Precision Gearing: Theory and Practice George W. Michalec,1966

America at the Mall Lisa Scharoun,2014-01-10 Since the construction of the first fully enclosed shopping center in 1952, the shopping mall has evolved into the heart of many suburban areas across the United States. More than simply a place to purchase goods, this veritable “temple of consumerism” has become a primary place for community and social interaction and an essential element in many citizens’ day-to-day lives. This study explores the spiritual, emotional and physical effects of the enclosed shopping mall on the public, chronicling the growth of the mall, its role in shaping urban and suburban life, its positive and negative impacts on society and the environment, and its future viability. As this work shows, the mall remains rich in symbolic influence, and in many ways mirrors the American condition.

An All-Consuming Century Gary Cross,2000-09-14 The unqualified victory of consumerism in America was not a foregone conclusion. The United States has traditionally been the home of the most aggressive and often thoughtful criticism of consumption, including Puritanism, Prohibition, the simplicity movement, the '60s hippies, and the consumer rights movement. But at the dawn of the twenty-first century, not only has American consumerism triumphed, there isn't even an ism left to challenge it. An All-Consuming Century is a rich history of how market goods came to dominate American life over that remarkable hundred years between 1900 and 2000 and why for the first time in history there are no practical limits to consumerism. By 1930 a distinct consumer society had emerged in the United States in which the taste, speed, control, and comfort of goods offered new meanings of freedom, thus laying the groundwork for a full-scale ideology of consumer's democracy after World War II. From the introduction of Henry Ford's Model T (so low in price that no man making a good salary will be unable to own one) and the innovations in selling that arrived with the department store (window displays, self service, the installment plan) to the development of new arenas for spending (amusement parks, penny arcades, baseball parks, and dance halls), Americans embraced the new culture of commercialism—with reservations. However, Gary Cross shows that even the Depression, the counterculture of the 1960s, and the inflation of the 1970s made Americans more materialistic, opening new channels of desire and offering opportunities for more innovative and aggressive marketing. The conservative upsurge of the 1980s and '90s indulged in its own brand of self-aggrandizement by promoting unrestricted markets. The consumerism of today, thriving and largely unchecked, no longer brings families and communities together; instead, it increasingly divides and isolates Americans. Consumer culture has provided affluent societies with peaceful alternatives to tribalism and class war, Cross writes, and it has fueled extraordinary economic growth. The challenge for the future is to find ways to revive the still valid portion of the culture of constraint and control the overpowering success of the all-consuming twentieth century.

Placental Proteins A. Klover, T. Chard,2012-12-06 In July 1978 a group met in Aberdeen to discuss the whole range of new proteins recently isolated from the human placenta. With the exception of Yuri Tatarinov all the main pioneers in the field were present, and this book arose from the discussions which took place. Each author was asked to bring a written manuscript corresponding to but not necessarily identical with their verbal presentation. Nobody was given a specified remit, for the reason that the subject is so new that it would be impossible to design the meeting or the book in advance. Each speaker was left free to put on display whatever he thought was interesting or important about the newly isolated proteins. Inevitably this has led to much overlap, since everybody tends to follow the same path at first. Nevertheless, we shall probably never achieve so much agreement again. Only Vernon Stevens was set a fixed title outside the immediate field of new placental proteins. This arose from the very exciting possibility that the new proteins could be used to induce an autoimmune state to products of conception and thus serve as the basis for a new method of contraception. There are few findings at present which bear specifically on this proposal, but the experience of Vernon Stevens with hCG could serve as a model of the problems that might be encountered with SP and PAPP-A.

Shopping Deborah C. Andrews,2015 We all shop. The essays in this wide-ranging anthology demonstrates how a material culture perspective--a focus on the mutual creation of people and their things--yields significant insights into multiple aspects of consumption in American culture.

A Rich Brew Shachar Pinsker,2018-05-15 Finalist, 2018 National Jewish Book Award for Modern Jewish Thought and Experience, presented by the Jewish Book Council Winner, 2019 Jordan Schnitzer Book Award, in the Jewish Literature and Linguistics Category, given by the Association for Jewish Studies A fascinating glimpse into the world of the coffeehouse and its role in shaping modern Jewish culture Unlike the synagogue, the house of study, the community center, or the Jewish deli, the café is rarely considered a Jewish space. Yet, coffeehouses profoundly influenced the creation of modern Jewish culture from the mid-nineteenth to mid-twentieth centuries. With roots stemming from the Ottoman Empire, the coffeehouse and its drinks gained increasing popularity in Europe. The “otherness,” and the mix of the national and transnational characteristics of the coffeehouse perhaps explains why many of these cafés were owned by Jews, why Jews became their most devoted habitués, and how cafés acquired associations with Jewishness. Examining the convergence of cafés, their urban milieu, and Jewish creativity, Shachar M. Pinsker argues that cafés anchored a silk road of modern Jewish culture. He uncovers a network of interconnected cafés that were central to the modern Jewish experience in a time of migration and urbanization, from Odessa, Warsaw, Vienna, and Berlin to New York City and Tel Aviv. *A Rich Brew* explores the Jewish culture created in these social spaces, drawing on a vivid collection of newspaper articles, memoirs, archival documents, photographs, caricatures, and artwork, as well as stories, novels, and poems in many languages set in cafés. Pinsker shows how Jewish modernity was born in the café, nourished, and sent out into the world by way of print, politics, literature, art, and theater. What was experienced and created in the space of the coffeehouse touched thousands who read, saw, and imbibed a modern culture that redefined what it meant to be a Jew in the world.

Mt. Gravatt Gwen Robinson,1988

Call of the Mall Paco Underhill,2005 A bright, ironic, funny, and shrewd portrait of the mall--America's gift to personal consumption--is an example of commercial and social culture. This book examines how the mall is used, what it means, why it works when it does, and why it sometimes doesn't.

Winners and Losers Marcus Youssef,James Long,2015 The debate quickly becomes personal when individual, family, and class histories are decided as winners or losers.

Casanova Giacomo Casanova,2021-02-28 This is a biographical book. I had been careful, on my arrival in Bologna, to take up my quarters at a small inn, so as not to attract any notice, and as soon as I had dispatched my letters to Therese and the French officer, I thought of purchasing some linen, as it was at least doubtful whether I should ever get my trunk. I deemed it expedient to order some clothes likewise. I was thus ruminating, when it suddenly struck me that I was not likely now to succeed in the Church, but feeling great uncertainty as to the profession I ought to adopt, I took a fancy to transform myself into an officer, as it was evident that I had not to account to anyone for my actions.

Fashioning Teenagers Kelley Massoni,2012-03-15 Founded in 1944 by Helen Valentine, Seventeen magazine was the first modern “teen magazine.” An immediate success, it became iconic in establishing the tastes and behaviors of successive generation of teen girls covering the last half of the 20th century. Kelley Massoni has written the first cultural history of the origins of Seventeen and its role in shaping the modern teen girl ideal. Using content analysis, interviews, letters, oral histories, and promotional materials, Massoni is able to show how Seventeen helped create the modern concept of “teenager.” The early Seventeen provided a generation of thinking young women with information on citizenship and clothing, politics and popularity, adult occupations and adolescent preoccupations, until economic and social forces converged to reshape the magazine toward teen consumerism. A chapter on the 21st century Seventeen brings the story to the present. Fashioning Teenagers will be of interest to students of popular culture, sociology, gender studies, mass media, journalism, business, and American studies.

Paper John David Small,1998-09 A good-hearted fellow who lives by the sea in a paper house and makes paper boats for the village children comes up against the devil in a life or death situation which can be salvaged only by his skill with paper folding.

Two Billion Trees and Counting John Bacher,2011-07-13 Short-listed for the 2012 Speaker’s Book Award Edmund Zavitz (1875–1968) rescued Ontario from the ravages of increasingly more powerful floods, erosion, and deadly fires. Wastelands were talking over many hectares of once-flourishing farmlands and towns. Sites like the Oak Ridges Moraine were well on their way to becoming a dust bowl and all because of extensive deforestation. Zavitz held the positions of chief forester of Ontario, deputy minister of forests, and director of reforestation. His first pilot reforestation project was in 1905, and since then Zavitz has educated the public and politicians about the need to protect Ontario forests. By the mid-1940s, conservation authorities, provincial nurseries, forestry stations, and bylaws protecting trees were in place. Land was being restored. Just a month before his death, the one billionth tree was planted by Premier John Robarts. Some two billion more would follow. As a result of Zavitz’s work, the Niagara Escarpment, once a wasteland, is now a UNESCO World Biosphere. Recognition of the ongoing need to plant trees to protect our future continues as the legacy of Edmund Zavitz.

The Curatorial Jean-Paul Martinon,2013-10-24 Stop curating! And think what curating is all about. This book starts from this simple premise: thinking the activity of curating. To do that, it distinguishes between 'curating' and 'the curatorial'. If 'curating' is a gamut of professional practices for setting up exhibitions, then 'the curatorial' explores what takes place on the stage set up, both intentionally and unintentionally, by the curator. It therefore refers not to the staging of an event, but to the event of knowledge itself. In order to start thinking about curating, this book takes a new approach to the topic. Instead of relying on conventional art historical narratives (for example, identifying the moments when artistic and curatorial practices merged or when the global curator-author was first identified), this book puts forward a multiplicity of perspectives that go from the anecdotal to the theoretical and from the personal to the philosophical. These perspectives allow for a fresh reflection on curating, one in which, suddenly, curating becomes an activity that implicates us all (artists, curators, and viewers), not just as passive recipients, but as active members. As such, the Curatorial is a book without compromise: it asks us to think again, fight against sweeping art historical generalizations, the sedimentation of ideas and the draw of the sound bite. Curating will not stop, but at least with this book it can begin to allow itself to be challenged by some of the most complex and ethics-driven thought of our times.
