Routledge Diccionario Técnico Inglés Routledge, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors*. Miola's edited work also features a comprehensive critical history, coupled with a full bibliography and photographs of major productions of the play from around the world. In the collection, there are five previously unpublished essays. The topics covered in these new essays are women in the play, the play's debt to contemporary theater, its critical and performance histories in Germany and Japan, the metrical variety of the play, and the distinctly modern perspective on the play as containing dark and disturbing elements. To compliment these new essays, the collection features significant scholarship

and commentary on The Comedy of Errors that is published in obscure and difficult accessible journals, newspapers, and other sources. This collection brings together these essays for the first time.

Dogs with Careers: Ten Happy-Ending Stories of Purpose and Passion Anne Hart, 2007-10-18

They're library dogs, Charlie. They're all dog-faces, laughed the space station manager, as he waved goodnight to his security dogs and locked the gates. They're not just dogs with jobs, but detective canines with investigative sniffing careers at the space station and in outer space. At night, the space

station's library is eerie, dim lighted, and in places, simply velvet-shadow dark, except for the human's dogs. They mingle with the shape-shifting immortal space dogs that prowl the space station library's corridors and live among the rows of computers. Career dogs just want to have fun traveling onboard the space shuttles as working companion dogs, never locked behind gates. These dogs don't bite. They are dogs with purpose and passion. This is a team of working dogs that can shape-shift from dog to human and human to dog live outside of time. And in this century, they work for a mother and daughter astronaut team. Which dog sprayed wolf graffiti on the space shuttle? A ground controller dog, a mellow, Chocolate Labrador retriever, studied the photo. But how did it get there? Maybe it's a paste-on tattoo that the astronauts put on board to celebrate all those years here, the pack leader howled in a licorice-sweet yelp. The omega canine hurried to switch off another computer. 'Retriever,' formerly a library greeter dog but now the ground controller's pet, sniffed with curiosity. He stretched and curled up on top of the filing cabinet.

Different Every Time Marcus O'Dair, 2015-09-01 Robert Wyatt started out as the drummer and

singer for Soft Machine, who shared a residency at Middle Earth with Pink Floyd and toured America with the Jimi Hendrix Experience. He brought a jazz mindset to the 1960's rock scene, having honed his drumming skills in a shed at the end of Robert Graves' garden in Mallorca, Spain. Wyatt's life took an abrupt turn in 1973, when he fell from a fourth-floor window at a party and was paralyzed from the waist down. He reinvented himself as a singer and composer with the extraordinary album *Rock Bottom*, which he followed with an idiosyncratic string of records that uniquely combine the personal and political. Along the way, Robert has worked with the likes of Brian Eno, Bjork, Jerry Dammers, Charlie Haden, David Gilmour, Paul Weller and Hot Chip. Marcus O'Dair has talked to all of them—indeed anyone who has shaped, or been shaped by Wyatt over five decades. *Different Every Time* is the first biography of Robert Wyatt, and it was written with his full participation. It includes illustrations by Alfreda Benge and photographs from Robert's personal archive.
