High-Utility Pattern Mining Philippe Fournier-Viger,Jerry Chun-Wei Lin,Roger Nkambou,Bay Vo,Vincent S. Tseng,2019-01-18 This book presents an overview of techniques for discovering high-utility patterns (patterns with a high importance) in data. It introduces the main types of high-utility patterns, as well as the theory and core algorithms for high-utility pattern mining, and describes recent advances, applications, open-source software, and research opportunities. It also discusses several types of discrete data, including customer transaction data and sequential data. The book consists of twelve chapters, seven of which are surveys presenting the main subfields of high-utility pattern mining, including itemset mining, sequential pattern mining, big data pattern mining, metaheuristic-based approaches, privacy-preserving pattern mining, and pattern visualization. The remaining five chapters describe key techniques and applications, such as discovering concise representations and regular patterns.

Malawi Rapid eTrade Readiness Assessment United Nations Conference on Trade and Development (UNCTAD),2020-05-13 This publication focuses on seven key policy areas that are most relevant for e-commerce. Within each area, critical readiness gaps are identified and relevant recommendations are proposed to overcome barriers and bottlenecks to the growth of digital trade. There are signs that Malawi has started to consider some of the benefits that e-commerce can bring to its population and some important initiatives have been undertaken in this direction. However, the overall ecosystem needs to be structured and organized to avoid the proliferation of informal and unskilled operators, with obvious losses for government and consumers.

The Annotated General Code of the State of Ohio of 1910, and All Laws of a General Nature Passed Since Its Adoption and in Force January 1, 1912 Ohio,John Jay Adams,1916
