. The forceful institutionalization of the tsar's reforms--the establishment of a navy, modernization of the army, restructuring of the government, introduction of new arts and sciences--had an enormous impact on language. Cracraft details the transmission to Russia of contemporary European naval, military, bureaucratic, legal, scientific, and literary norms and their corresponding lexical and other linguistic effects. This crucial first stage in the development of a modern verbal culture in Russia saw the translation and publication of a wholly unprecedented number of textbooks and treatises; the establishment of new printing presses and the introduction of a new alphabet; the compilation, for the first time, of grammars and dictionaries of Russian; and the initial standardization, in consequence, of the modern Russian literary language. Peter's creation of the St. Petersburg Academy of Sciences, the chief agency advancing these reforms, is also highlighted. In the conclusion to his masterwork, Cracraft deftly pulls together the Petrine reforms in verbal and visual culture to portray a revolution that would have dramatic consequences for Russia, and for the world.
