Video Compression Handbook Andy Beach, Aaron

Owen, 2018-06-27 Video compression is not a new process; however, it is forever evolving. New standards, codecs, and ways of getting the job done are continually being created. Newcomers to video compression and seasoned veterans alike need to know how to harness the tools and use them for specific workflows for broadcast, the Web, Blu-rays, set-top boxes, digital cinema, and mobile devices. Here to guide you through the multitude of formats and confusing array of specifications, Andy Beach and Aaron

Owen use a practical, straightforward approach to explaining video compression. After covering the fundamentals of audio and video compression, they explore the current applications for encoding, discuss the common workflows associated with each, and then look at the most common delivery platforms. The book includes examples from the authors' projects as well as recipes that offer a way to define some of the best practices of video compression today. This invaluable resource gives you: proven techniques for delivering video online, or via disc or other devices. clear, straightforward explanations that cut through the jargon. step-by-step instructions for using a wide variety of encoding tools. workflow tips for performing either stand-alone or batch compressions. insight and advice from top compression professionals sprinkled throughout.

The Making of Tomb Raider Daryl Baxter, 2021-12-20 Back in 1994 at the game company 'CORE Design' in Derby, Lara Croft was born. Through eighteen months of pure hard work from the team, Tomb Raider was released in 1996 and became the success that we see today; taking part in the mid-nineties celebrations of Brit-Pop and Girl Power. This is the story of the team who were involved in creating the first two games, then leaving the series to a new team in 1998. Lara Croft brought class, comedy, and a James Bondian role to the game, dreamt up by Toby Gard and helped to become a pitch with Paul Douglas. The game was a gamble, but because everyone at the company believed in it, it led to huge success for everyone, except for Toby and Paul. 'The Making of Tomb Raider' goes into detail of how Lara and the games were born, alongside why Toby Gard and Paul Douglas left before the sequel was released. Throughout eleven chapters of countless interviews, this book will tell you who was responsible for creating the first two games; from its levels, its music, the many voices of Lara Croft, and much more. The team also reveals all about the star of the second game; Winston the Butler, and how he

came to be by Joss Charnet. Over twenty people were interviewed for this story; from the pitch for what would be Tomb Raider, alongside the challenges along the way, up until the release of Tomb Raider 2 in 1997...

e-Learning by Design William Horton, 2011-01-20 From William Horton -- a world renowned expert with more than thirty-five years of hands-on experience creating networked-based educational systems -- comes the next-step resource for e-learning training professionals. Like his best-selling book *Designing Web-Based Training*, this book is a comprehensive resource that provides practical guidance for making the thousand and one decisions needed to design effective e-learning. *e-Learning by Design* includes a systematic, flexible, and rapid design process covering every phase of designing e-learning. Free of academic jargon and confusing theory, this down-to-earth, hands-on book is filled with hundreds of real-world examples and case studies from dozens of fields. Like the book's predecessor (*Designing Web-based Training*), it deserves four stars and is a must read for anyone not selling an expensive solution. -- From Training Media Review, by Jon Aleckson, www.tmreview.com, 2007

General History of Africa International Scientific Committee for the drafting of a General History of Africa, 1981-12-31 Deals with the period beginning at the close of the Neolithic era, from around the eighth millennium before our era. This period of some 9,000 years of history has been sub-divided into four major geographical zones, following the pattern of African historical research. Chapters 1 to 12 cover the corridor of the Nile, Egypt and Nubia. Chapters 13 to 16 relate to the Ethiopian highlands. Chapters 17 to 20 describe the part of Africa later called the Maghrib and its Saharan

hinterland. Chapters 21 to 29, the rest of Africa as well as some of the islands of the Indian Ocean.--Publisher's description
