The Fix James Dixon,2021-09 The Fix: How the First Champions League Was Won and Why We All Lost is an engrossing examination of the 1992/93 UEFA Champions League season. In 1980s Europe, revolution was in the air and the corridors of footballing power were not immune from the forces sweeping the continent. The breakup of Czechoslovakia, Yugoslavia and the USSR gave UEFA a problem. There were more national teams and league champions than their post-war competitions were designed to handle. Rather than the collapse of communism, the bigger headache for administrators was the success of capitalism. Gordon Gekko-styled businessmen like Silvio Berlusconi (AC Milan) and Bernard Tapie (Marseille) were beginning to involve themselves in football with less than benign motives. Against the backdrop of constant threats from the continent's most powerful clubs to form a breakaway super league, the UEFA Champions League was born. The Fix looks at that infamous first season, from its humble beginning on a Faroese hillside to its ultimate conclusion in a French courtroom.

Tournament Design László Csató,2021-01-04 This Palgrave Pivot presents tournament design mainly within the axioms of incentive compatibility and fairness. It illustrates the advantages of an axiomatic approach through various examples, including several FIFA and UEFA tournaments, and uses theoretical tools and simulation methodology in its analysis. Chapter 1 discusses scoring systems of championships with multiple competitions, ranking in Swiss-system tournaments, and tie-breaking rules in round-robin leagues. It is followed by a thorough critical analysis of the current and previous FIFA World Rankings. The broad focus is substantially narrowed in Chapter 2, which turns to the topic of incentive (in)compatibility in multiple qualifiers. It is revealed that UEFA has faced at least three times recently this problem in the qualification to the UEFA Europa League, qualification to the UEFA Champions League, and the draw of the UEFA Champions League groups. Analogously, Chapter 3 discusses incentive (in)compatibility when there is only one group-based tournament but the complex progression rules to the subsequent stage can be designed poorly. Our examples include the qualifying tournaments of recent FIFA World Cups and UEFA European Championships. Chapter 4 moves to the problem of penalty shootout rules in soccer, where the fairness and complexity of some alternative mechanisms from the literature are evaluated. Fairness remains the central issue in Chapter 5, which presents the challenges of designing a tournament with 24 teams if the number of teams per group cannot exceed four. As expected, there is no perfect solution, and both FIFA and UEFA have introduced a reform in this format recently. Chapter 6 deals with the qualification for the 2020 UEFA European Football Championship. Its tournament design is perhaps the most complicated one that has ever been implemented in the real-world and suffers from serious shortcomings.

Undisputed Champions of Europe Steven Scragg,2021-10-11 The Undisputed Champions of Europe is a trilogy-ending homage to the golden era of the European Cup. A place where the gods of the game battled for

the biggest prize in club football; a place where the likes of Di Stefano, Eusebio, Best, Cruyff, Beckenbauer, Dalglish, Gullit and so many others became legends, as they skated across thin ice to glory, in the colours of clubs that are now considered European royalty. An entirely different beast than the Champions League, it was a competition where you had to win your domestic league title to gain entry. With no safety net of group stages, one bad night of football was enough to send you back to square one. In contrast to today's Champions League winners - whose status as Europe's best team is regularly disputed - the winners of the European Cup truly were the undisputed kings of Europe. These are the stories and glories of football's highest achievers.

Governance, Citizenship and the New European Football Championships Wolfram Manzenreiter,Georg Spitaler,2013-09-13 Over the past decade, European football has seen tremendous changes impacting upon its international framework as well as local traditions and national institutions. Processes of Europeanization in the fields of economy and politics provided the background for transformations of the production and consumption of football on a transnational scale. In the course of such rearrangements, football tournaments like the UEFA Championship or the European Champions League turned into mega-events and media spectacles attracting ever-growing audiences. The experience of participating in these events offers some of the very few occasions for the display and embodiment of identities within a European context. This volume takes the 2008 EUROS hosted by Austria and Switzerland as a case study to analyze the political and cultural significance of the tournament from a multidisciplinary angle. What are the special features and spatial arrangements of a UEFAesque Europe, in comparison to alternative possibilities of a Europe? Situating the sport tournament between interpretations of collective European ritual and European spectacle, the key research question will ask what kind of Europe was represented in the cultural, political and economic manifestations of the 2008 EUROS. This book was published as a special issue of Soccer and Society.
