Smashing Hitler's Guns Steven J. Zaloga, 2022-05-12 Written by one of the world's leading experts on D-Day, *Smashing Hitler's Guns* is a ground-breaking new history of the legendary Rangers' attack on Pointe-du-Hoc. The Ranger attack on the German gun batteries at Pointe-du-Hoc in the early morning hours of D-Day is the stuff of legend. The gun batteries were strategically positioned between the two American D-Day landing beaches, and were considered the main threat to the Operation Neptune landings. In spite of the confusion and chaos of the June 6, 1944 mission, the Rangers succeeded in scaling the 100-foot cliffs, but the guns were nowhere to be found. Spreading out in all directions, a Ranger team managed to find and spike the guns at their hidden location south of Pointe-du-Hoc. For two days, this small force fought off repeated German attacks, until an American relief force finally arrived on 8 June, by which time more than half the Rangers were casualties. The heroic Ranger mission at Pointe-du-Hoc has indeed become a sacred legend, and as a result there are many unexplored controversies. This new book on this famous raid takes a fresh and comprehensive look at the attack on Pointe-du-Hoc, examining the creation of the German gun battery, the initial Allied intelligence assessments of the threat, and the early plans to assault the site. The forgotten Allied bombing attacks on Pointe-du-Hoc are detailed, as well as the subsequent Allied intelligence investigations of the results. While most accounts of Pointe-du-Hoc are based on the published US Army history, the author has tracked down the long-forgotten original, unedited report in the archives that contains a number of curious changes from the better-known and widely accepted version. Little-known interviews of the Rangers who took part in the mission also shed fresh light and a significant number of German records provide the enemy perspective of the battle for control of the guns.

D-Day Cover Up at Pointe du Hoc Gary Sterne, 2019-03-30 A follow-up to the New York Times-bestselling *The Cover-Up at Omaha Beach*. "The second volume of the epic study breaks new ground." —Firetrench Gary Sterne, a keen collector of militaria and co-founder of *The Armourer* and *Skirmish* magazines, has always been fascinated by the D-Day landings. In particular he was intrigued by the lack of precise information relating to the mystery of the "missing guns" of Pointe du Hoc. His research led to the finding of a map which indicated the position of an "unknown" German gun position buried in the village of Maisy. The rediscovery of the Maisy Batteries made headline news around the world and his bestselling book *The Cover-Up at Omaha Beach* subsequently changed the history of the Omaha sector and made many start to question the Rangers' Pointe du Hoc mission. The Maisy site is now one of the major Normandy D-Day attractions. For the first time ever this follow-up book now offers complete Rangers history for the seven months prior to D-Day and does so using period documents, many of which have only recently been released from TOP SECRET status in U.S. Archives. The author fills in the gaps that many have only guessed at concerning the Rangers' real missions on D-Day, he explains why a battalion commander was removed hours before the landings, why the Rangers were not briefed on their actual D-Day missions and the extraordinary role that Lt. Col. Rudder played at Pointe du Hoc. This book is a historical game-changer that pulls no punches.

The Cover-Up at Omaha Beach Gary Sterne, 2014-05-06 A New York Times bestseller! The untold story of what really happened on D-Day. The Rangers' mission was clear. They were to lead the assault on Omaha Beach and break out inland. Simultaneously, other Ranger units would scale the cliffs at Pointe du Hoc to destroy the ostensibly huge gun battery there and thus protect the invasion

fleet from being targeted. But was the Pointe du Hoc mission actually necessary? Why did the Allies plan and execute an attack on a gun battery that they knew in advance contained no field guns? And more importantly, why did they ignore the position at Maisy that did? Using personal interviews with the surviving Rangers who fought on the beach and at Pointe du Hoc, *The Cover-Up at Omaha Beach* presents exceptionally detailed new research that takes the reader into the middle of the action with the Rangers. Gary Sterne has made a painstaking study of what the Allies actually knew in advance of D-Day, including what was known about Maisy Battery. Maps, orders, and assault plans have been found in American, British, and German archives, many of which have only recently been released after staying classified for more than sixty years. Radio communications of the Rangers as they advanced inland have been found, and Royal Air Force intelligence evaluations of bombing missions directed at the site have now been released. All of this combines to make *The Cover-Up at Omaha Beach* one of the most up-to-date references on the subject. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.
