*Build Your Own Low-Power Transmitters* Rudolf F. Graf, William Sheets, 2001-08-24 Rudolf Graf and William Sheets have written a book containing twenty low-power (LP) transmitter projects, perfect for the electronics hobbyist and radio experimenter. Now that the FCC has changed its regulations about pirate transmissions, more and more people are setting up radio and video stations for broadcast from their homes. Build Your Own Low-Power Transmitters addresses applications for hobbyist broadcasting of AM, SSB, TV, FM Stereo and NBFM VHF-UHF signals with equipment the reader can build himself for thousands of dollars less than similar equipment sold on the retail market. The authors also fully explore the legal limits and ramifications of using the equipment as well as how to get the best performance for optimum range. The key advantage is referencing a low-cost source for all needed parts, including the printed circuit board, as well as the kit. Projects in the book include: LP FM stereo transmitter; digitally synthesized PLL FM stereo transmitter; LP AM transmitter for 150-1710 KHz; radio control transmitter/receiver; carrier current transmitter and AM and FM receivers; LP VHF one-way and two-way audio links; 1-watt 40-meter CW transmitter for ham radio use; SSB LP transmitter for 10-meter ham radio use; 2-meter VHF FM ham radio transmitter; FM video link for 900 MHz NTSC/PAL operation; 2-watt TV transmitters for 440, 900 and 1300 MHz amateur TV NTSC/PAL transmissions; linear amplifier for 440MHz, 10-15watt NTSC/PAL operation; Downconverters for 440, 900 and 1300 MHz with VHF channel 3 or 4 output; TV video receiving systems and AM-FM IF systems; LP video link for UHF channels 14-18; 1-watt CW beacon transmitter for Part 15 LF radio experimentation; CW identifier for transmitters; test equipment projects for LP transmitters; as well as an RF power meter and modulation monitor. Complete source information will be included to help each reader find the kits and parts they need to build these fascinating projects. Unique among comparable project books, this one offers a low-cost source for all parts, including the printed circuit board. This allows immediate completion without needing to search for difficult to find parts Features twenty low-power transmitter projects

*Newnes Guide to Television and Video Technology* K. F. Ibrahim, 2007-09-14 This book provides a full and comprehensive coverage of video and television technology including the latest developments in display equipment, HDTV and DVD. Starting with TV fundamentals, the bulk of the book covers the many new technologies that are bringing growth to the TV and video market, such as plasma and LCD, DLP (digital light processing), DVD, Blu ray technology, Digital television, High Definition television (HDTV) and video projection systems. For each technology, a full explanation is provided of its operation and practical application, supported by over 300 diagrams including schematic diagrams of commercially available consumer equipment. Where relevant, testing and fault finding procedures are outlined together with typical fault symptoms supported by photographs. The new edition has a number of useful appendices on microcomputer/microcontroller systems, test instruments, serial buses (I2C and RS 232), teletext and error correction techniques. The book is intended for students of electronics and practicing engineers. In particular, it will be useful for students on vocational courses and service engineers as well as enthusiasts. \* The definitive guide to the new technologies transforming the world of television: HDTV, Digital TV, DVD recorders, hard disk recorders, wide-screen CRT, flat screen technologies and others \* A practical approach, including troubleshooting and servicing information \* Covers UK, European and North American systems

Natalie Wood Suzanne Finstad, 2020-03-10 NEW YORK TIMES BESTSELLER • The definitive biography of a vulnerable and talented actress, now with explosive new chapters and insider details of her tragic death, the cover-ups, and the reopened investigation. An ID Book Club Selection • “Impressive, disturbing, and revelatory.”—Variety Natalie Wood has been hailed alongside Marilyn Monroe and Elizabeth Taylor as one of the top three female movie stars in film history. We watched her mature on the movie screen before our eyes in classics such as *Miracle on 34th Street*, *Rebel Without a Cause*, *Splendor in the Grass*, and *West Side Story*. But the story of what she endured, of what her life was like when the doors of the soundstages closed, had long been obscured. Based on years of astonishing research, Natalie Wood (previously published as Natasha) raises the curtain on Wood’s turbulent life. Award-winning author Suzanne Finstad conducted nearly four hundred interviews with Natalie Wood’s family, close friends, legendary costars, lovers, film crews, and virtually everyone connected to her death. Through these firsthand accounts, Finstad reconstructs a life of emotional abuse and exploitation, of unimaginable fame, great loneliness, and loss. She reveals painful truths in Wood’s complex relationships with James Dean, Frank Sinatra, Warren Beatty, and, of course, Robert Wagner. Thirty years after Natalie Wood’s death, the L.A. Sheriff’s Department reopened the investigation into her drowning using Finstad’s groundbreaking research and chilling, hour-by-hour timeline of that tumultuous weekend as evidence. Within a year, the L.A. Coroner changed Natalie Wood’s death certificate from “Accidental Drowning” to “Drowning and Other Undetermined Factors.” In 2018, the Los Angeles Sheriff’s Department officially named Wagner a “Person of Interest” in Wood’s death. In this updated edition, Finstad will share her explosive findings from the last two decades. With her unprecedented access to the LASD’s “Murder Book,” ignored by the original investigators, and new witnesses who have never spoken publicly, Finstad uncovers what really happened to Natalie Wood on that fateful boating trip in 1981 with Wagner and Christopher Walken. She expands on intimate details from Wood’s unpublished memoir, which affirms her fear of drowning and the betrayal by Wagner that shattered their first marriage. Finstad tells this heartbreaking story with sensitivity and grace, revealing a complex and conflicting mix of fragility and strength in a woman who was swept along by forces few could have resisted.

**Natasha** Suzanne Finstad, 2001 A biography of actress Natalie Wood, discussing her long career which began as a child, and looking at her life behind the screen, covering her youth, family, marriages, and mysterious drowning.

**Interiors in the Era of Covid-19** Penny Sparke, Ersi Ioannidou, Pat Kirkham, Stephen Knott, Jana Scholze, 2023-01-26 The Covid-19 lockdowns caused people worldwide to be confined to their homes for longer and on a greater scale than ever before. This forced many unprecedented changes to the way we treat domestic space – as relationships shifted between the public and the private worlds, and homes were rapidly adapted to accommodate the additional roles of schools, offices, gyms, restaurants, making-spaces and more. Above all, our understanding of the home as a site to support and enhance the well-being of its inhabitants changed in a variety of novel ways. Interiors in the Era of Covid is a collection of essays which explore the complex ways in which our inside spaces (contemporary and historical) have responded to Covid-19 and other human crises. With case studies ranging from US and Europe to Japan, China, Colombia, and Bangladesh, this is a truly global work which examines wide-ranging subjects from home-working and home technologies, to the impact of lockdown on people's identities, gender roles in the home, and the realities of domestic living with Covid in refugee camps. Exploring the roles played by designers (both amateur and professional) in accommodating changing requirements and anticipating future ones – whether Covid or beyond – this book is a must-read for students and researchers in interior design, architecture, architectural and design history, and anyone interested in the home and the relationships between health and design.
