MVP* Douglas Evans,2016-11-04 Every kid's dream is to be named Most Valuable Player. But how many ever dream that the game is a race around the world (no flying allowed) in just forty days? That's the challenge Adam faces in the Great Global Game. As the player for the Magellan Voyage Project, he competes against others for a four-million-dollar prize! Trackers with blowguns and a nefarious baron don't make things easy.

Contemporary High Performance Computing Jeffrey S. Vetter,2017-11-23 Contemporary High Performance Computing: From Petascale toward Exascale focuses on the ecosystems surrounding the world's leading centers for high performance computing (HPC). It covers many of the important factors involved in each ecosystem: computer architectures, software, applications, facilities, and sponsors. The first part of the book examines significant trends in HPC systems, including computer architectures, applications, performance, and software. It discusses the growth from terascale to petascale computing and the influence of the TOP500 and Green500 lists. The second part of the book provides a comprehensive overview of 18 HPC ecosystems from around the world. Each chapter in this section describes programmatic motivation for HPC and their important applications; a flagship HPC system overview covering computer architecture, system software, programming systems, storage, visualization, and analytics support; and an overview of their data center/facility. The last part of the book addresses the role of clouds and grids in HPC, including chapters on the Magellan, FutureGrid, and LLGrid projects. With contributions from top researchers directly involved in designing, deploying, and using these supercomputing systems, this book captures a global picture of the state of the art in HPC.

The First Voyage Around the World, 1519-1522 Antonio Pigafetta,2007-01-01 The First Voyage around the World is also a remarkably accurate ethnographic and geographical account of the circumnavigation, and one that has earned its reputation among modern historiographers and students of the early contacts between Europe and the East Indies.

Magellan Stefan Zweig,2011-09-20 The Portuguese explorer Ferdinand Magellan (1480–1521) is one of the most famous navigators in history – he was the first man to sail from the Atlantic to the Pacific Ocean, and led the first voyage to circumnavigate the globe, although he was killed en route in a battle in the Philippines. In this biography, Zweig brings to life the Age of Discovery by telling the tale of one of the era's most daring adventurers. In typically flowing and elegant prose he takes us on a fascinating journey of discovery ourselves.

"A" New English Dictionary on Historical Principles James Augustus Henry Murray,1908

Ferdinand Magellan Isaac Asimov,1991 Presents the story of the Portuguese explorer who became the first European to cross the Pacific Ocean and whose expedition completed its voyage around the world after his death en route.

Venus II Steven W. Bougher, Donald M. Hunten, Roger J. Phillips, 2022-02-08
The final orbit of Venus by the Magellan spacecraft in October 1994 brought to a close an exciting period of Venus reconnaissance and exploration. The scientific studies resulting from data collected by the Magellan, Galileo, and Pioneer missions are unprecedented in their detail for any planet except Earth. Venus II re-evaluates initial assessments of Venus in light of these and other spacecraft missions and ground-based observations conducted over the past 30 years. More than a hundred contributors summarize our current knowledge of the planet, consider points of disagreement in interpretation, and identify priorities for future research. Topics addressed include geology, surface processes, volcanism, tectonism, impact cratering, geodynamics, upper and lower atmospheres, and solar wind environment. The diversity of the coverage reflects the interdisciplinary nature of Venus science and the breadth of knowledge that has contributed to it. A CD-ROM developed by the Jet Propulsion Laboratory accompanies the book and incorporates text, graphics, video, software, and various digital products from selected contributors to the text. A multimedia interface allows users to navigate the text and the extensive databases included on the disk. Venus II is the most authoritative single volume available on the second planet. Its contents will not only help shape the goals of future Venus missions but will also enhance our understanding of current Mars explorations.

Straits Felipe Fernandez-Armesto, 2022-03-29 An uncompromising study of the fictions, the failures, and the real man behind the myth of Magellan. With *Straits*, celebrated historian Felipe Fernández-Armesto subjects the surviving sources to the most meticulous scrutiny ever, providing a timely and engrossing biography of the real Ferdinand Magellan. The truth that Fernández-Armesto uncovers about Magellan's life, his character, and the events of his ill-fated voyage offers up a stranger, darker, and even more compelling narrative than the fictional version that has been celebrated for half a millennium. Magellan did not attempt—much less accomplish—a journey around the globe. In his lifetime he was abhorred as a traitor, reviled as a tyrant, self-condemned to destruction, and dismissed as a failure. *Straits* untangles the myths that made Magellan a hero and discloses the reality of the man, probing the passions and tensions that drove him to adventure and drew him to disaster. We see the mutations of his character: pride that became arrogance, daring that became recklessness, determination that became ruthlessness, romanticism that became irresponsibility, and superficial piety that became, in adversity, irrational exaltation. As the real Magellan emerges, so do his real ambitions, focused less on circumnavigating the world or cornering the global spice market than on exploiting Filipino gold. *Straits* is a study in failure and the paradox of Magellan's career, showing that renown is not always a reflection of merit but often a gift and accident of circumstance.

Who Was Ferdinand Magellan? S. A. Kramer, 2004-08-03 When Portuguese sailor Ferdinand Magellan set sail from Spain in 1519, he believed he could get to the Spice Islands by sailing west through or around the New World. He was right, but what he didn't know was that the treacherous voyage would take him three years and cost him his life. Black-and-white line drawings illustrate Magellan's life and voyage, with sidebars and a time line that enhance readers' understanding of the period.

Magellan Tim Joyner,1994 In this stirring account of an epic voyage beset by shipwreck, desertions, scurvy, and hunger, (Magellan) emerges as an all-too-human hero who tested the limits of the possible.--Publishers Weekly.

The Travels of Ferdinand Magellan Joanne Mattern,2000 Presents a biography of the daring Portuguese sea captain who commanded the first expedition that sailed around the world.
