The Routledge Companion to Journalism in the Global South Bruce Mutsvairo, Saba Bebawi, Eddy Borges-Rey, 2023-11-21 Responding to mounting calls to decenter and decolonize journalism, *The Routledge Companion to Journalism in the Global South* examines not only the deep-seated challenges associated with the historical imposition of Western journalism standards on constituencies of the Global South but also the opportunities presented to journalists and journalism educators if they choose to partake in international collaboration and education. This collection returns to fundamental questions around the meaning, value, and practices of journalism from alternative methodological, theoretical, and epistemological perspectives. These questions include: What really is journalism? Who gets to, and who is qualified to, define it? What role do ethics play? What are the current trends, challenges, and opportunities for journalism in the Global South? How is news covered, reported, written, and edited in non-Western settings? What can journalism players living and working in industrialized markets learn from their non-Western colleagues and counterparts, and vice versa? Contributors challenge accepted universal ethical standards while showing the relevance of customs, traditions, and cultures in defining and shaping local and regional journalism. Showcasing some of the most important research on journalism in the Global South and by journalists based in the Global South, this companion is key reading for anyone researching the principles and practices of journalism from a de-essentialized perspective.

Tryst with the Tribes Pravir Krishna, 2021 The story of how a young IAS officer fell in love with India's tribal heartlands, and how these experiences changed him forever. Pravir Krishna first came face to face with the stark realities of the exploitation of tribal people when he was posted as the collector and district magistrate of Sarguja, a tribal district in Madhya Pradesh, in 1994. It affected him so deeply that he embarked on a journey towards bettering the lives of tribal people. Ever since, he has helped create an atmosphere where tribals traded freely and earned more. In fact, his market reforms were listed by the UNO-FAO as among 32 global best practices. Pravir's close association with the tribes began in Sarguja, it then continued in Bastar, and now as managing director of TRIFED, it has become even more important. Two decades later, his efforts have culminated in the Pradhan Mantri Jan Jatiya Vikas Mission, an initiative for enterprise-centric approach to tribal development, vis-à-vis the traditional welfarecentric approach. The book also discusses critical topics like the pros and cons of providing a fair deal to tribes for their forest produces; and what needs to be done to quadruple the incomes of tribes using this as the engine. The author offers various hands-on suggestions for transforming symbolic legislation for the tribes to a more robust approach to tribal development that is based on strengthening self-help; use of local resources and the traditional and sound skills and knowledge bank of the tribes; and the need to develop enterprises based on these resources. This is the remarkable story of a bureaucrat whose destiny is forever entwined with that of many of India's tribal communities.

The Innocent Classroom Alexs Pate, 2020-08-17 When children of color enter their classrooms each year, many often encounter low expectations, disconnection, and other barriers to their success. In *The Innocent Classroom*, Alexs Pate traces the roots of these disparities to pervasive negative stereotypes, which children are made aware of before they even walk through the school door. The cumulative weight of these stereotypes eventually takes shape as guilt, which inhibits students' engagement, learning, and relationships and hurts their prospects for the future. If guilt is the primary barrier for children of color in the classroom, then the solution, according to Pate, is to create an Innocent Classroom that neutralizes students' guilt and restores their innocence. To do so, readers will embark on a relationship construction project in which they will deepen their understanding of how children of color are burdened with guilt; discover students' good, or the motivation behind their behaviors, and develop strategic responses to that good; and nurture, protect, and advocate for students' innocence. Ultimately, students will reclaim their innocence and begin to make choices that will lead to their success. Teachers will renew their commitment to their students. And the current ineffective system can give way to one that reflects a more enlightened understanding of who our children are—and what they are capable of.

The Mystery of Yawning in Physiology and Disease Olivier Walusinski,2010-01-01 Yawning is a stereotyped phylogenetically ancient phenomenon that occurs in almost all vertebrates. As an emotional behavior and an expressive movement, yawning has many consequences; nevertheless, it has so far been poorly addressed in medical research and practice. Bringing together the latest research from many fields, this volume integrates current insights within embryology, ethology, neurophysiology, psychology, fMRI and pathology. The phylogenetic and ontogenetic aspects of yawning offer an interesting perspective on human development, and its occurrence in neurological diseases – an area explored by only a few investigators – may provide useful clinical information. This book will make valuable and fascinating reading to neurologists, sleep specialists, psychologists, ethologists and pharmacologists, as well as to anybody interested in uncovering the mystery of yawning.

How Stella Learned to Talk Christina Hunger,2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word “outside” when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella “spoke” her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.

Political Branding Christopher Pich,Bruce I. Newman,2020-12-17 This book demonstrates the progress that has been made on political branding research across international contexts. It focuses on the critical application of new concepts and frameworks, generating a deeper understanding of unexplored settings and positioning research from multiple perspectives. It is important to consider different typologies of international political brands particularly as we have witnessed huge changes across political landscapes from Brexit, the rise of President Trump, the surge in populism and the development of sustainable-climate change movements. Given that there are many potential typologies and non-traditional political brands, this volume investigates different typologies and alternative political brands with the support of new and under-developed theoretical lens from multiple perspectives and contexts. These include Canada, Iceland, India, Indonesia and the United States of America. This book provides areas of reflection and explicit calls for further research, which in turn will advance insight into political brands and enhance our understanding of political marketing in action. This is a must-read guide for setting out the implications of theory and practice for multiple stakeholders including political marketers, political scientists, politicians, political party organizers, brand managers and scholars across a wide range of social science disciplines. The chapters in this book were originally published as a special issue of the *Journal of Political Marketing*.

I’ll Show You Derrick Rose, Sam Smith, 2019-09-10 In 2012, Derrick Rose was on top of the world. After growing up in Chicago’s Englewood neighborhood, Rose achieved an improbable childhood dream: being selected first overall in the NBA draft by his hometown Chicago Bulls. The point guard known to his family as “Pooh” was a phenom, winning the Rookie of the Year award and electrifying fans around the world. In 2011, he became the youngest MVP in league history. He and the Bulls believed the city’s first berth in the NBA Finals since the Jordan era was on the horizon. Rarely had a bond between a player and fans been so strong, as the city wrapped its arms around the homegrown hero. Six years and four knee surgeries later, he was waived by the Utah Jazz, a once surefire Hall of Fame career seemingly on the brink of collapse. Many speculated his days in the NBA were over. But Derrick Rose never doubted himself, never believed his struggles on and off the court were anything other than temporary setbacks. Rather than telling the world he had more to give, he decided to show them. *I’ll Show You* is an honest, intimate conversation with one of the world’s most popular athletes, a star whose on-court brilliance is matched only by his aversion to the spotlight. Written with New York Times bestselling author Sam Smith, Rose opens himself up to fans in a way they’ve never seen before, creating a document that is as unflinching—and at times as uncomfortable—as a personal diary. Detailing his childhood spent in one of his city’s most dangerous neighborhoods; his relationships with both opponents and teammates; the pain and controversies surrounding his career-altering injuries; his complicated relationship to fame and fortune; and his rise, fall, and reemergence as the player LeBron James says is “still a superhero,” *I’ll Show You* is one of the most candid and surprising autobiographies of a modern-day superstar ever written.

The Only Sales Guide You’ll Ever Need Anthony Iannarino, 2016-10-11 The USA Today bestseller by the star sales speaker and author of *The Sales Blog* that reveals how all salespeople can attain huge sales success through strategies backed by extensive research and experience. Anthony Iannarino never set out to become a salesman, let alone a sales manager, speaker, coach, or writer of the most prominent blog about the art and science of great selling. He fell into his profession by accident, as a day job while pursuing rock-and-roll stardom. Once he realized he’d never become the next Mick Jagger, Iannarino turned his focus to a question that’s been debated for at least a century: Why are a small number of salespeople in any field hugely successful, while the rest get mediocre results at best? The answer is simple: it’s not about the market, the product, or the competition—it’s all about the seller. And consequently, any salesperson can sell more and better, all the time. Over twenty-five years, Iannarino has boiled down everything he’s learned and tested into one convenient book that explains what all successful sellers, regardless of industry or organization, share: a mind-set of powerful beliefs and a skill-set of key actions, including... ·Self-discipline: How to keep your commitments to yourself and others. ·Accountability: How to own the outcomes you sell. ·Competitiveness: How to embrace competition rather than let it intimidate you. ·Resourcefulness: How to blend your imagination, experience, and knowledge into unique solutions. ·Storytelling: How to create deeper relationships by presenting a story in which the client is the hero and you’re their guide. ·Diagnosing: How to look below the surface to figure out someone else’s real challenges and needs. Once you learn Iannarino’s core strategies, picking up the specific tactics for your product and customers will be that much easier. Whether you sell to big companies, small companies, or individual consumers, this is the book you’ll turn to again and again for proven wisdom, strategies, and tips that really work.
