Crash Proof Peter D. Schiff, John Downes, 2010-12-15 The economic tipping point for the United States is no longer theoretical. It is a reality today. The country has gone from the world's largest creditor to its greatest debtor; the value of the dollar is sinking; domestic manufacturing is winding down - and these trends don't seem to be slowing. Peter Schiff casts a sharp, clear-sighted eye on these factors and explains what the possible effects may be and how investors can protect themselves. For more than a decade, Schiff has not only observed the U.S. economy, but also helped his clients reposition their portfolios to reflect his outlook. What he sees is a nation facing an economic storm brought on by growing federal, personal, and corporate debt, too-little savings, a declining dollar, and lack of domestic manufacturing. *Crash-Proof* is an informed and informative warning of a looming period marked by sizeable tax hikes, loss of retirement benefits, double digit inflation, even - as happened recently in Argentina - the

possible collapse of the middle class. However, Schiff does have a survival plan that can provide the protection that readers will need in the coming years.

Flutterland Ian Stewart, 2010-10-08 First there was Edwin A. Abbott's remarkable Flatland, published in 1884, and one of the all-time classics of popular mathematics. Now, from mathematician and accomplished science writer Ian Stewart, comes what Nature calls a superb sequel. Through larger-than-life characters and an inspired story line, Flutterland explores our present understanding of the shape and origins of the universe, the nature of space, time, and matter, as well as modern geometries and their applications. The journey begins when our heroine, Victoria Line, comes upon her great-great-grandfather A. Square's diary, hidden in the attic. The writings help her to contact the Space Hopper, who tempts her away from her home and family in Flatland and becomes her guide and mentor through ten dimensions. In the tradition of Alice in Wonderland and The Phantom Toll Booth, this magnificent investigation into the nature of reality is destined to become a modern classic.

Day of the Dawg Hanford Dixon, Randy Nyerges, 2012 Popular and outspoken NFL cornerback Hanford Dixon offers an inside look at the turbulent, exciting, and frustrating Cleveland Browns seasons of the 1980s. A three-time Pro Bowler and co-inventor of the Dawg Pound, Dixon recalls both the roller-coaster on-field action and a culture of drug use that permeated the NFL and led to the tragic death of a teammate. He shares in detail what it was like to be a first-round NFL draft pick fighting for the starting job in training camp . . . What it took, mentally and physically, to play the toughest game at the highest level for a storied franchise . . . The adrenaline rush of whipping up a frenzied crowd of 80,000 rabid fans in Municipal Stadium . . . The thrill of being one game away from the Super Bowl—three times! . . . And the crushing disappointment of losing those big games. Dixon refers to himself as “a top-notch, speedy, loud-mouth, cocky, shutdown cornerback.” That gives an idea of his outsized personality as well as his willingness to say exactly what he means. He's not shy about delivering praise or criticism where he thinks it's due—to teammates, coaches, officials . . . or himself. This Dawg tells it the way it was.
