Bringing Down the House Ben Mezrich,2002-12-02 The #1 national bestseller, now a major motion picture, 21—the amazing inside story about a gambling ring of M.I.T. students who beat the system in Vegas—and lived to tell how. Robin Hood meets the Rat Pack when the best and the brightest of M.I.T.'s math students and engineers take up blackjack under the guidance of an eccentric mastermind. Their small blackjack club develops from an experiment in counting cards on M.I.T.'s campus into a ring of card savants with a system for playing large and winning big. In less than two years they take some of the world's most sophisticated casinos for more than three million dollars. But their success also brings with it the formidable ire of casino owners and launches them into the seedy underworld of corporate Vegas with its private investigators and other violent heavies.

**Games of Greed** Torsten Dennin, 2023-01-31 Examining the consequences of greed in today's society Fear and greed are among the strongest motivators. They influence all our decisions. Every day, we see the lives of the fabulous and famous in the press, on TV, and on social media, and we envy them for their luxurious lifestyle. We want it all too! Games of Greed reveals how some of these people let greed get the better of them. This book connects the dots between the Panama Papers, Bernie Madoff, famous rough traders, and con artists like Nick Leeson, Jérôme Kerviel, Billy McFarland, and Jordan Belfort, the real Wolf of Wall Street. It reveals the excesses of Main Street and Wall Street and Silicon Valley, and even looting Las Vegas—art heists, stock markets, bitcoins, and festival fraud. In this insightful book, Torsten Dennin demonstrates the pitfalls of greed through many examples of people who, like Icarus, flew too high and fell with catastrophic consequences. In the current day and age of increasing financial tensions and fewer planetary resources, his analysis of greed is both relevant and timely.

Addiction by Design Natasha Dow Schüll, 2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. Addiction by Design takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems--all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. Addiction by Design is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control and compulsion.
