Jewish Intellectual Women in Central Europe, 1860-2000

Judith Szapor,2012 Shows how these Jewish intellectual women were instrumental in directing the cultural and political life of Central Europe. This is a collection of scholarly essays dealing with Female Jewish intellectuals throughout Europe since 1860 until 2000. It can enrich our knowledge and understanding of European Jewish women.

Critical Play Mary Flanagan,2013-02-08 An examination of subversive games like The Sims—games designed for political, aesthetic, and social critique. For many players, games are entertainment, diversion, relaxation, fantasy. But what if certain games were something more than this, providing not only outlets for entertainment but a means for creative expression, instruments for conceptual thinking, or tools for social change? In Critical Play, artist and game designer Mary Flanagan examines alternative games—games that challenge the accepted norms embedded within the gaming industry—and argues that games designed by

artists and activists are reshaping everyday game culture.

Flanagan provides a lively historical context for critical play through twentieth-century art movements, connecting subversive game design to subversive art: her examples of “playing house” include Dadaist puppet shows and *The Sims*. She looks at artists’ alternative computer-based games and explores games for change, considering the way activist concerns—including worldwide poverty and AIDS—can be incorporated into game design. Arguing that this kind of conscious practice—which now constitutes the avant-garde of the computer game medium—can inspire new working methods for designers, Flanagan offers a model for designing that will encourage the subversion of popular gaming tropes through new styles of game making, and proposes a theory of alternate game design that focuses on the reworking of contemporary popular game practices.

A Casual Revolution Jesper Juul, 2012-02-10 How casual games like *Guitar Hero*, *Bejeweled*, and those for Nintendo Wii are expanding the audience for video games. We used to think that video games were mostly for young men, but with the success of the Nintendo Wii, and the proliferation of games in browsers, cell phone games, and social games video games changed changed

fundamentally in the years from 2000 to 2010. These new casual games are now played by men and women, young and old. Players need not possess an intimate knowledge of video game history or devote weeks or months to play. At the same time, many players of casual games show a dedication and skill that is anything but casual. In *A Casual Revolution*, Jesper Juul describes this as a reinvention of video games, and of our image of video game players, and explores what this tells us about the players, the games, and their interaction. With this reinvention of video games, the game industry reconnects with a general audience. Many of today's casual game players once enjoyed Pac-Man, Tetris, and other early games, only to drop out when video games became more time-consuming and complex. Juul shows that it is only by understanding what a game requires of players, what players bring to a game, how the game industry works, and how video games have developed historically that we can understand what makes video games fun and why we choose to play (or not to play) them. Bake with Anna Olson Anna Olson, 2016-09-13 Take your baking from simple to sensational with Anna Olson's

comprehensive guide to beautiful baked goods. Bake with Anna Olson features more than 125 recipes from her popular Food Network Canada show. From chocolate chip cookies to croquembouche, pumpkin pie to petits fours, Anna Olson's newest baking book is full of delectable delights for every occasion, category and skill level. Beginner bakers, dessert aficionados and fans of her show will find over 125 recipes to take their baking to the next level, whether through perfecting a classic like New York Cheesecake or mastering a fancy dessert like Chocolate Hazelnut Napoleon. Introductory sections on essential tools and ingredients explain how to prepare your kitchen for baking success, and Anna's helpful notes throughout point you towards perfecting key details for every creation. Recipes for cookies and bars, pies and tarts, cakes, pastries, and other desserts give bakers a range of ways to savor their sweet skills, with a chapter on sauces and decors to round out your knowledge, and a chapter on breads to practice your savory savoir-faire. Gorgeous photography illustrates each recipe and guides you through difficult techniques. Baking your way through Anna Olson's favorites couldn't be easier (or more delicious!). Whether you're looking for a classic baking recipe or a new baking challenge, Bake with Anna Olson is your new go-

to baking book for all occasions!

With a Little Help Cory Doctorow, 2015-07-16 *With a Little Help* is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. *With a Little Help* consists of 12 stories, all reprints except for *Epoch* (commissioned by Mark Shuttleworth).

Extra Lives Tom Bissell, 2011-06-14 In *Extra Lives*, acclaimed writer and life-long video game enthusiast Tom Bissell takes the reader on an insightful and entertaining tour of the art and meaning of video games. In just a few decades, video games have grown increasingly complex and sophisticated, and the companies that produce them are now among the most profitable in the entertainment industry. Yet few outside this world have thought deeply about how these games work, why they are so appealing, and what they are capable of artistically. Blending memoir, criticism, and first-rate reportage, *Extra Lives* is a milestone work about what might be the dominant popular art form of our time.

Public-Private Partnerships Akintola Akintoye, Matthias Beck, Cliff Hardcastle, 2008-04-15 *Public Private Partnership* is a

key issue in the construction industry – causing much concern among contractors, funders and facility managers. Demand has been building for a thorough analysis ... This edited book will familiarise both researchers and construction professionals working with public private partnerships (PPP) with the issues involved in the planning, implementation and day-to-day management of public private projects. It will show how current risk management methods can help the complex process of managing procurement via such partnerships. The chapters - most authored by a practitioner/academic partnership - are organised round the concepts of best value and use the findings of a major research project investigating Risk Assessment and Management in Private Finance Initiative Projects. The analysis of this research will be supplemented with contributions by leading international experts from Hong Kong, Australia and Singapore, covering hospitals, schools, waste management and housing - to exemplify best practice in PPP-based procurement.

Film and Television Stardom Kylo-Patrick R. Hart, 2009-01-14

Film and Television Stardom examines film and television stars as a collectively complex, intriguing social phenomenon from the early twentieth century to the present day. Its range of topics includes

(but is certainly not limited to) the emergence and historical development of the star system, silent-film stardom, stardom and media spectatorship, stardom and consumption, stardom and the paparazzi, reality-television “stars,” stars in the news, and studies of individual stars. In addition to providing numerous new insights and approaches to exploring the phenomenon of film stardom (past and present), its various chapters significantly expand the comparatively nascent body of academic writing that has been devoted to investigating the historical and theoretical aspects of television stardom by focusing on both traditional television programming genres and the more recent phenomenon of reality-television programming. The numerous stars addressed in this book (including Roseanne Barr, Gertrude Berg, Ingrid Bergman, Cher, Sacha Baron Cohen, Bette Davis, Jodie Foster, Jerry Lewis, Carmen Miranda, Anita Page, Jessica Simpson, and James Stewart) are analyzed in relation to noteworthy performances in a variety of well-known films (including *The Accused*, *The Broadway Melody*, *Cinderella*, *Citizen Kane*, *Dark Victory*, *The Man from Laramie*, *Persona*, and *Singin’ in the Rain*) and television programs (including *Da Ali G Show*, *The Apprentice*, *The Goldbergs*, *Roseanne*, and *Survivor*).

Better Game Characters by Design Katherine

Isbister,2022-04-29 Games are poised for a major evolution, driven by growth in technical sophistication and audience reach.

Characters that create powerful social and emotional connections with players throughout the game-play itself (not just in cut scenes) will be essential to next-generation games. However, the principles of sophisticated character design and interaction are not widely understood within the game development community. Further complicating the situation are powerful gender and cultural issues that can influence perception of characters. Katherine Isbister has spent the last 10 years examining what makes interactions with computer characters useful and engaging to different audiences. This work has revealed that the key to good design is leveraging player psychology: understanding what's memorable, exciting, and useful to a person about real-life social interactions, and applying those insights to character design. Game designers who create

great characters often make use of these psychological principles without realizing it. *Better Game Characters by Design* gives game design professionals and other interactive media designers a framework for understanding how social roles and perceptions affect players' reactions to characters, helping produce stronger designs and better results.

Connect and Divide Ulrike Bergermann, Erhard

Schüttpelz, Monika Dommann, Jeremy Stolow, 2021 Media divide and connect simultaneously: they act as intermediaries between otherwise disconnected entities, and as a 'middle' that mediates, but also shields different entities from each other. This ambiguity gives rise to conflicting interpretations, and it evokes all those figures that give a first clue about this janus-faced relationship of 'connect and divide': gate-keeper, parasite, amongst others. If we give accounts of media before and after their mediated action, we refer to persons and organizations, automatisms and artifacts, signals and inscriptions, and we seem to find it easy to refer to

their distinct potentials and dis/abilities. But within the interaction? the 'middle' of media itself seems to be distributed right across the mix of material, semiotic and personal entities involved, and the location of agency is hard to pin down. In case of breakdown we have to disentangle the mix; in case of smooth operations action becomes all the more distributed and potentially untraceable? which makes its attribution a matter of the simultaneously occurring distribution of (official and unofficial) knowledge, labour and power. The empirical and historical investigation of this two-faced relationship of 'connect and divide' has thus resulted in a veritable 'practice turn in media studies'.⁰ 0The publication studies four aspects of the practice turn in media studies: Media history from a praxeological perspective, the practice turn in religion and media studies, the connecting and dividing lines of media theories concerning gender and post_colonial agencies, and a historical and theoretical examination of the current relationship of media theory and practice theory.

The Angel at the Fence Herman Rosenblat, 2009-02 Herman Rosenblat was just 11 years old when German soldiers rounded up his family during a raid on a Jewish ghetto in Poland. Sent to Buchenwald, Herman was put to work in the crematorium,

shovelling dead bodies into the furnace, trying to survive in a world of hunger, fear and death. One day, walking by the fence, he saw a small girl on the other side. She smiled at him, and when he asked desperately if she had any food, she pulled an apple out of her pocket and threw it over the fence. As he ran off, afraid of being caught and shot, he heard her whisper come back tomorrow. For six months, they met every day. She threw him an apple or a hunk of bread. They never spoke, but the warmth of her smile and the food she gave him kept him alive and convinced him that she was an angel, sent to him by his mother. Herman was moved to another camp, and then eventually freed by Russian troops. He moved to England and then to New York. Fifteen years later, in 1957, Herman was set up on a blind date by a friend. Roma charmed him from the start with her warmth and beauty. It was only towards the end of their date that Herman touched on their shared history and asked her gently how she had survived the Holocaust. Roma explained that her family had bought forged papers to hide the fact that they were Jewish, and that they'd lived quietly on a farm next to a camp. She said that she had thrown apples over to fence to a starving young boy every day until he'd told her one day that he was being moved and not to come again.

She'd always prayed that he had survived
