Cycles John Maerz,2010-04-17 In nature a river is a symbol of life. It moves following the natural laws of gravity and motion following the path of least resistance. When we are relaxed and allow the current to carry us, we follow the same pattern of travel. However, humans are not known for being relaxed and passive. Some of us will even be stupid enough to swim against the current. Life is exactly the same. Despite the fact that we feel the currents, we still create difficulties and wear ourselves out by swimming against the current because we don't understand the dynamics of how energies flow in their natural cycle. Utilizing the combination of Moon phases, Saturn transits, Uranus transits, the I Ching & Pagan holidays, this book will help you recognize the natural patterns of flow in our lives so we may foresee shifts and have a clearer understanding of how to prepare for what comes next.
