Eric S. Knowles, Jay A. Linn

The Little Engine that Could ,1973

California Preschool Learning Foundations: Visual and performing arts. Physical development. Health Faye Ong,2008

Forbidden Fate Mary Catherine Gebhard,2020-05-28 I only had one rule: don't fall in love with the cruel prince. I broke it. When the clock struck twelve, I went back to being a servant. He promised to let me go with my heart in pieces...but Grayson Crowne always was king at breaking promises. I refuse to let him lock me in a tower. I have no choice but to take the only out offered me—another cruel prince. Refuge in a man I loathe. Rescued from the man I love. I wanted to forget Grayson, forget Crowne Hall, and hide, however fate has other plans. But if Grayson and I are fated, then our fate is forbidden. Our happily ever after will only end one way...in heartbreak. *Forbidden Fate* is the third book in the Crowne Point universe. You need to have read *Stolen Soulmate* to read *Forbidden Fate*.

The Ways Children Learn Music Eric Bluestine,2000 How do children learn music? And how can music teachers help children to become independent and self-sufficient musical thinkers? Author Eric Bluestine sheds light on these issues in music education.

Cumulated Index Medicus ,1977

The Official Rules of Softball Amateur Softball Association of America,1998 The essential resource for players and fans of the game. Included are the sport's official playing rules, pitching regulations, referee signals, and field diagrams for fast and slow pitch, both 12 inch and 16 inch.

Precious Bane Mary Webb,1928

Legal Division Reference Book Federal Law Enforcement Training Center. Legal Division,2010

Field Manual for the Investigation of Fish Kills Fred P. Meyer, Lee A. Barclay,1990 Fish kills are graphic evidence of serious problems in a lake or stream. If the kill is related to the presence of toxic chemicals, there may be human health concerns, in addition to the obvious damage to the ecosystem and the fisheries resources. Depending on the cause of a fish kill, legal and economic ramifications may be involved. If the kill is caused by human or corporate actions, litigation is likely to follow, with possible court-awarded damages and assessed costs for cleanup and restoration. This manual is intended to help fisheries biologists and others to prepare for a fish kill investigation.

Library Journal ,1998

Learning and Behavior Problems in Asperger Syndrome Margot Prior,2004-08-05 This volume provides research-based, practical information on managing the challenges that Asperger syndrome (AS) presents in everyday life and in the classroom. Current knowledge is reviewed on the core learning, behavioral, emotional, social, and communication difficulties associated with this complex disorder. Hurdles facing children with AS and their parents and teachers are clearly identified, and effective assessment and intervention approaches described. Special features include firsthand accounts from an adult with AS and a teacher with extensive experience in the area, as well as numerous illustrative vignettes and classroom examples. While written primarily for professionals, the volume will also be of interest to many parents.

Resources in education ,1991

Environment and Livelihoods in Tropical Coastal Zones International Rice Research Institute, International Water Management Institute,2006-01-01 This book focuses on the challenges people face in managing agricultural crops, aquaculture, fisheries and related ecosystems in inland areas of coastal zones in the tropics of Asia, Africa, Australia and South America. These challenges can create conflicts in the use of natural resources between different stakeholders. Through many case studies, the book discusses the nature of the conflicts and identifies what is known and not known about how to manage them. For example, some case studies relate to the trade-offs between enhancing agricultural production by constructing embankments to keep out saline water and maintaining not only the variety of rural livelihoods but also brackish aquatic biodiversity. Other case studies provide the lessons learnt from the conversion of mangrove forests to shrimp farms.

The Iceman P. T. Deutermann,2018-08-21 1942, off the port city of St. Nazaire in occupied France.

A United States Navy S-class submarine assigned to the Royal Navy lurks just outside the borders of the minefield protecting a German U-boat base. Lieutenant Commander Malachi Stormes patrols close to the minefield entrance and manages to trap and sink three outbound U-boats in one spectacular attack. The U.S. Navy promotes him and gives him command of a new class of submarine, a fleet boat called Firefish. Based in Perth, Australia, the Perth boats are the only American forces capable of hitting the Japanese in the western Pacific. Stormes-- nicknamed The Iceman-- makes it clear that he is willing to take huge chances to achieve results. -- adapted from publisher info.

National Union Catalog ,1982 Includes entries for maps and atlases.

College Prep Genius Workbook Jean Burk,2006-01-01

Zen Poems Peter Harris,1999-03-23 The appreciation of Zen philosophy and art has become universal, and Zen poetry, with its simple expression of direct, intuitive insight and sudden enlightenment, appeals to lovers of poetry, spirituality, and beauty everywhere. This collection of translations of the classical Zen poets of China, Japan, and Korea includes the work of Zen practitioners and monks as well as scholars, artists, travelers, and recluses, ranging from Wang Wei, Hanshan, and Yang Wanli, to Shinkei, Basho, and Ryokan.

Indianapolis Monthly ,2001-12 Indianapolis Monthly is the Circle City's essential chronicle and guide, an indispensable authority on what's new and what's news. Through coverage of politics, crime, dining, style, business, sports, and arts and entertainment, each issue offers compelling narrative stories and lively, urbane coverage of Indy's cultural landscape.

Play and Exploration in Children and Animals Thomas G. Power,1999-11-01 Play is a paradox. Why would the young of so many species--the very animals at greatest risk for injury and predation--devote so much time and energy to an activity that by definition has no immediate purpose? This question has long puzzled students of animal behavior, and has been the focus of considerable empirical investigation and debate. In this first comprehensive and state-of-the-art review of what we have learned from decades of research on exploration and play in children and animals, Power examines the paradox from all angles. Covering solitary activity as well as play with peers, siblings, and parents, he considers the nature, development, and functions of play, as well as the gender differences in early play patterns. A major purpose is to explore the relevance of the animal literature for understanding human behavior. The nature and amount of children's play varies significantly across cultures, so the author makes cross-cultural comparisons wherever possible. The scope is broad and the range multidisciplinary. He draws on studies by developmental researchers in psychology and other fields, ethologists, anthropologists, sociologists, sociolinguists, early childhood educators, and pediatricians. And he places research on play in the context of research on such related phenomena as prosocial behavior and aggression. Finally, Power points out directions for further inquiry and implications for those who work with young children and their parents. Researchers and students will find *Play and Exploration in Children and Animals* an invaluable summary of controversies, methods, and findings; practitioners and educators will find it an invaluable compendium of information relevant to their efforts to enrich play experiences.

Resistance and Persuasion Eric S. Knowles,Jay A. Linn,2004-02-26 Resistance and Persuasion is the first book to analyze the nature of resistance and demonstrate how it can be reduced, overcome, or used to promote persuasion. By examining resistance, and providing strategies for overcoming it, this new book generates insight into new facets of influence and persuasion. With contributions from the leaders in the field, this book presents original ideas and research that demonstrate how understanding resistance can improve persuasion, compliance, and social influence. Many of the authors present their research for the first time. Four faces of resistance are identified: reactance, distrust, scrutiny, and inertia. The concluding chapter summarizes the book's theoretical contributions and establishes a resistance-based research agenda for persuasion and attitude change. This new book helps to establish resistance as a legitimate sub-field of persuasion that is equal in force to influence. Resistance and Persuasion offers many new revelations about persuasion:
*Acknowledging resistance helps to reduce it. *Raising reactance makes a strong message more persuasive. *Putting arguments into a narrative increases their influence. *Identifying illegitimate

sources of information strengthens the influence of legitimate sources. *Looking ahead reduces resistance to persuasive attempts. This volume will appeal to researchers and students from a variety of disciplines including social, cognitive, and health psychology, communication, marketing, political science, journalism, and education.
