Fast Families, Virtual Children Ben Agger,Beth Anne Shelton,2016-01-20 The Internet, cell phones, and other technologies have changed the ways in which people conduct their family lives, raise children, and navigate the blurry boundary between work and home. Private life is colonized by employers, teachers, corporations; family time is taken up by work, homework, and shopping. What it means to be parents and children has changed dramatically. This book shows how the nurturance of family has increasingly become a willful, radical idea in an era of pervasive technology. The authors analyze important trends, including the acceleration and attenuation of childhood, and offer a children s bill of rights and accompanying parental responsibilities.

A Roadmap for Planning an in Person and Virtual Family Reunion During a Pandemic Ronald W. Holmes Ph.D.,2021-03-25 This book provides a roadmap for planning an in person and virtual family reunion. The book focuses on key points to start, structure, coordinate, implement, oversee, and evaluate the effectiveness of a family reunion on land, sea, and virtually. It uses colorful illustrations and real-life examples from families who have successfully planned family reunions for more than 50 years.

Elementary Online Learning Lana Peterson,Holly Skadsem,2022-08-12 Elementary Online Learning offers school- and district-level leaders and administrators a field-tested approach to developing formal and interdisciplinary online education, in-house and from scratch, for grades K-5. While it is possible today to purchase off-the-shelf online platforms from for-profit companies, many elementary schools have the option of creating their own programs, curricula, and instructional strategies that are deliberately tailored to the strengths and needs of their own communities. This book provides practical and

effective approaches to cohesive, data-driven program design, synchronous and asynchronous teaching, professional development, family partnerships, and much more. Each chapter is full of research-based ideas, recommendations, and prompts that will help schools yield online education that is interdisciplinary, socially just, and student-driven.

   A Jewish Family in Germany Today Y. Michal Bodemann,2004-11-12 Immediately after the Holocaust, it seemed inconceivable that a Jewish community would rebuild in Germany. What was once unimaginable has now come to pass: Germany is home to one of Europe's most vibrant Jewish communities, and it has the fastest growing Jewish immigrant population of any country in the world outside Israel. By sharing the life stories of members of one Jewish family—the Kalmans—Y. Michal Bodemann provides an intimate look at what it is like to live as a Jew in Germany today. Having survived concentration camps in Poland, four Kalman siblings—three brothers and a sister—were left stranded in Germany after the war. They built new lives and a major enterprise; they each married and had children. Over the past fifteen years Bodemann conducted extensive interviews with the Kalmans, mostly with the survivors' ten children, who were born between 1948 and 1964. In these oral histories, he shares their thoughts on Judaism, work, family, and community. Staying in Germany is not a given; four of the ten cousins live in Israel and the United States. Among the Kalman cousins are an art gallery owner, a body builder, a radio personality, a former chief financial officer of a prominent U.S. bank, and a sculptor. They discuss Zionism, anti-Semitism, what it means to root for the German soccer team, Schindler's List, money, success, marriage and intermarriage, and family history. They reveal their different levels of engagement with Judaism and involvement with local Jewish communities. Kalman is a pseudonym, and their anonymity allows the family members to talk with passion and candor about their relationships and their

lives as Jews.

Communication in Family Contexts Elizabeth Dorrance Hall,Kristina M. Scharp,2019-11-12 An innovative, student-friendly textbook covering the major elements of the field of Family Communication Family Communication, a rapidly growing sub-discipline within Communication Studies, explores the processes and factors involved in family interactions and relationships. Communication in Family Contexts is a clear and accessible survey of the essential principles, theories, and concepts of the field. Unlike textbooks that present a vast amount of material across only a few chapters—this innovative textbook features brief, easily-understood chapters ideally-suited for undergraduate courses on the subject. The text provides concise yet comprehensive coverage of a diverse range of topics, from fundamental aspects of caretaking and sibling communication, to topics not covered in other textbooks such as estrangement and marginalization. 33 chapters cover theories of family communication, family communication processes, and communicating in family relationships. The authors, noted researchers and educators in the field, complement discussions of standard topics with those of growing contemporary interest, such as LGBTQ family communication, step-family and half-sibling relationships, and the influence of technology on family. This textbook: Provides a well-rounded examination of the major elements of Family Communication studies Explains the foundational theories of the field, including Family Communication Patterns Theory and Relational Dialectics Theory Features numerous practical application exercises to enable students apply theory to practice Includes a complete set pedagogical features, such as case studies, visualizations and models of theories, illustrations, and discussion questions Offers a flexible organizational structure that allows instructors to pick and choose chapters to meet the needs of their courses Communication in Family Contexts: Theories and Processes is an

important resource for instructors and students in the field of family communication, the wider discipline of Communication Studies, and related areas such as social psychology and sociology.

Families with Futures Meg Wilkes Karraker,Janet R. Grochowski,2012-04-23 Noted for its interdisciplinary approach to family studies, Families with Futures provides an engaging, contemporary look at the discipline's theories, methods, essential topics, and career opportunities. Featuring strong coverage of theories and methods, readers explore family concepts and processes through a positive prism. Concepts are brought to life through striking examples from everyday family life and cutting-edge scholarship. Throughout, families are viewed as challenged but resilient. Each chapter opens with a preview of the chapter content and concludes with key terms and varied learning activities that promote critical thinking. The activities include provocative questions and exercises, projects, and interactive web activities. Boxes feature authentic voices from scholars and practitioners (including CFLEs) from a variety of disciplines including family studies, sociology, psychology, and more. These boxes provide a firsthand look at what it is like to work in the field. The book concludes with a glossary defining each chapter's boldfaced key terms. Updated throughout, the new edition features new coverage of: The latest family theories including feminist theory and postmodernism Immigrant and transnational families in the 21st century Physiology, psychology, and sociology of intimacy and sexuality Effects of recent health and other policy decisions on families Care giving in families, especially in later life Family finances, with an emphasis on the recent economic downturns Career opportunities in family studies. The new Instructor's Resource website features test questions, PowerPoint slides, chapter outlines, news bulletins of current events, hotlinks to helpful tools such as the NCFR's Ethical Principles and Guidelines, and more. This is an ideal text for upper-level

undergraduate and lower-level graduate courses in family studies, family ecology, and family science offered in departments of family and consumer sciences, human development, psychology, and sociology.

The Virtual Family Rolando Perez,2005

The Boomerang Age Barbara Mitchell,2011-12-31 * The Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine. Domestic changes are taking place in the lives of young adults in Western industrialized societies. Today's young people often experience less permanency and more movement in a variety of family-related roles, statuses, and living arrangements. Among the most prominent changes is the phenomenon of boomerang kids, young adults returning to the parental home after their initial entrance into the adult world. The Boomerang Age, explores the implications of this development in a changing sociocultural, economic, and demographic landscape. Mitchell begins by addressing definitional, conceptual, and measurement issues relevant to the boomerang age. She then places the issues in historical perspective by considering trends in family organization--the nuclear family, marriage and divorce rates and fertility--over the past hundred years with emphasis on the 1950s family as a cultural benchmark. The book then turns to the contemporary trajectory of home leaving and returning, analyzing the launch and return phases with regard to economic factors, regional differences, and racial and ethnic backgrounds. Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership (marriage, divorce, cohabitation, homosexuality) and parenthood among young couples. Moving outside the home, she looks at how public issues such as globalization, the decline of the welfare state, and various forms of social inequality affect the circumstances of young adulthood. Here Mitchell offers specific social policy recommendations pertaining to education, housing and dependency issues, childcare, and gender and racial equality. The

book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios: increased individualization in the pursuit of social goals, or a more or less permanent return to the traditional, extended family.

The Lost Family Libby Copeland,2020-03-03 "A fascinating exploration of the mysteries ignited by DNA genealogy testing—from the intensely personal and concrete to the existential and unsolvable." —Tana French, New York Times–bestselling author You swab your cheek or spit in a vial, then send it away to a lab somewhere. Weeks later you get a report that might tell you where your ancestors came from or if you carry certain genetic risks. Or, the report could reveal a long-buried family secret that upends your entire sense of identity. Soon a lark becomes an obsession, a relentless drive to find answers to questions at the core of your being, like "Who am I?" and "Where did I come from?" Welcome to the age of home genetic testing. In The Lost Family, journalist Libby Copeland investigates what happens when we embark on a vast social experiment with little understanding of the ramifications. She explores the culture of genealogy buffs, the science of DNA, and the business of companies like Ancestry and 23andMe, all while tracing the story of one woman, her unusual results, and a relentless methodical drive for answers that becomes a thoroughly modern genetic detective story. Gripping and masterfully told, The Lost Family is a spectacular book on a big, timely subject. "An urgently necessary, powerful book that addresses one of the most complex social and bioethical issues of our time." —Dani Shapiro, New York Times–bestselling author "Before you spit in that vial, read this book." —The New York Times Book Review "Impeccably researched . . . up-to-the-minute science meets the philosophy of identity in a poignant, engaging debut." —Kirkus Reviews (starred review)

Electromagnetic Fields in Biological Systems James C. Lin,2016-04-19 Spanning static fields to terahertz waves, this

volume explores the range of consequences electromagnetic fields have on the human body. Topics discussed include essential interactions and field coupling phenomena; electric field interactions in cells, focusing on ultrashort, pulsed high-intensity fields; dosimetry or coupling of ELF fields into biological systems; and the historical developments and recent trends in numerical dosimetry. It also discusses mobile communication devices and the dosimetry of RF radiation into the human body, exposure and dosimetry associated with MRI and spectroscopy, and available data on the interaction of terahertz radiation with biological tissues, cells, organelles, and molecules.

Families and Family Relations Athalya Brenner,Jan Willem van Henten,2021-12-28 STAR - Studies in Theology and Religion, 2 The fruits of discussion at an international gathering of biblical and other scholars interested in "families" in the ancient Near East are offered here. This is not a collection of "proceedings" in the usual sense; rather the essays mark a conscious joint effort to advance the discussion in the newly opened debate on "families" in the "biblical worlds". Topics discussed include the metaphor of marriage in Early Judaism, the brother-sister relationship in Ancient Israel, Hebrew family names, domesticity in Judaism, kinship in the Pauline churches, and women in John's Gospel. The contributors include, among others, A. van der Kooij, R. Hachlili, G. Mussies, M. Peskowitz, P. Esler, S. van Tilborg, and R. Bieringer.
