The Beatles' Shadow Pauline Sutcliffe,2016-02-25 Stuart Sutcliffe is the most famous contender for the crown of 'fifth Beatle'. One of the founding members, a close friend of Lennon, he left the band after their Hamburg

sojourn in order to pursue his promising career as an artist, dying shortly thereafter of a brain haemorrhage. For years his sister Pauline has tried to protect his memory against the Beatles' need to sanitise their early history and now she is ready to tell the real story. In so doing she sheds new light on their formative period – the rivalry with McCartney, how George Harrison tried to keep the peace, the truth about Stuart's intense relationship with Lennon and why Lennon was haunted by guilt over her brother's death. And she describes what it was like for those like herself and Cynthia Lennon who have had no choice but to live with the Beatles all their lives.

Awopbopalooobop Alopbamboom Nik Cohn, 2016-06-13 From the rise of Bill Haley to the death of Jimi Hendrix, this account of music in the 1950s and 1960s is “the definitive history of rock ‘n’ roll” (Rolling Stone). This is British music journalist Nik Cohn’s classic and cogent history of an unruly era—filled with outrageous tales and vivid descriptions of the music, and covering artists from Elvis Presley to Eddie Cochran to Bob Dylan to the Beatles and beyond. From the father of what would become a new literary form—rock criticism—this is a seminal history of rock and roll’s evolution, including revisions and updates made for a new edition in the early 1970s.

The Promise to the One Jason Hewlett, 2020-05-13 The greatest joy and fulfillment are within your reach, but they require an enduring Promise to The One...someone you might not expect. It’s not your boss, your spouse, your children, or others—no, the ultimate commitment is The Promise you make to yourself to discover your purpose and gifts and share them with the world. Everyone has been hurt or negatively impacted by broken promises. Promise-breaking and a lack of integrity are symptomatic of the most chronic illness faced by society today. Even though many leadership courses and ethics programs tout “integrity” as a buzzword, few of us are really assessing our own values unless someone calls us out on a discrepancy. But even when others don’t catch on to the façade, when our values aren’t in alignment with our actions and when our actions aren’t consonant with our gifts and passions, we’re left feeling isolated, drained, and depressed. No recognition or acceptance from others can fill the void in the same way as when you keep a Promise to yourself and actually follow through on it. The Promise is the highest level of engagement we commit to in any experience. The Promise is greater than a goal—it’s a sacred commitment. It’s complete dedication to identifying your Signature Moves—the unique talents you’ve been given that, when developed and used to better others’ lives, make you a Legendary Leader. What choices do you make when no one is watching? How do you approach a decision that requires you to let either yourself or someone else down? How do you

stay committed to your values, even when the less-rewarding path is more convenient? A renowned speaker and performer who has helped audiences worldwide appreciate what accountability really means, Jason Hewlett shares his program for self-discovery and taking ownership of your gifts in *The Promise to The One*. His unique three-step method—IDENTIFY • CLARIFY • MAGNIFY—will enable you to pinpoint your strengths, shape them into an identity to which you commit, and develop them so that they can improve others' lives as well as your own. Filled with Jason's signature wit and vulnerability as well as actionable exercises, this book will help you refine your character and reach your dreams through the power of kept Promises. Start your journey to living a life of Promise Making and Keeping...beginning with *The Promise to The One*.

Designing Reality Neil Gershenfeld, Alan Gershenfeld, Joel Cutcher-Gershenfeld, 2017-11-14 That's the promise, and peril, of the third digital revolution, where anyone will be able to make (almost) anything. Two digital revolutions -- computing and communication -- have radically transformed our economy and lives. A third digital revolution is here: fabrication. Today's 3D printers are only the start of a trend, accelerating exponentially, to turn data into objects: Neil Gershenfeld and his collaborators ultimately aim to create a universal replicator straight out of *Star Trek*. While digital fabrication promises us self-sufficient cities and the ability to make (almost) anything, it could also lead to massive inequality. The first two digital revolutions caught most of the world flat-footed, thanks to *Designing Reality* that won't be true this time.

Beautiful Wreck Larissa Brown, 2014 In a bleak future built on virtual reality, Ginn is a romantic who yearns for something real. She designs environments for people who play at being Vikings. But when her project goes awry, she's stranded in the actual 10th century, on a storybook farm in Viking Iceland. Heirik is the young leader of his family, honored by the men and women who live on his land. But he is feared and isolated because of a terrible curse. Ginn and Heirik are two people who never thought they would find a home in someone else's heart. When forces rise against them to keep them apart, Ginn is called on to decide-- will she give up the brutal and beautiful reality of the past? Or will she have the courage to traverse time and become more of a Viking than she ever imagined?

Dr. Martens Martin Roach, 2003 On 1 April 1960, the first Dr. Martens boot rolled off the production line at the Griggs family farm of shoemakers in Northamptonshire, England. Today, Dr. Martens is a brand famous the world over, as iconic as Ray Bans and Levis. From the launch of the classic cherry-red eight-holer on that day in 1960, to the more recent multihued twenty-holers, Docs have been in the vanguard of style and culture for over four decades—subversive, strident, authority-baiting. Now, for the first time, the boots and their times take center stage in a book. Decade by decade, in words and pictures, *Dr. Martens: The Story of an Icon* recounts the fascinating story of the music, the people, and the places that breathed life into the boot on its journey from work-wear to in-wear.

Fake Baby Amy McDaid, 2020-06-02 Fake Baby is a tender and funny exploration of the power of words, our perception of resilience and what it means to be real. Nine Days. One City. Three Oddballs. Stephen's dead father is threatening to destroy the world. If Stephen commits the ultimate sacrifice and throws himself into the harbour, he will save humanity. The last thing he needs is a Jehovah's Witness masquerading as a schoolboy and an admission to a mental health facility. * Jaanvi steals a life-like doll called James and cares for him as if he were her dead baby. Her husband demands she return him. But she and James have already bonded, and it's nobody's business how she decides to grieve. * Lucas, pharmacist and all-round nice guy, is having one of the worst weeks

of his life. His employees forgot his birthday, his mother's gone manic, and now his favourite customer is in hospital because of a medication error he made. Can he make things right? Or is life all downhill after forty? 'A darkly funny satire that's both moving and wise.' - Paula Morris

Democratizing Innovation Eric Von Hippel, 2006-02-17 The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In *Democratizing Innovation*, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among lead users, who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.

But Tyrell has lived at Huey House for three years, and he knows all the good things about it: friendship, hot meals, and the music from next door drifting through the windows. With his help, June begins to see things differently. Just as she's starting to understand how Huey House can be a home, a new government policy threatens all the residents. Can June and Tyrell work together to find a way to save Huey House as they know it?
