How to Be Alone Lane Moore,2018-11-06 The former Sex & Relationships Editor for Cosmopolitan and host of the wildly popular comedy show *Tinder Live* with Lane Moore presents her poignant, funny, and deeply moving first book. Lane Moore is a rare performer who is as impressive onstage—whether hosting her iconic show *Tinder Live* or being the enigmatic front woman of *It Was Romance*—as she is on the page, as both a former writer for *The Onion* and an award-winning sex and relationships editor for *Cosmopolitan*. But her story has had its obstacles, including being her own parent, living in her car as a teenager, and moving to New York City to pursue her dreams. Through it all, she looked to movies, TV, and music as the family and support systems she never had. From spending the holidays alone to having better “stranger luck” than with those closest to her to feeling like the last hopeless romantic on earth, Lane reveals her powerful and entertaining journey in all its candor, anxiety, and ultimate acceptance—with humor always her bolstering force and greatest gift. *How to Be Alone* is a must-read for anyone whose childhood still feels unresolved, who spends more time pretending to have friends online than feeling close to anyone in real life, who tries to have genuine, deep conversations in a roomful of people who would rather you not. Above all, it’s a book for anyone who desperately wants to feel less alone and a little more connected through reading her words.

Lion Songs Banning Eyre,2015-05-01 Like Fela Kuti and Bob Marley, singer, composer, and bandleader Thomas Mapfumo and his music came to represent his native country's anticolonial struggle and cultural identity. Mapfumo was born in 1945 in what was then the British colony of Rhodesia (now Zimbabwe). The trajectory of his career—from early performances of rock 'n' roll tunes to later creating a new genre based on traditional Zimbabwean music, including the sacred mbira, and African and Western pop—is a metaphor for Zimbabwe's evolution from colony to independent nation. *Lion Songs* is an authoritative biography of Mapfumo that narrates the life and career of this creative, complex, and iconic figure. Banning Eyre ties the arc of Mapfumo's career to the history of Zimbabwe. The genre Mapfumo created in the 1970s called chimurenga, or struggle music, challenged the Rhodesian government—which banned his music and jailed him—and became important to Zimbabwe achieving independence in 1980. In the 1980s and 1990s Mapfumo's international profile grew along with his opposition to Robert Mugabe's dictatorship. Mugabe had been a hero of the revolution, but Mapfumo’s criticism of his regime led authorities and loyalists to turn on the singer with threats and intimidation. Beginning in 2000, Mapfumo and key band and family members left Zimbabwe. Many of them, including Mapfumo, now reside in Eugene, Oregon. A labor of love, *Lion Songs* is the product of a twenty-five-year friendship and professional relationship between Eyre and Mapfumo that demonstrates Mapfumo's musical and political importance to his nation, its freedom struggle, and its culture.

File System Forensic Analysis Brian Carrier,2005-03-17 The Definitive Guide to File System Analysis: Key Concepts and Hands-on Techniques Most digital evidence is stored within the computer's file system, but understanding how file systems work is one of the most technically challenging concepts for a digital investigator because there exists little documentation. Now, security expert Brian Carrier has written the definitive reference for everyone who wants to understand and be able to testify about how file system analysis is performed. Carrier begins with an overview of investigation and computer foundations and then gives an authoritative, comprehensive, and illustrated overview of contemporary volume and file systems: Crucial information for discovering hidden evidence, recovering deleted data, and validating your tools. Along the way, he describes data structures, analyzes example disk images, provides advanced investigation scenarios, and uses today's most valuable open source file system analysis tools—including tools he personally developed. Coverage includes Preserving the digital crime scene and duplicating hard disks for dead analysis Identifying hidden data on a disk's Host Protected Area (HPA) Reading source data: Direct versus BIOS access, dead versus live acquisition, error handling, and more Analyzing DOS, Apple, and GPT partitions; BSD disk labels; and Sun Volume Table of Contents using key concepts, data structures, and specific techniques Analyzing the contents of multiple disk volumes, such as RAID and disk spanning Analyzing FAT, NTFS, Ext2, Ext3, UFS1, and UFS2 file systems using key concepts, data structures, and specific techniques Finding evidence: File metadata, recovery of deleted files, data hiding locations, and more Using The Sleuth Kit (TSK), Autopsy Forensic Browser, and related open source tools When it comes to file system analysis, no other book offers this much detail or expertise. *Undeleted Scenes* Jeffrey Brown,2010 Thoroughly engaging and loaded with charm to burn, this latest work from Brown is a perfect example of how to do autobiographical comics right. ... this is good stuff that solidly resonates with a palpable and universal humanity and bears repeated readings. -- Publishers Weekly It's essentially an odds and ends collection, but it reads like a greatest hits.-- Playback:STL Undeleted Scenes should be on the serious comic book reader's must-buy list.-- Comic Book Bin Undeleted Scenes is a fantastic collection of ... some of the best work of Brown's career. ... the way that Brown gets at the heart of small details to convey a larger emotional truth is what makes his comics so compulsively readable.-- Rob Clough, The Comics Journal Undeleted Scenes presents a decade's worth of shorter works from indie comics legend Jeffrey Brown. This huge compendium contains stories from the previous collections Minisulk, Every Girl Is the End of the World for Me, and Feeble Attempts, as well as Jeffrey's work from anthologies such as Kramers Ergot and McSweeney's, plus rare material from minicomics and elsewhere, including dozens of pages of never-before-seen material. Spanning humor, autobiography, and beyond, some of Jeffrey's most beloved comics are in here \_- including the fan-favorite self-parody collection Be A Man! All in all, it's an essential addition to every comic reader's Jeffrey Brown library.
