Francesco Filelfo, Man of Letters ,2018-10-08 Investigating the writings of the Francesco Filelfo (1398-1481), twelve scholars are shedding new light on Filelfo's intellectual endeavors and literary journey. This collection offers new inroads into Filelfo's vast oeuvre, and through it to the world of Quattrocento humanism.

International Higher Education Volume 2 Philip Altbach,2014-06-23 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields. Comprehensive and in-depth coverage of a limited number of countries, regions and themes is provided. The essays not only feature statistical and factual information but significant interpretation of those facts and figures. The chapters on themes and topics are both analytic and interpretative and deal with the most important topics relevant to higher education everywhere. More than a compendium of facts and figures the encyclopedia is a comprehensive overview of a growing field of research and analysis.

Chris and Chuck Love to Jump Nicole S. Ross,2020-05-04 Chris and Chuck love jumping. They jump rope. They jump high in the air. They jump in small puddles. But they never jump on things they can fall off of. They only jump where it's safe to. Follow their adventure and learn words starting with the letter J! The Chris And Chuck Love To Jump Workbook is more than just a story. You'll find dozens of activity pages featuring Chris and Chuck, combining letter and word tracing with picture matches, missing letter puzzles, coloring pages, and more. These exercises help your child develop spelling, vocabulary, and penmanship skills, and coupled with the story, they encourage your child to build a connection with Chris and Chuck in a way that will help them to love learning. Watch as your child becomes more deeply engaged in the story, remembering what they've learned and looking forward to the next story!

Les finances du gouvernement Québec (Province). Ministère des finances,1994 This report analyzes the 1994-9 Quebec deficit forecast of \$5.7 billion and lists actions taken to limit that deficit. It assesses the economic situation and outlook for the province in 1994, discussing the main indicators of the Quebec economy and the results of the latest revision of the economic outlook. The report then details the revision of the 1994-95 revenue and expenditure forecasts since the May 1994 budget speech, including the revisions pertaining to own-source revenue, federal transfers, and debt service. Finally, it presents the Quebec government's plans to resolve its financial problems in the areas of revenue collection, federal transfer payments, public services, and job creation.

The American Faculty Jack H. Schuster,Martin J. Finkelstein,2008-12-15 Higher education is becoming destabilized in the face of extraordinarily rapid change. The composition of the academy's most valuable asset—the faculty—and the essential nature of faculty work are being transformed. Jack H. Schuster and Martin J. Finkelstein describe the transformation of the American faculty in the most extensive and ambitious analysis of the American academic profession undertaken in a generation. A century ago the American research university emerged as a new organizational form animated by the professionalized, discipline-based scholar. The research university model persisted through two world wars and greatly varying economic conditions. In recent years, however, a new order has surfaced, organized around a globalized, knowledge-based economy, powerful privatization and market forces, and stunning new information technologies. These developments have transformed the higher education enterprise in ways barely imaginable in generations past. At the heart of that transformation, but largely invisible, has been a restructuring of academic appointments, academic work, and academic careers—a reconfiguring widely decried but heretofore inadequately described. This volume depicts the scope and depth of the transformation, combing empirical data drawn from three decades of national higher education surveys. The authors' portrait, at once startling and disturbing, provides the context for interpreting these developments as part of a larger structural evolution of the national higher education system. They outline the stakes for the nation and the challenging work to be done.

The Faculty Factor Martin J. Finkelstein,Valerie Martin Conley,Jack H. Schuster,2016-11-01 In an academy squeezed hard by formidable pressures, what is the future of the faculty? Over the past 70 years, the American university has become the global gold standard of excellence in research and graduate education. The unprecedented surge of federal research support of the postWorld War II American university paralleled the steady strengthening of the

American academic profession itself, which managed to attract the best and brightest educators from around the world while expanding the influence of the faculty factor throughout the academic realm. But in the past two decades, escalating costs and intensifying demands for efficiency have resulted in a wholesale reshaping of the academic workforce, one marked by skyrocketing numbers of contingent faculty members. Extending Jack H. Schuster and Martin J. Finkelstein's richly detailed classic *The American Faculty: The Restructuring of Academic Work and Careers*, this important book documents the transformation of the American faculty—historically the leading global source of Nobel laureates and innovation—into a diversified and internally stratified professional workforce. Drawing on heretofore unpublished data, the book provides the most comprehensive contemporary depiction of the changing nature of academic work and what it means to be a college or university faculty member in the second decade of the twenty-first century. The rare higher education study to incorporate multinational perspectives by comparing the status and prospects of American faculty to teachers in the major developing economies of Europe and East Asia, *The Faculty Factor* also explores the redistribution of academic work and the ever-more diverse pathways for entering into, maneuvering through, and exiting from academic careers. Using the tools of sociology, anthropology, and demography, the book charts the impact of waves of technological change, mass globalization, and the severe financial constraints of the last decade to show the impact on the lives and careers of those who teach in higher education. The authors propose strategic policy recommendations to extend the strengths of American higher education to retain leadership in the global economy. Written for professors, adjuncts, graduate students, and academic, political, business, and not-for-profit leaders, this data-rich study offers a balanced assessment of the risks and opportunities posed for the American faculty by economic, market-driven forces beyond their control.

Handbook of European Environmental Law THIEFFRY,2018-03-30

Prolific Domains Kleanthes K. Grohmann,2003-01-01 Standard conceptions of Locality aim to establish that a dependency between two positions may not span too long a distance. This book explores the opposite conception, Anti-Locality: Don't move too close. The model of clause structure, syntactic computation, and locality concerns Kleanthes Grohmann develops makes crucial use of derivational sub-domains, Prolific Domains, each encapsulating particular context information (thematic, agreement, discourse). The Anti-Locality Hypothesis is the attempt to exclude anti-local movement from the grammar by banning movement within a Prolific Domain, a Bare Output Condition. The flexible application of the operation Spell Out, coupled with an innovative view on grammatical formatives, leads to a natural caveat: Copy Spell Out. Grohmann explores a theory of Anti-Locality relevant to all three Prolific Domains in the clausal layer as well as the nominal layer, and offers a unified account of Standard and Anti-Locality regarding clause-internal movement and operations across clause boundaries, revisiting successive cyclicity.
