Body, Capital, and Screens Christian Bonah, Anja Laukötter, 2020

Body, Capital and Screens: Visual Media and the Healthy Self in the 20th Century brings together new research from leading scholars from Europe and North America working at the intersection of film and media studies and social and cultural history of the body. The volume focuses on visual media in the twentieth century in Europe and the U.S. that informed and educated people about life and health as well as practices improving them. Through a series of in-depth case studies, the contributors to this volume investigate the relationships between film/television, private and public actors of the health sector and economic developments. The book explores the performative and interactive power of these visual media on individual health understandings, perceptions and practices. Body, Capital and Screens aims to better understand how bodily health has evolved as a form of capital throughout the century.

Overcoming School Refusal Joanne Garfi, 2018-01-31

School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them

with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

The Canadian Short Story Reingard M. Nischik, 2007 Beginning in the 1890s, reaching its first full realization by modernist writers in the 1920s, and brought to its heyday during the Canadian Renaissance starting in the 1960s, the short story has become Canada's flagship genre. It continues to attract the country's most accomplished and innovative writers today, among them Margaret Atwood, Mavis Gallant, Alice Munro, Carol Shields, and many others. Yet in contrast to the stature and popularity of the genre and the writers who partake in it, surprisingly little literary criticism and theory has been devoted to the Canadian short story. This collection redresses that imbalance by providing the first collection of critical interpretations of a range of thirty well-known and often-anthologized Canadian short stories from the genre's beginnings through the twentieth century. A historical survey of the genre introduces the volume and a timeline comparing the genre's development in Canada, the US, and Great Britain via representative examples completes it. The collection is geared both to specialists in and to students of Canadian literature. For the latter it is of particular benefit that the volume provides not only a collection of interpretations, but a comprehensive introduction to the history of the Canadian short story. Reingard M. Nischik is professor and chair of American Literature at the University of Constance, Germany.

Windows Forensic Analysis Toolkit Harlan Carvey, 2012-01-27

Windows is the largest operating system on desktops and servers worldwide, which means more intrusions, malware infections, and cybercrime happen on these systems. Author Harlan Carvey has brought his bestselling book up-to-date by covering the newest version of Windows, Windows 7. *Windows Forensic Analysis Toolkit, 3e*, covers live and postmortem response collection and analysis methodologies, addressing material that is applicable to law enforcement, the federal government, students, and consultants. The book is also accessible to system administrators, who are often the frontline when an incident occurs, but due to staffing and budget constraints do not have the necessary knowledge to respond effectively. Now the companion material is hosted online as opposed to a DVD, making the material accessible from any location and in any book format.

Comparative North American Studies Reingard M.

Nischik, 2016-04-29 Merging selected approaches to Comparative North American Studies with detailed textual analyses, this book studies works of writers as diverse as Ernest Hemingway, Joyce Carol Oates, Tim O'Brien, and Margaret Atwood. Topics include comparative approaches to the North American modernist short story, narratives of the Canada-US border, and North American reviews of Atwood's novels.

The Global Governance of HIV/AIDS O. Aginam, 2013-01-01
HIV/AIDS remains a major global health problem, despite the progress made in its prevention and treatment. Addressing this problem is not only a matter of more and better drugs, they need to be widely accessible and be affordable to the poor. This book makes, with a much welcomed interdisciplinary approach, an excellent contribution to understanding how the intellectual property regime

can influence health policies and the lives of millions of people affected by the disease. The analysis provided by the various authors that contributed to this book will be of relevance not only to those working in the area of HIV/AIDS, but to those more broadly interested in public health governance and the role of intellectual property rights.

— Carlos Correa, University of Buenos Aires, Argentina

This is an important, innovative and, at times, controversial collection. Inter-disciplinary in approach, this collection will have appeal to those concerned with the global injustice in the context of HIV/AIDS. Investigating the legal, political and economic determinants of access to essential medicines, this is thought provoking collection which will resonate with many in both the academic and public policy community.

— Bryan Mercurio, The Chinese University of Hong Kong

This important book brings together leading scholars from multiple disciplines, including intellectual property, human rights, public health, and development studies, as well as activists to critically reflect on the global health governance regime. The *Global Governance of HIV/AIDS* explores the implications of high international intellectual property standards for access to essential medicines in developing countries. With a focus on HIV/AIDS governance, the volume provides a timely analysis of the international legal and political landscape, the relationship between human rights and intellectual property, and emerging issues in global health policy. It concludes with concrete strategies on how to improve access to HIV/AIDS medicines. This interdisciplinary, global, and up-to-date book will strongly appeal to academics in law, international relations, health policy and public policy, as well as students, policymakers and activists.

A Companion to Friedrich Nietzsche Paul Bishop, 2012 An

advanced introduction for students and a re-orientation for Nietzsche scholars and intellectual historians on the development of his thought and the aesthetic construction of his identity as a philosopher.

Nietzsche looms over modern literature and thought; according to Gottfried Benn, everything my generation discussed, thought through innerly; one could say: suffered; or one could even say: took to the point of exhaustion -- allof it had already been said . . . by Nietzsche; all the rest was just exegesis. Nietzsche's influence on intellectual life today is arguably as great; witness the various societies, journals, and websites and the steady stream of papers, collections, and monographs. This Companion offers new essays from the best Nietzsche scholars, emphasizing the interrelatedness of his life and thought, eschewing a superficial biographical method but taking seriously his claim that great philosophy is the self-confession of its author and a kind of unintended and unremarked memoir. Each essay examines a major work by Nietzsche; together, they offer an advanced introduction for students of German Studies, philosophy, and comparative literature as well as for the lay reader. Re-establishing the links between Nietzsche's philosophical texts and their biographical background, the volume alerts Nietzsche scholars and intellectual historians to the internal development of his thought and the aesthetic construction of his identity as a philosopher. Contributors: Ruth Abbey, Keith Ansell-Pearson, Rebecca Bamford, Paul Bishop, Thomas H. Brobjer, Daniel W. Conway, Adrian Del Caro, Carol Diethe, Michael Allen Gillespie and Keegan F. Callanan, Laurence Lampert, Duncan Large, Martin Liebscher, Martine Prange, Alan D. Schrift. Paul Bishop is William Jacks Chair of Modern Languages at the University of Glasgow.

Handbook of Research on Venture Capital Hans Landström, Colin

Mason, 2012-01-01

ÔThis exciting second volume of cutting-edge research on venture capital takes up where volume one leaves off, bringing greater depth to topics covered in the first volume (such as angel investing) and adding new topics and insights. It poses interesting questions such as Ð Is venture capital in crisis? Are new models of early investing needed? Ð and offers carefully researched answers. Landstrřm and Mason provide insightful commentary and skillfully pinpoint the contributions of a talented set of researchers. Both scholars and practitioners of venture capital will want to read this book.Õ Ð Harry J. Sapienza, University of Minnesota, US

ÔThe second edition of the Handbook of Research on Venture Capital provides an important guidepost for venture capital researchers. As Landstrřm and Mason point out, the nature of venture capital has changed dramatically over the last ten years. The asset class as a whole has failed to return principal and the old model is under tremendous strain. The contributors nicely highlight many of these changes, especially how venture capital has scaled beyond the US. For those of us active in venture capital research, the chapters raise many interesting research questions that deserve further attention.Õ Ð Andrew Zacharakis, Babson College, US

This Handbook charts the development of venture capital research in light of the global financial crisis, starting with an analysis of the current venture capital market and the changing nature of the business angel market. Looking at governance structures, the performance of venture capitalists in terms of investments, economic impact and human capital, and the geographical organization of business angels and venture capital global ÔhotspotsÕ, this book also analyses the current state of venture capital research and offers a roadmap for the future.

The Spectral City Leanna Renee Hieber, 2018-11-27 Solving crime

isn't only for the living. In turn-of-the century New York City, the police have an off-the-books spiritual go-to when it comes to solving puzzling corporeal crimes . . . Her name is Eve Whitby, gifted medium and spearhead of The Ghost Precinct. When most women are traveling in a gilded society that promises only well-appointed marriage, the confident nineteen-year-old Eve navigates a social circle that carries a different kind of chill. Working with the diligent but skeptical Lieutenant Horowitz, as well as a group of fellow psychics and wayward ghosts, Eve holds her own against detractors and threats to solve New York's most disturbing crimes as only a medium of her ability can. But as accustomed as Eve is to ghastly crimes and all matters of the uncanny, even she is unsettled by her department's latest mystery. Her ghostly conduits are starting to disappear one by one as though snatched away by some evil force determined to upset the balance between two realms, and most important—destroy the Ghost Precinct forever. Now Eve must brave the darkness to find the vanished souls. She has no choice. It's her job to make sure no one is ever left for dead. "There is something truly magical about Leanna Renee Hieber's writing." —Shana DuBois Barnes & Noble Sci-Fi/Fantasy Blog on *Perilous Prophecy* "Smart, boundlessly creative gaslamp fantasy." —RT Book Reviews on *Eterna and Omega* "Will have readers chomping at the bit for more." —Suspense Magazine on *Eterna and Omega*. *The Spectral City* is a spooky thrill - lovely and bold, with terrific characters and a glorious gaslamp setting that's filled to the brim with beauty and peril. --Cherie Priest, Locus Award Winning Author of *Boneshaker*

The Starr Evidence Kenneth Starr, 1998-10-14 This book contains the essential evidence behind Independent Counsel Kenneth W. Starr's report to Congress. Included is previously secret testimony by

President Clinton and Monica Lewinsky, as well as supporting documents assembled by Starr to prove his case, with private e-mails, the FBI's test report on Lewinsky's dress, and a previously undisclosed Lewinsky diary. Also included is analysis and reporting by the Pulitzer Prize-winning staff of The Washington Post.

The War on Terror Noah Berlatsky, 2012-07-20 While the War on Terror is a very familiar phrase to the American people, many countries are embarked on their own War on Terror. Give your readers a globally-minded, balanced book on this issue. Readers will learn about this war in various countries, including Israel, Pakistan, Somalia, Afghanistan, European nations, and the U.S. Readers will explore the causes of terrorism, issues of human rights, governments' responses to terrorism, and the future of the War on Terror.

Autodesk Revit 2018 MEP Fundamentals - Metric Units

ASCENT - Center for Technical Knowledge, Autodesk Authorized Publisher, 2017-04-13 To take full advantage of Building Information Modeling, the Autodesk(R) Revit(R) 2018 MEP: Fundamentals student guide has been designed to teach the concepts and principles of creating 3D parametric models of MEP system from engineering design through construction documentation. The student guide is intended to introduce students to the software's user interface and the basic HVAC, electrical, and piping/plumbing components that make the Autodesk Revit software a powerful and flexible engineering modeling tool. The student guide will also familiarize students with the tools required to create, document, and print the parametric model. The examples and practices are designed to take the students through the basics of a full MEP project from linking in an architectural model to construction documents. Topics Covered Working with the Autodesk Revit software's basic viewing, drawing,

and editing commands. Inserting and connecting MEP components and using the System Browser. Working with linked architectural files. Creating spaces and zones so that you can analyze heating and cooling loads. Creating HVAC networks with air terminals, mechanical equipment, ducts, and pipes. Creating plumbing networks with plumbing fixtures and pipes. Creating electrical circuits with electrical equipment, devices, and lighting fixtures and adding cable trays and conduits. Creating HVAC and plumbing systems with automatic duct and piping layouts. Testing duct, piping and electrical systems. Creating and annotating construction documents. Adding tags and creating schedules. Detailing in the Autodesk Revit software.

Prerequisites This student guide introduces the fundamental skills in learning the Autodesk Revit MEP software. It is highly recommended that students have experience and knowledge in MEP engineering and its terminology.

History of Literature in Canada Reingard M. Nischik, 2008 The development of literature in Canada with an eye to its multicultural, multiethnic, multilingual nature. From modest colonial beginnings, literature in Canada has arrived at the center stage of world literature. Works by English-Canadian writers -- both established writers such as Margaret Atwood and new talents such as Yann Martel -- make regular appearances on international bestseller lists. French-Canadian literature has also found its own voice in the North American and francophone worlds. CanLit has likewise developed into a staple of academic interest, pursued in Canadian Studies programs in Canada and around the world. This volume draws on the expertise of scholars from Canada, Germany, Austria, and France, tracing Canadian literature from the indigenous oral tradition to the development of English-Canadian and French-Canadian literature since colonial times.

Conceiving of Canada as a single but multifaceted culture, it accounts for specific characteristics of English- and French-Canadian literatures, such as the vital role of the short story in English Canada or that of the *chanson* in French Canada. Yet special attention is also paid to Aboriginal literature and to the pronounced transcultural, ethnically diverse character of much contemporary Canadian literature, thus moving clearly beyond the traditions of the two founding nations.

Four Letters of Love Niall Williams, 2015-11-03

Nicholas Coughlan is twelve years old when his father, an Irish civil servant, announces that God has commanded him to become a painter. He abandons the family and a wife who is driven to despair. Years later, Nicholas's own civil-service career is disrupted by tragic news: his father has burned down the house, with all his paintings and himself in it. Isabel Gore is the daughter of a poet. She's a passionate girl, but her brother is the real prodigy, a musician. And yet this family, too, is struck by tragedy: a seizure leaves the boy mute and unable to play. Years later, Isabel will continue to somehow blame herself, casting off her own chances for happiness. And then, the day after Isabel's wedding to man she doesn't love, Nicholas arrives on her western isle, seeking his father's last surviving painting. Suddenly the winds of fortune begin to shift, sweeping both these souls up with them.

Nicholas and Isabel, it seems, were always meant to meet. But it will take a series of chance events--and perhaps, a proper miracle--to convince both to follow their hearts to where they're meant to be.

America's Wetlands, 1995 Describes the many kinds of wetlands in the United States and introduces the wide variety of plants and animals that depend on them.

Engendering Genre Reingard M. Nischik, 2010-10-27 Winner of the 2010 Margaret Atwood Society Best Book Prize. In *Engendering Genre*, renowned Margaret Atwood scholar Reingard M. Nischik analyzes the relationship between gender and genre in Atwood's works. She approaches Atwood's oeuvre by genre – poetry, short fiction, novels, criticism, comics, and film – and examines them individually. She explores how Atwood has developed her genres to be gender-sensitive in both content and form and argues that gender and genre are inherently complicit in Atwood's work: they converge to critique the gender-biased designs of traditional genres. This combination of gender and genre results in the recognizable Atwoodian style that shakes and extends the boundaries of conventional genres and explores them in new ways. The book includes the first in-depth treatment of Atwood's cartoon art as well as the first survey of her involvement with film, and concludes with an interview with Margaret Atwood on her career "From Survivalwoman to Literary Icon."

Jesus and the Living Past Michael Ramsey, 1980

Mercury Stories Henrik Selin, Noelle Eckley Selin, 2020-10-20 An interdisciplinary analysis of human interactions with mercury through history that sheds light on efforts to promote and achieve sustainability. In *Mercury Stories*, Henrik Selin and Noelle Eckley Selin examine sustainability through analyzing human interactions

with mercury over thousands of years. They explore how people have made beneficial use of this volatile element, how they have been harmed by its toxic properties, and how they have tried to protect themselves and the environment from its damaging effects. Taking a systems approach, they develop and apply an analytical framework that can inform other efforts to evaluate and promote sustainability.

The Cattle Killing John Edgar Wideman, 1996 A surrealistic novel on the black experience. The action is in the form of vignettes and ranges from cattle killing by the Xhosa in Africa, believing this will drive the whites away, to a black bishop in Philadelphia taking his flock out of the white man's church.
