Yu-li Liu, Robert G. Picard, 2014-04-16 With digital media becoming ever more prevalent, it is essential to study policy and marketing strategies tailored to this new development. In this volume, contributors examine government policy for a range of media, including digital television, IPTV, mobile TV, and OTT TV. The Troubled Girls of Dragomir Academy Anne Ursu, 2021-10-12 From the acclaimed author of *The Real Boy* and *The Lost Girl* comes a wondrous and provocative fantasy about a kingdom beset by monsters, a mysterious school, and a girl caught in between them. If no one notices Marya Lupu, is likely because of her brother, Luka. And that's because of what everyone knows: that Luka is destined to become a sorcerer. The Lupus might be from a small village far from the capital city of Illyria, but that doesn't matter. Every young boy born in the kingdom holds the potential for the rare ability to wield magic, to protect the country from the terrifying force known only as the Dread. For all the hopes the family has for Luka, no one has any for Marya, who can never seem to do anything right. But even so, no one is prepared for the day that the sorcerers finally arrive to test Luka for magical ability, and Marya makes a terrible mistake. Nor the day after, when the Lupus receive a letter from a place called Dragomir Academy—a mysterious school for wayward young girls. Girls like Marya. Soon she is a hundred miles from home, in a strange and unfamiliar place, surrounded by girls she's

never met. Dragomir Academy promises Marya and her classmates a chance to make something of themselves in service to one of the country's powerful sorcerers. But as they learn how to fit into a world with no place for them, they begin to discover things about the magic the men of their country wield, as well as the Dread itself—things that threaten the precarious balance upon which Illyria is built.

Will China Democratize? Andrew J. Nathan, Larry Diamond, Marc F. Plattner, 2013-09-01 Leading experts on China offer their enlightening analysis on one of the most crucial and complex questions facing the future of international politics. Moving toward open markets and international trade has brought extraordinary economic success to China, yet its leadership still maintains an authoritarian grip over its massive population. From repressing political movements to controlling internet traffic, China's undemocratic policies present an attractive model for other authoritarian regimes. But can China continue its growth without political reform? In Will China Democratize?, Andrew J. Nathan, Larry Diamond, and Marc F. Plattner present valuable analysis for anyone wondering if, when or how China might evolve politically. Since the *Journal of Democracy's* very first issue in January 1990, which featured articles reflecting on the then-recent Tiananmen Square massacre, the *Journal* has regularly published articles about China and its politics. By bringing together the wide spectrum of views that have appeared in the *Journal's* pages—from contributors including Fang Lizhi, Perry Link, Michel Oksenberg, Minxin Pei, Henry S. Rowen, and Nobel laureate Liu Xiaobo— Will China Democratize? provides a clear view of the complex forces driving change in China's regime and society.

review Every family has issues. Most can't blame them on extraterrestrials. Evie Shao and her sister, Kass, aren't on speaking terms. Fifteen years ago on a family camping trip, their father and brother vanished. Their dad turned up days later, dehydrated and confused—and convinced he'd been abducted by aliens. Their brother, Jakob, remained missing. The women dealt with it very differently. Kass, suspecting her college-dropout twin simply ran off, became the rock of the family. Evie traded academics to pursue alien conspiracy theories, always looking for Jakob. When Evie's UFO network uncovers a new event, she goes to investigate. And discovers Jakob is back. He's different—older, stranger, and talking of an intergalactic war—but the tensions between the siblings haven't changed at all. If the family is going to come together to help Jakob, then Kass and Evie are going to have to fix their issues, and fast. Because the FBI is after Jakob, and if their brother is telling the truth, possibly an entire space armada, too. The perfect combination of action, imagination and heart, *Light Years from Home* is a touching drama about a challenge as difficult as saving the galaxy: making peace with your family...and yourself. With heart and insight...Chen crosses the stakes and imagination of a space opera with the emotional depth and intricacy of a family drama. —Erika Swyler, bestselling author of *Light from Other Stars*

What Chinese Want Tom Doctoroff, 2012-05-22

Today, most Americans take for granted that China will be the next global superpower. But despite the nation's growing influence, the average Chinese person is still a mystery - or, at best, a baffling set of seeming contradictions - to Westerners who expect the rising Chinese consumer to resemble themselves. Here, Tom Doctoroff, the guiding force of advertising giant J. Walter Thompson's (JWT) China operations, marshals his 20 years

of experience navigating this fascinating intersection of commerce and culture to explain the mysteries of China. He explores the many cultural, political, and economic forces shaping the twenty-first-century Chinese and their implications for businesspeople, marketers, and entrepreneurs - or anyone else who wants to know what makes the Chinese tick. Dismantling common misconceptions, Doctoroff provides the context Westerners need to understand the distinctive worldview that drives Chinese businesses and consumers, including: - why family and social stability take precedence over individual self-expression and the consequences for education, innovation, and growth; - their fundamentally different understanding of morality, and why Chinese tolerate human rights abuses, rampant piracy, and endemic government corruption; and - the long and storied past that still drives decision making at corporate, local, and national levels. Change is coming fast and furious in China, challenging not only how the Western world sees the Chinese but how they see themselves. From the new generation's embrace of Christmas to the middle-class fixation with luxury brands; from the exploding senior demographic to what the Internet means for the government's hold on power, Doctoroff pulls back the curtain to reveal a complex and nuanced picture of a fascinating people whose lives are becoming ever more entwined with our own.
