The F-100 Units of USAFE Doug Gordon,2024-01-07 The North American F-100 Super Sabre served with the United States Air Forces in Europe for a total of sixteen years at the height of the Cold War. The primary mission of the USAFE units that flew the 'hun' was the delivery of tactical nuclear weapons on targets in the Soviet Union and Eastern Europe. The nuclear mission was practised on the gunnery ranges of Europe, the Mediterranean region, and North Africa. The pilots, called bomb commanders, sat alert all over Europe to take off at a moment's notice and fly alone into the heart of enemy territory carrying just one atomic bomb often more powerful than those dropped on the cities of Hiroshima and Nagasaki at the end of the Second World War. These dedicated pilots acknowledged that many of their targets were situated so far away that there would be no prospect of return to their home base and their families and friends. The secondary mission of the USAFE F-100 units was to prepare for conventional war.

F-100 Super Sabre Units of the Vietnam War Peter E. Davies,David Menard,2012-11-20 The F-100 Super Sabre may have been superseded by the superior technology of the F-105 Thunderchief and the F-4 Phantom by the Vietnam War it remained in service. The Super Sabre was deployed as an air defence fighter, and was later given nuclear capability. The F-100's toughness, adaptability and reliability made it ideal for the incessant missions that were demanded by close support and counter-insurgency missions. 242 Super Sabres and 87 aircrew were lost during the war but their role, particularly in developing the tactics used for discovering and destroying SAM sites, was invaluable. This book describes some of the most important actions that the F-100 took part in, looks at the pilots who flew it and analyses the impact of the aircraft on the war.

Natural Science Through the Seasons James A. Partridge,2012-08-01 Features lessons and activities suitable for Primary (Grades 1-2, ages 6-8), Junior (Grades 3-4, ages 8-10), Intermediate (Grades 5-6, ages 10-12); many intermediate activities are also suitable for Grades 7-8.
