Advances in Information and Communication Kohei Arai,2023-03-01 This book gathers the proceedings of the eighth Future of Information and Computing Conference, which was held successfully in virtual mode. It received a total of 369 paper submissions from renowned and budding scholars, academics, and distinguished members of the industry. The topics fanned across various fields involving computing, Internet of Things, data science, and artificial intelligence. Learned scholars from all walks of life assembled under one roof to share their unique, original, and breakthrough researches and paved a new technological path for the world. Many of the studies seek to change the face of the world itself. Their innovative thinking indeed aims to solve several gruesome problems in the field of communication, data science, ambient intelligence, networking, computing, security, and privacy. The authors have strived to render valuable pieces of study in this edition and hope to acquire enthusiastic support from the readers.

Architectural Commercial Design Using Autodesk Revit 2014 Daniel John Stine,2013 Architectural Commercial Design Using Revit 2014 is designed for the architectural student using Revit 2014. The intent is to provide the student with a well-rounded knowledge of tools and techniques for use in both school and industry. This text takes a project based approach to learning Revit's Architectural tools in which the student develops a three story office building. Each book comes with a CD containing numerous video presentations of the written material. General building codes and industry standard conventions are covered in a way that is applicable to the current exercise. The first two chapters are intended to get the reader familiar with the user interface and many of the common menus and tools of Revit 2014. A small office is created in chapter two to show just how easy it is to get started using Revit. By the end of chapter two the student will be

excited and prepared to take on a much larger project. Throughout the rest of the book the student develops a three story office building. The drawings start with the floor plans and develop all the way to photo-realistic renderings like the one on the cover of this book. In these chapters many of the architectural tools and features of Revit 2014 are covered in greater detail.

Recovering Argument Randall Lake, 2018-10-29 This volume presents the best scholarship from the 19th National Communication Association/American Forensic Association Conference on Argumentation, which took place July 30-August 2, 2015, at Cliff Lodge, Snowbird Resort, in Alta, Utah. The Alta Conference, first held in 1979, is the oldest conference in argumentation studies in the world and biennially brings together a lively group of scholars, representing a variety of countries, with diverse perspectives on the theory and practice of argument. The essays in *Recovering Argument* invite reflection upon and reconsideration of argumentation's legacy, present status, and potential roles in social, cultural, and political life. Readers will encounter essays that treat the relationship between argumentation and memory, historical approaches to argumentation, the vitality of public and interpersonal argument, argument's role in leadership, discursive and presentational forms of argument, and the challenges of difference. Readers also will find these topics addressed from a variety of historical, social-scientific, and critical-interpretive perspectives.

Why States Recover Greg Mills, 2015-01-03 State failure takes many forms. Somalia offers one extreme. The country's prolonged civil war led to the collapse of central authority, with state control devolving to warlord-led factions that competed for the spoils of local commerce, political power, and international aid. Malawi, on the other hand, is at the other end of the scale. During President Bingu's second term in office, the country's economy collapsed as a result of poor policies and Bingu's brand of personal politics. On the surface, Malawi's economy seemed largely stable; underneath, however, the polity was fractured and the economy broken. In between these two extremes of state failure are all manner of examples, many of which Mills explores in the fascinating and profoundly personal *Why States Recover*. Throughout he returns to his key questions: how do countries recover? What roles should both insiders and outsiders play to aid that process? Drawing on research in more than thirty countries, and incorporating interviews with a dozen leaders, Mills examines state failure and identifies instances of recovery in Latin America, Asia, and Africa. For anyone interested in the reasons behind states' failure, and remedies to ensure future economic stability, it is important reading.

Data Recovery Tips & Solutions: Windows, Linux, and BSD Kris Kaspersky, 2006 This comprehensive manual covers three areas in which system administrators must be proficient to successfully recover data: the structure and operating principles of the most popular file systems, automatic data recovery techniques, and manual recovery techniques used in cases of total data destruction. Data recovery from hard drives and optical storage in Windows, BSD, and Linux file systems is described, as are automatic recovery utilities, manual and automatic recovery of deleted files on ext2/ext3 partitions and NTFS partitions, formatted NTFS partitions and deleted UFS/FFS files, RAID data recovery, media restoration with physical damage, and data loss prevention.

Recovering 1940s Horror Cinema Mario DeGiglio-Bellemare, Charlie Ellbé, Kristopher Woofert, 2014-12-11 The 1940s is a lost decade in horror cinema, undervalued and written out of most horror scholarship. This book deconstructs persistent scholarly discourse by re-evaluating the historical, political, economic, and cultural factors of 1940s horror cinema to recover a decade of horror.

Recovering from Psychosis Stephen Williams, 2015-11-19 The use of first-hand service user accounts of mental illness is still limited in the professional literature available. This is, however, beginning to change, with a new 'recovery' focus in mental health services meaning that the voices of service users are finally being heard. *Recovering from Psychosis: Empirical Evidence and Lived Experience* synthesises a narrative approach alongside an evidence-based review of current treatment by including Stephen Williams' own personal experience as it relates to psychosis, recovery and treatment. A mental health professional himself, the author's account of his own recovery from severe mental health difficulties, without sustained intervention, challenges the orthodoxy of representation of service users in mental health. *Recovering from Psychosis* critically explores and reviews the current state of the art of research and knowledge about the nature and treatment of psychosis. Working simultaneously from empirical, lived experience and philosophical perspectives, Stephen Williams: Evaluates political and power related issues in professional understanding, knowledge-creation and treatment of people with psychosis; Introduces the current 'recovery movement', unpacking its origins and implications for the future development of 'recovery oriented services'; Reviews, summarizes and critiques the current state of 'recovery' research, looking at the advantages and disadvantages of such an approach, examining how this is influencing the transformation of UK mental health services; Analyses the difficulties in organisational implementation of recovery approaches, summarises the most empirically robust approaches to practice, personal and service delivery measurement; Reviews current 'models' of psychosis and how various professional scientific groups explain the experience and nature of psychosis; Uses lived-experience accounts taken from the scientific literature, portraying the nature of such experiences and analysing them in the face of contemporary psychological models. *Recovering from Psychosis* is an essential comprehensive guide for mental health professionals, psychologists, social workers and carers, who are working with people with severe and enduring mental health difficulties diagnosed as psychosis. It addresses the practical implications of working with such difficult conditions and serves as a hopeful story of recovery for service users.

Recovering from a First Episode of Psychosis Chris Jackson, Eleanor Baggott, Mark

Bernard, Ruth Clutterbuck, Diane Ryles, Erin Turner, 2019-05-07 Despite years of research, debate and changes in mental health policy, there is still a lack of consensus as to what recovery from psychosis actually means, how it should be measured and how it may ultimately be achieved. In *Recovering from a First Episode of Psychosis: An Integrated Approach to Early Intervention*, it is argued that recovery from a first episode of psychosis (FEP) is comprised of three core elements: symptomatic, social and personal. Moreover, all three types of recovery need to be the target of early intervention for psychosis programmes (EIP) which provide evidence-based, integrated, bio-psychosocial interventions delivered in the context of a value base offering hope, empowerment and a youth-focused approach. Over the 12 chapters in the book, the authors, all experienced clinicians and researchers from multi-professional backgrounds, demonstrate that long-term recovery needs to replace short term remission as the key target of early psychosis services and that, to achieve this, we need a change in the way we deliver EIP: one that takes account of the different stages of psychosis and the 'bespoke' targeting of integrated medical, psychological and social treatments during the 'critical period'. Illustrated with a wealth of clinical examples, this book will be of great interest to clinical psychologists, psychiatrists, psychiatric nurses and other associated mental health professionals.

Recovering Identity Cesraéa Rumpf, 2023-05-02 A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. *Recovering Identity* examines a critical tension in criminalized women's identity work. Through in-depth qualitative and photo-elicitation interviews, Cesraéa Rumpf shows how formerly incarcerated women engaged recovery and faith-based discourses to craft rehabilitated identities, defined in opposition to past identities as criminal-addicts. While these discourses made it possible for women to carve out spaces of personal protection, growth, and joy, they also promoted individualistic understandings of criminalization and the violence and dehumanization that followed. Honoring criminalized women's stories of personal transformation, Rumpf nevertheless strongly critiques institutions' promotion of narratives that impose lifelong moral judgment while detracting attention from the structural forces of racism, sexism, and poverty that contribute to women's vulnerability to violence.

Recovering from Catastrophic Disaster in Asia William L. Waugh, Jr., Ziqiang Han, 2017-09-18 *Community, Environment and Disaster Risk Management* provides a series of cross-disciplinary approaches and methods which are exemplified by case studies from different parts of the world. Volume 18 looks at how cities and countries recover from catastrophic disasters with a specific focus on Asia.

Disk Detective Norbert Zaenglein, 1998-09-01 *Disk Detective* is designed to bring the secrets of information recovery to the average person. In it, the author shows PIs, parents, teachers, business owners and law enforcement professionals what types of information can be recovered from IBM-compatible personal computers and how. He includes step-by-step instructions for recovering information from reformatted disks or overwritten files, retrieving deleted files, discovering passwords, retracing visited Internet files, locating e-mail messages, and more.

Urbanizing the Regional Sector to Strengthen Economy and Business to Recover from Recession Aulia Herdiani, Agus Hermawan, Setya Ayu Rahmawati, Mohd. Rizal Palil, Reza Havies, 2022-12-07 This pandemic does not only affect health aspects but

also economic aspects. The world today faces a recession resulting from the covid-19 pandemic. Indonesia's economy continues to lead to a recovery, although not very significant. The current government continues to make various recovery efforts. One of the flagship programs includes encouraging and strengthening support for social protection and increasing the purchasing power of households as well as various business sectors, including small and medium-sized micro enterprises (MSMEs). This condition urges the world to create new breakthroughs to rise from this adversity. Academicians and practitioners need to work together to find the necessary solutions and developments. Surely, it will contribute to solve the problems in society by interdisciplinary cooperation. This collaboration will create innovations in science and technology especially business and economic field. This book includes in-depth discussions between academicians and practitioners, especially on how to strengthen the regional sectors to be the strong pillars of the country's economy. Interestingly, various methods are used to observe the problems, to explore the solutions, and to develop the innovation. This book will be of interest to students, scholars, and practitioners of social empowerment, governance, and other related stakeholders.
