Proceedings of the 2022 6th International Seminar on Education, Management and Social Sciences (ISEMSS 2022) Ghaffar Ali,Mehmet Cüneyt

Birkök,Intakhab Alam Khan,2023-09-16 This is an open access book. The aim of 2022 6th International Seminar on Education, Management and Social Sciences (ISEMSS 2022) is to bring together innovative academics and industrial experts in the field of Education, Management and Social Sciences to a common forum. The primary goal of the conference is to promote research and developmental activities in Education, Management and Social Sciences and another goal is to promote scientific information interchange between researchers, developers, students, and practitioners working all around the world. The conference will be held every year to make it an ideal platform for people to share views and experiences in Education, Management and Social Sciences and related areas.

Metrics That Make a Difference Robert Gilmore Pontius Jr,2022-03-24 Your government warns that 10% of your neighbors have a deadly contagious virus. The producer of a diagnostic test advertises that 90% of its tests are correct for any population. The test indicates that you have the virus. This book's author claims your test has a 50% chance of being false, given your test's result. Who do you believe? This book gives you insights necessary to interpret metrics that make a difference in life's decisions. This book gives methods and software that are essential to analyze change and error. Change describes a phenomenon across time points. Error compares diagnoses with the truth. Other texts give insufficient attention to these topics. This book's novel ideas dispel popular misconceptions and replace previous methods. The author uses carefully designed graphics and high school mathematics to communicate easily with college students and advanced scientists. Applications include but are not limited to Remote Sensing, Land Change Science, and Geographic Information Science. "A wide range of tools to aid understanding of land cover and its change has been used but scientific progress has sometimes been limited through misuse and misunderstanding. Professor Pontius seeks to rectify this situation by providing a book to accompany the researcher's toolbox. Metrics That Make a Difference addresses basic issues of relevance to a broad community in a mathematically friendly way and should greatly enhance the ability to elicit correct information. I wish this book existed while I was a grad student." – Giles Foody, Professor of Geographical Information Science, The University of Nottingham "Metrics That Make a Difference provides a comprehensive synthesis of over two decades of work during which Dr. Pontius researched, developed, and applied these metrics. The book meticulously and successfully guides the reader through the conceptual basis, computations, and proper interpretation of the many metrics derived for different types of variables. The book is not just a mathematical treatise but includes practical guidance to good data analysis and good science. Data scientists from many fields of endeavor will benefit substantially from Dr. Pontius' articulate review of traditionally used metrics and his presentation of the innovative and novel metrics he has developed. While reading this book, I had multiple 'aha' moments about metrics that I shouldn't be using and metrics that I should be using instead." – Stephen Stehman, Distinguished Teaching Professor, State University of New York

Reflective Writing Kate Williams,Mary Woolliams,Jane Spiro,2020-05-09 Packed with practical advice, this concise guide explains what reflective writing is and how to approach it. It equips students with all the key information and strategies they need to develop an appropriate reflective writing style, whatever their subject area. Annotated examples from a range of disciplines and contexts show students how to put these tips into practice. It concludes with a section on applying reflective practices to personal development and career planning. This handy guide is an indispensable resource for students of all disciplines and levels, who are required to develop and demonstrate reflective qualities in their work. It will be particularly useful to students writing reflective logs on

placements. New to this Edition: - Contains more content on the value and importance of reflection in other life contexts, so that students can appreciate its relevance from an early stage; - Features a short overview of academic writing genres, to help students make connections between reflective writing and other forms of academic writing with which they are already familiar - Covers alternative ways of capturing reflection, such as free-writing, blogs/vlogs and other technologies - Includes new examples which show how students have re-worked their initial drafts to produce a better, more appropriate response

The Non-designer's Design Book Robin Williams,2015 A lot has happened in the world of digital design since the first edition of this title was published, but one thing remains true: There is an ever-growing number of people attempting to design everything from newsletters to advertisements with no formal training. This book is the one place they can turn to find quick, non-intimidating, excellent design help from trusted design instructor Robin Williams. This revised and expanded classic includes a new chapter on designing with type, more quizzes and exercises, updated projects, and new visual and typographic examples that give the book a fresh, modern look. In *The Non-Designer's Design Book*, 4th Edition, Robin turns her attention to the basic principles that govern good design. Perfect for beginners, Robin boils great design into four easy-to-master principles: contrast, repetition, alignment, and proximity (C.R.A.P.!). Readers who follow her clearly explained concepts will produce more sophisticated and professional work immediately. Humor-infused, jargon-free prose interspersed with design exercises, quizzes, and illustrations make learning a snap—which is just what audiences have come to expect from this bestselling author.

TIP 35: Enhancing Motivation for Change in Substance Use Disorder Treatment (Updated 2019) U.S. Department of Health and Human Services,2019-11-19 Motivation is key to substance use behavior change. Counselors can support clients' movement toward positive changes in their substance use by identifying and enhancing motivation that already exists. Motivational approaches are based on the principles of person-centered counseling. Counselors' use of empathy, not authority and power, is key to enhancing clients' motivation to change. Clients are experts in their own recovery from SUDs. Counselors should engage them in collaborative partnerships. Ambivalence about change is normal. Resistance to change is an expression of ambivalence about change, not a client trait or characteristic. Confrontational approaches increase client resistance and discord in the counseling relationship. Motivational approaches explore ambivalence in a nonjudgmental and compassionate way.

The Social Work Field Placement John Poulin, PhD, MSW,Selina Matis, PhD, LCSW,Heather Witt, PhD, LMSW,2018-10-28 This unique core text helps

BSW and MSW students structure their field placement learning around the nine CSWE professional social work competencies. Empowering students to go beyond merely completing tasks, the book facilitates mastery and integration of these competencies by elucidating key concepts and applying them to realistic competency-based case scenarios. Each user-friendly chapter—directly linked to a particular competency—promotes thought-provoking reflection about field work with critical thinking questions, a detailed case example, and an online competency reflection log template. These tools reinforce learning by connecting competencies directly to students’ internship experiences. Cases are structured to serve as models when students prepare their own cases and include a review of the competency; detailed practice settings; socioeconomic and context factors at micro, macro, and mezzo levels; a problem overview; an assessment of client strengths and weaknesses; and a closing summary. Additional learning aids include chapter opening vignettes and objectives, plus chapter summaries. Web and video links offer students a wealth of supplemental resources, and a robust instructors package provides teachers with PowerPoints, written competency assignments with grading rubrics, and discussion exercises. The print version includes free, searchable, digital access to entire contents of the book. **Key Features:** Integrates field placement experiences with the nine CSWE 2015 competencies Promotes thought-provoking reflection about fieldwork with detailed case studies and challenging learning tools Includes discussions of ethical dilemmas, technology, and social media to reflect growing use and the challenges associated Includes online instructors’ resources including, PowerPoints, written competency assignments with grading rubrics, and class discussion field reflection activities Print version includes free, searchable, digital access to entire contents of the book

Speech and Audio Processing for Coding, Enhancement and Recognition Tokunbo Ogunfunmi, Roberto Togneri, Madihally (Sim) Narasimha, 2014-10-14 This book describes the basic principles underlying the generation, coding, transmission and enhancement of speech and audio signals, including advanced statistical and machine learning techniques for speech and speaker recognition with an overview of the key innovations in these areas. Key research undertaken in speech coding, speech enhancement, speech recognition, emotion recognition and speaker diarization are also presented, along with recent advances and new paradigms in these areas.

Founding Sales Peter R Kazanjy, 2020-08-04 This book is specifically targeted for founders who find themselves at the point where they need to transition into a selling role. Specifically founders who are leading organizations that have a B2B, direct sales model that involves sales professionals engaging in verbal, commercial conversations with buyers. Moreover, many examples in this book will be targeted specifically to the realm of B2B SAAS software, and specifically as regards new, potentially innovative or disruptive offerings that are being brought to market for the first time. In short, direct sales of the sort a B2B SAAS software startup would engage in. With that said, if you are looking to be a first time salesperson, transitioning in from another type of role, or fresh out of school, in an organization that meets those characteristics above, you will get value out of this book. Similarly, if you are a first time sales manager, either of the founder type, or a sales individual contributor who is transitioning into that role, again, in an organization who meets the criteria above, you will also get value from this book.

Metamorphosis insectorum Surinamensium 1705 Maria Sibylla Merian, 2016 This is a full-size facsimile of the magnum opus of Maria Sibylla Merian, a significant contributor to the field of entomology because of her careful observations and documentation of the metamorphosis of the butterfly. Merian, a

German naturalist and scientific illustrator, was one of the foremost female scientists of the 17th century. In 1705, she published *Metamorphosis Insectorum Surinamensium*, for which she became famous. No more than 30 copies of this masterwork are left worldwide.

Freemasonry: Spiritual Alchemy Christopher Earnshaw, 2019-08-09 In 1716 four Lodges of Operative Masons met at the Apple Tree Tavern in London and decided to create a Grand Lodge to reorganize Freemasonry, which was slowly dying out. After the establishment of the Premier Grand Lodge the next year, 1717, one of the Lodges, the Rummer and Grapes, took a decidedly new direction that resulted in the creation of what would later become known as Speculative Freemasonry, the basis of modern Freemasonry. However, as there is very little documentation from this period, many questions are left unanswered: *Why three educated and busy men decided to rewrite the ritual of a stonemasons' guild, when they were neither stonemasons nor manual workers. *Why the first three Grand Masters gave eight years of their lives to this cause. Not only that, but why they thought it necessary to add a third degree to the ritual. *Why the literati and aristocracy of Europe were motivated to join these three men, an antiquarian, a Huguenot priest and a possible alchemist, in a room above a tavern to study the new degrees. *Why there is a key to the rituals that Desaguliers referred to in the Constitutions of 1723. *Why the first three Grand Masters were interested in making good men better, when they were also not philanthropists. *Why the first three Grand Masters used steganography to hide secrets in the rituals, making them a puzzle for Freemasons to discover. *Lastly, and probably most importantly, why the English nobility (and later royalty) believed so strongly in what these three men had conceived that they lent their names to the enterprise by becoming its figurehead, Grand Masters. This book answers these questions, and more!

Communicate Science Papers, Presentations, and Posters Effectively Gregory S. Patience, Daria C. Boffito, Paul Patience, 2015-09-03 *Communicate Science Papers, Presentations, and Posters Effectively* is a guidebook on science writing and communication that professors, students, and professionals in the STEM fields can use in a practical way. This book advocates a clear and concise writing and presenting style, enabling users to concentrate on content. The text is useful to both native and non-native English speakers, identifying best practices for preparing graphs and tables, and offering practical guidance for writing equations. It includes content on significant figures and error bars, and provides the reader with extensive practice material consisting of both exercises and solutions. Covers how to accurately and clearly exhibit results, ideas, and conclusions Identifies phrases common in scientific literature that should never be used Discusses the theory of presentation, including “before and after examples highlighting best practices Provides concrete, step-by-step examples on how to make camera ready graphs and tables

Merriam-Webster's Vocabulary Builder Mary W. Cornog, 1998 The ideal book for people who want to increase their word power. Thorough coverage of 1,200 words and 240 roots while introducing 2,300 words. The Vocabulary Builder is organized by Greek and Latin roots for effective study with nearly 250 new words and roots. Includes quizzes after each root discussion to test progress. A great study aid for students preparing to take standardized tests.

The Castle of Otranto Illustrated Horace Walpole, 2021-04-09 The Castle of Otranto is a book by Horace Walpole first published in 1764 and generally regarded as the first gothic novel. In the second edition, Walpole applied the word 'Gothic' to the novel in the subtitle - A Gothic Story. The novel merged medievalism and terror in a style that has endured ever since. The aesthetics of the book shaped modern-day gothic books, films, art, music and the goth subculture
