**The Housekeeper's Tale** Tessa Boase,2014-05-19 Working as a housekeeper was one of the most prestigious jobs a nineteenth and early twentieth century woman could want – and also one of the toughest. A far cry from the Downton Abbey fiction, the real life Mrs Hughes was up against capricious mistresses, low pay, no job security and gruelling physical labour. Until now, her story has never been told. The Housekeeper's Tale reveals the personal sacrifices, bitter disputes and driving ambition that shaped these women's careers. Delving into secret diaries, unpublished letters and the neglected service archives of our stately homes, Tessa Boase tells the extraordinary stories of five working women who ran some of Britain's most prominent households. There is Dorothy Doar, Regency housekeeper for the obscenely wealthy 1st Duke and Duchess of Sutherland at Trentham Hall, Staffordshire. There is Sarah Wells, a deaf and elderly Victorian in charge of Uppark, West Sussex. Ellen Penketh is Edwardian cook-housekeeper at the sociable but impecunious Erddig Hall in the Welsh borders. Hannah Mackenzie runs Wrest Park in Bedfordshire – Britain's first country-house war hospital, bankrolled by playwright J. M. Barrie. And there is Grace Higgins, cook-housekeeper to the Bloomsbury set at Charleston farmhouse in East Sussex for half a century – an era defined by the Second World War. Revelatory, gripping and unexpectedly poignant, The Housekeeper's Tale champions the invisible women who ran the English country house.

**Red Mitten Nationalism** Estée Fresco,2022-12-15 When Canada hosted the 1976 Montreal Olympics, few Canadian spectators waved flags in the stands. By 2010, in the run-up to the Vancouver Olympics, thousands of Canadians wore red mittens with white maple leaves on the palms. In doing so, they turned their hands into miniature flags that flew with even a casual wave. Red Mitten Nationalism investigates this shift in Canadians' displays of patriotism by exploring how common understandings of Canadian history and identity are shaped at the intersection of sport, commercialism, and nationalism. Through case studies of recent Canadian-hosted Olympic and Commonwealth Games, Estée Fresco argues that representations of Indigenous Peoples' cultures are central to the way everyday Canadians, corporations, and sport organizations remember the past and understand the present. Corporate sponsors and games organizers highlight selective ideas about the nation's identity, and unacknowledged truths about the history and persistence of Settler colonialism in Canada haunt the commercial and cultural features of these sporting events. Commodities that represent the nation – from disposable trinkets to carefully curated objects of nostalgia – are not uncomplicated symbols of national pride, but rather reminders that Canada is built on Indigenous land and Settlers profit from its natural resources. Red Mitten Nationalism challenges readers to re-evaluate how Canadians use sport and commercial practices to express their patriotism and to understand the impact of this expression on the current state of Indigenous-Settler relations.

*The Prank* Adam Black,2011-10 THE PRANK is a novel about the tendency for any news story involving a cute child or a reprehensible parent to become a media feeding frenzy, about the incredible communicative power of the internet, about the speed at which a fabricated happening can cross the threshold into accepted truth. But it is also about us as consumers of narrative: about how the digital revolution has changed the way we process information. My hope is that as you are reading you will find yourself scanning, skipping, dismissing, and cherry-picking: pay attention to these moments. This is your brain doing something remarkable, something profoundly post-modern, something perhaps not altogether benign. - from the author's foreword Frank Nevis knows that there's more than one way to get famous in America. When massive flooding strikes his town, only Frank has the presence of mind to weave a fabricated story into the actual drama unfolding around him. After all: what better way to attract interest and funding for his now-defunct reality show career? Fueled by the blogosphere, Facebook, Twitter, and the echo chamber of the 24-hour news cycle Frank's fabrication is soon the biggest story breaking, but how long can he maintain his hastily-constructed lie? And where is the line, in the American audience's thirst for reality entertainment, between the drama of Frank's unraveling plans and his and his family's fictional hardships? Written in a style intended to mimic the overwhelming cacophony that is news and culture in the 21st century, *The Prank* explores the question of reality in the digital age, where viral falsehoods and reported lies are par for the course. *In Near Ruins* Nicholas B. Dirks,1998 If culture is suspect, what of cultural theory? At a moment when culture's traditional caretakers -- humanism, philosophy, anthropology, and the nation-state -- are undergoing crisis and mutation, this volume charts the tensions and contradictions in the development and deployment of the concept of culture. A genuinely interdisciplinary venture, *In Near Ruins* brings together respected writers from the fields of history, anthropology, literary criticism, and communications. Together their essays present an intriguing picture of culture at the edges of humanism, of the politics of critical inquiry amid current social transformations, of the status and practice of historical knowledge in an age of theory. Skeptical of the concept of culture but fascinated with cultural forms, the authors take up diverse topics, from debates over sexuality in the contemporary United States to relations between empire, capitalism, and gender in nineteenth-century Britain; from poverty in U.S. inner cities to violence in war-torn Sri Lanka; from the operation of nostalgia on cultural practices in Japan to anthropological forms of state power in Indonesia and the writing of history in India. Linked by a common urge to think through the aesthetics and politics of particular social relations amid a variety of globalizing forces -- revolution, colonialism, nationalism, and the disciplinary institutions of the academy itself -- these writers contribute to the ongoing work of remapping the terrain of cultural analysis and reevaluating the stakes in such a daunting effort.
