**Mr Bright: his thoughts and my thoughts. By a Member of the Carlton** John Bright,1859

**The Glory of Hera** Philip Elliot Slater,2014-07-14 The ancient Athenians were quarrelsome as friends, treacherous as neighbors, brutal as masters, faithless as servants, shallow as lovers--all of which was in part redeemed by their intelligence and creativity. Thus writes Philip Slater in this classic work on narcissism and family relationships in fifth-century Athenian society. Exploring a rich corpus of Greek mythology and drama, he argues that the personalities and social behavior of the gods were neurotic, and that their neurotic conditions must have mirrored the family life of the people who perpetuated their myths. The author traces the issue of narcissism to mother-son relationships, focusing primarily on the literary representation of Hera and the male gods and showing how it related to devalued women raising boys in an ambitious society dominated by men. The role of homosexuality in society, fatherless families, working mothers, women's status, and violence, male pride, and male bonding--all these find their place in Slater's analysis, so honestly and carefully addressed that we see our own societal dilemmas reflected in archaic mythic narratives all the more clearly.--Richard P. Martin, Princeton University Originally published in 1992. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Circum-Baltic Languages Östen Dahl,Maria Koptjevskaja-Tamm,2001-12-31 The area around the Baltic Sea has for millennia been a meeting-place for people of different origins. Among the circum-Baltic languages, we find three major branches of Indo-European — Baltic, Germanic, and Slavic, the Baltic-Finnic languages from the Uralic phylum and several others. The circum-Baltic area is an ideal place to study areal and contact phenomena in languages. The present set of two volumes look at the circum-Baltic languages from a typological, areal and historical perspective, trying to relate the intricate patterns of similarities and dissimilarities to the societal background. In Volume I, surveys of dialect areas and language groups bear witness to the immense linguistic diversity in the area with special attention to less well-known languages and language varieties and their contacts.
