Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth, 2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in "an age of ecocide" Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on "sustainability" rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth's thinking. In them he articulates a new vision that he calls "dark ecology," which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed "Uncivilization" manifesto, asks hard questions about how we've lived and how we should live.

The Things They Carried Tim O'Brien, 2009-10-13 Look for O'Brien's new book, *American Fantastica*, on sale October 24th A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

In Defense of Housing Peter Marcuse, David Madden, 2016-08-16 In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentrification. And the benefits of decent housing are only available for those who can afford it. *In Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

The Triumph of Christianity Rodney Stark, 2011-10-25 Celebrated religious and social historian Rodney Stark traces the extraordinary rise of Christianity through its most pivotal and controversial moments to offer fresh perspective on the history of the world's largest religion. In *The Triumph of Christianity*, the author of *God's Battalions* and *The Rise of Christianity* gathers and refines decades of powerful research and discovery into one concentrated, concise, and highly readable volume that explores Christianity's most crucial episodes. The unique format of *Triumph of Christianity* allows Stark to avoid dense chronologies and difficult back stories, bringing readers right to the heart of Christian history's most vital controversies and enduring lessons.

Brand New Justice Simon Anholt, 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. *Brand New Justice*, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

Ancient Texts for New Testament Studies Craig A. Evans, 2012-01-01 One of the daunting challenges facing the New Testament interpreter is achieving familiarity with the immense corpus of related literatures. Scholars and students alike must have a fundamental understanding of the content, provenance, and utility for New Testament interpretation of a wide range of pagan, Jewish, and diversely Christian documents. *Ancient Texts for the Study of the New Testament* provides descriptions of all ancient literature that is relevant for serious study of the New Testament writings. Readers can quickly survey the literature clustered under various headings (such as the Apocrypha, Dead Sea Scrolls, or early Rabbinic literature), easily access brief definitions and descriptions, and then consider examples of how the literature sheds light on the background and interpretation of specific

passages in the New Testament. There are several helpful appendices, including one that lists, beginning with Matthew and ending with Revelation, potentially significant parallels between New Testament passages and the ancient writings treated in the book. This thoroughly revised and significantly expanded edition of *Noncanonical Writings and New Testament Interpretation* examines a vast range of ancient literature, masterfully distilling details of date, language, text, and translation into an eminently usable handbook. Craig Evans evaluates the materials' relevance for interpreting the New Testament and provides essential biographies. Although the book is written at an introductory level, its comprehensive scope makes it useful even for the seasoned scholar.

Do You Believe? Ann Lawrence, 2005-05-01 *DO YOU BELIEVE IN EVIL?* Rose Early is searching for her missing sister Joan. The only clue she has is a horror novel with her sister's notes in the margins. The author of the book lives only a few minutes away and Rose can't resist seeking him out. She understands why his book affected her sister: the author creates an evil so palpable it shakes even skeptical Rose. Vic Drummond, the writer, knew Rose's sister, and agrees to help Rose find her; Rose expected him to be reclusive and strange, but she didn't expect him to be quite so . . . attractive. As their search intensifies, Rose finds herself inexorably drawn to Vic, but it seems to Rose that their feelings for each other are being influenced by some outside force-she knows love at first sight doesn't exist. As they come closer to finding Joan, Rose and Vic journey from the local church to a mysterious sex club whose members dress in demon costumes. The more they learn about what Joan was doing in the days before her disappearance, the more questions they have, until Rose must decide: Does she believe in real evil? And does she believe in real love?

The Globalization Paradox Dani Rodrik, 2011-03-24 For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.

The Thirty-Year Genocide Benny Morris, Dror Ze'evi, 2019-04-24 From 1894 to 1924 three waves of violence swept across Anatolia, targeting the region's Christian minorities. Benny Morris and Dror Ze'evi's impeccably researched account is the first to show that the three were actually part of a single, continuing, and intentional effort to wipe out Anatolia's Christian population and create a pure Muslim nation.

Identity Francis Fukuyama, 2018-09-11 The New York Times bestselling author

of *The Origins of Political Order* offers a provocative examination of modern identity politics: its origins, its effects, and what it means for domestic and international affairs of state. In 2014, Francis Fukuyama wrote that American institutions were in decay, as the state was progressively captured by powerful interest groups. Two years later, his predictions were borne out by the rise to power of a series of political outsiders whose economic nationalism and authoritarian tendencies threatened to destabilize the entire international order. These populist nationalists seek direct charismatic connection to "the people," who are usually defined in narrow identity terms that offer an irresistible call to an in-group and exclude large parts of the population as a whole. Demand for recognition of one's identity is a master concept that unifies much of what is going on in world politics today. The universal recognition on which liberal democracy is based has been increasingly challenged by narrower forms of recognition based on nation, religion, sect, race, ethnicity, or gender, which have resulted in anti-immigrant populism, the upsurge of politicized Islam, the fractious "identity liberalism" of college campuses, and the emergence of white nationalism. Populist nationalism, said to be rooted in economic motivation, actually springs from the demand for recognition and therefore cannot simply be satisfied by economic means. The demand for identity cannot be transcended; we must begin to shape identity in a way that supports rather than undermines democracy. *Identity* is an urgent and necessary book—a sharp warning that unless we forge a universal understanding of human dignity, we will doom ourselves to continuing conflict.

The Last Christian David Gregory, 2010-05-04 In the future, it's possible to live forever—but at what cost? A.D. 2088. Christian missionary Abigail Caldwell emerges from the jungle for the first time in her thirty-four years, the sole survivor of a mysterious disease that killed her village. A curious message from her grandfather leads Abby to America, only to discover a nation where Christianity has completely died out. But a larger threat looms. The world's leading artificial intelligence industrialist has perfected a technique for downloading the human brain into a silicon form. Brain transplants have begun, and with them comes the potential of eliminating physical death altogether. As Abby navigates a society grown more addicted to stimulating the body than nurturing the soul, she and Creighton Daniels, a historian troubled by his father's unexpected death, become unwitting targets of powerful men who will stop at nothing to further their nefarious goals. Hanging in the balance—the spiritual future of all humanity. In this fast-paced thriller, startling near-future science collides with thought-provoking religious themes to create a spell-binding what-if? novel.

Guns, Germs, and Steel: The Fates of Human Societies Jared Diamond, 1999-04-17 Fascinating.... Lays a foundation for understanding human history.—Bill Gates In this artful, informative, and delightful (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and

decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

The Sergeants Major of the Army, 2010

The New Christian Zionism Gerald R. McDermott, 2016-09-10 Can a theological case be made from Scripture that Israel still has a claim to the Promised Land? Christian Zionism is often seen as the offspring of premillennial dispensationalism. But the historical roots of Christian Zionism came long before the rise of the Plymouth Brethren and John Nelson Darby. In fact, the authors of *The New Christian Zionism* contend that the biblical and theological connections between covenant and land are nearly as close in the New Testament as in the Old. Written with academic rigor by experts in the field, this book proposes that Zionism can be defended historically, theologically, politically and morally. While this does not sanctify every policy and practice of the current Israeli government, the authors include recommendations for how twenty-first-century Christian theology should rethink its understanding of both ancient and contemporary Israel, the Bible and Christian theology more broadly. This provocative volume proposes a place for Christian Zionism in an integrated biblical vision.
