The Brothers Karamazov Fyodor Dostoyevsky,2022-11-13 The Brothers Karamazov is the final novel by the Russian author Fyodor Dostoyevsky. He spent nearly two years writing it. The author died less than four months after its publication. The Brothers Karamazov is a passionate philosophical novel set in 19th century Russia, that enters deeply into the ethical debates of God, free will, and morality. It is a spiritual drama of moral struggles concerning faith, doubt, and reason, set against a modernizing Russia, with a plot which revolves around the subject of patricide. Since its publication, it has been acclaimed as one of the supreme achievements in literature. Fyodor Dostoyevsky (1821-1881) was a Russian novelist, short story writer, essayist, journalist and philosopher. His literary works explore human psychology in the troubled political, social, and spiritual atmosphere of 19th-century Russia. Mysteries of Police and Crime Arthur George Frederick Griffiths, 2015-09-16 It may be said that society itself creates the crimes that most beset it. If the good things of life were more evenly distributed, if everyone had his rights, if there were no injustice, no oppression, there would be no attempts to readjust an unequal balance by violent or flagitious means. There is some force in this, but it is very far from covering the whole ground, and it cannot excuse many forms of crime. Crime, indeed, is the birthmark of humanity, a fatal inheritance known to the theologians as original sin. Crime, then, must be constantly present in the community, and every son of Adam may, under certain conditions, be drawn into it. To paraphrase a great saying, some achieve crime, some have it thrust upon them; but most of us (we may make the statement without subscribing to all the doctrines of the criminal anthropologists) are born to crime. The assertion is as old as the hills; it was echoed in the fervent cry of pious John Bradford when he pointed to the man led out to execution, "There goes John Bradford but for the grace of God!" Criminals are manufactured both by social cross-purposes and by the domestic neglect which fosters the first fatal predisposition. "Assuredly external factors and circumstances count for much in the causation of crime," says Maudsley. The preventive agencies are all the more necessary where heredity emphasises the universal natural tendency. The taint of crime is all the more potent in those whose parentage is evil. The germ is far more likely to flourish into baleful vitality if planted by congenital depravity. This is constantly seen with the offspring of criminals. But it is equally certain that the poison may be eradicated, the evil stamped out, if better influences supervene betimes. Even the most ardent supporters of the theory of the "born criminal" admit that this, as some think, imaginary monster, although possessing all the fatal characteristics, does not necessarily commit crime. The bias may be checked; it may lie latent through life unless called into activity by certain unexpected conditions of time and chance. An ingenious refinement of the old adage, "Opportunity makes the thief," has been invented by an Italian scientist, Baron Garofalo, who declares that "Opportunity only reveals the thief"; it does not create the predisposition, the latent thievish spirit.

Boarded by Love Toni Aleo, 2014-08-19 From New York Times and USA Today bestselling author, Toni Aleo, comes a spin off series from the Assassins: The Bellevue Bullies! Jude Sinclair here, hockey player for the Bellevue Bullies and lover of all ladies. Hockey's in my blood, and not to sound full of myself, but I'm good at it...really good. The draft is within my reach-it's mine to take-but that's not the only reason people know my name. They know me because of my way with women. They know the score, and I aim to please. I just tend to stay away from repeat performances. In other words, I don't do relationships beyond my family and friends. I'm happy with life. However, I should warn you that my story and how I see it playing out is about to change due to a certain redhead on campus. She's beautiful. Stunning. Breathtaking. She's my game changer. *** He's trouble from the moment I see him. I don't know what I'm thinking, but from the moment I meet his gaze, I'm his. It's a scary feeling. I've never trusted anyone outside my aunt and uncle-and even that took months. I didn't have it easy growing up. My mom was usually strung out, and she didn't give me a second thought. Drugs and the men who paid her were more important to her. It was horrible, but I'm stronger today. Because of my past, security is what I need most. Money assures me that I can take care of myself today, tomorrow, and next month. I don't want to ever be hungry or go without again, so I work hard for every penny. Oh, by the way, I'm Claire Anderson. I'm a hard-studying sophomore at the University of Bellevue, dancer for the school dance team, and a burlesque dancer at a club, but that's my secret. You may think you know how our story ends, but you have no clue. It's not easy falling in love... or living happily ever after. At first it may seem so, but when is anything worth having ever won without a fight? Especially when you're boarded by love.

Amphibian Conservation Rebecca K. Smith, William J. Sutherland, 2014-05-16 Amphibian Conservation is the fourth in the series of Synopses of Conservation Evidence, linked to the online resource www.ConservationEvidence.com. This synopsis is part of the Conservation Evidence project and provides a useful resource for conservationists. It forms part of a series designed to promote a more evidence-based approach to biodiversity conservation. Others in the series include bee, bird, farmland and bat conservation and many others are in preparation. Approximately 32% of the 7,164+ amphibian species are currently threatened with extinction and at least 43% of species are declining. Despite this, until recently amphibians and their conservation had received little attention. Although work is now being carried out to conserve many species, often it is not adequately documented. This book brings together and summarises the available scientific evidence and experience relevant to the practical conservation of amphibians. The authors consulted an international group of amphibian experts and conservationists to produce a thorough summary of what is known, or not known, about the effectiveness of amphibian conservation actions across the world. The book is packed with literature summaries and citations; a veritable information goldmine for graduate students and researchers. It also admirably provides decision makers with a well-researched resource of proven interventions that can be employed to stem/reverse the decline of amphibian populations. -John G Palis, Bulletin of the Chicago Herpetological Society

Collide Gail McHugh, 2013-09-17 Her mind tried to fight a bloody battle against what her body already knew. She wanted him, and she wanted him bad. On the heels of college graduation and the unexpected death of her mother, Emily Cooper moves to New York City to join her boyfriend for a fresh start. Dillon Parker has been sweet, thoughtful, and generous through Emily's loss, and she can't imagine her life without him—even as her inner voice tells her to go slow. Then she meets Gavin Blake. A rich and notorious playboy, Gavin is dangerously sexy and charming as hell. Their first encounter is brief, but it's enough to inflame Emily's senses. When their paths cross again through an unexpected mutual acquaintance, she tries to deny the connection she feels, but Mr. Tall, Dark, and Handsome won't let go so easily. As she discovers Gavin's pain-filled past and Dillon's true nature begins to surface, Emily knows she must take action or risk destroying everyone—including herself. But how can she choose when she can't trust her own heart?
