StrengthsQuest Donald O. Clifton, Edward "Chip" Anderson, 2016-01-01 Students who use their natural talents achieve the most --- but they need to know what those talents are. StrengthsQuest includes the Clifton StrengthsFinder, an online assessment that reveals students' top five themes of talent. And StrengthsQuest also helps students make the most of those talents. Students and learners of all ages continually face the challenges of gaining direction, making decisions, and building self-confidence. Fortunately, the keys to successfully meeting these challenges — your own natural talents — already exist within you. Through these talents, you will produce your greatest achievements. Over the course of 30 years, Gallup conducted millions of psychological interviews and identified 34 themes of talent that are indicative of success. In the StrengthsQuest program, Gallup offers you the opportunity to discover talents from your top five themes and build on them to achieve academic, career, and personal excellence. More than 100,000 students have benefited from the program. Your quest starts with the Clifton StrengthsFinder, a 30-minute assessment that reveals your top five themes of talent. This online assessment is your entryway to a variety of experiences that will help you discover your greatest talents and develop strengths. You'll gain access to action items specific to your top themes, covering general academic life, study habits, relationships, and career. You'll also be challenged to think about applying your talents for success in other settings, such as on projects and teams and in leadership. StrengthsQuest was written by the late Donald O. Clifton, who was the former chairman of Gallup; coauthor of the bestseller *Now, Discover Your Strengths*; and recognized as the Father of Strengths-Based Psychology and the late Edward "Chip" Anderson, who taught education, psychology, and leadership at UCLA and Azusa Pacific University. Revised portions of the text were written by Laurie A. Schreiner, who has taught

psychology and higher education at Azusa Pacific University and Eastern University. Hactivism and Cyberwars Tim Jordan, Paul Taylor, 2004-03-01 As global society becomes more and more dependent, politically and economically, on the flow of information, the power of those who can disrupt and manipulate that flow also increases. In *Hactivism and Cyberwars* Tim Jordan and Paul Taylor provide a detailed history of hactivism's evolution from early hacking culture to its present day status as the radical face of online politics. They describe the ways in which hactivism has re-appropriated hacking techniques to create an innovative new form of political protest. A full explanation is given of the different strands of hactivism and the 'cyberwars' it has created, ranging from such avant garde groups as the Electronic Disturbance Theatre to more virtually focused groups labelled 'The Digitally Correct'. The full social and historical context of hactivism is portrayed to take into account its position in terms of new social movements, direct action and its

contribution to the globalization debate. This book provides an important corrective flip-side to mainstream accounts of E-commerce and broadens the conceptualization of the internet to take into full account the other side of the digital divide.

Historical Brewing Techniques Lars Marius Garshol, 2020-04-30 Ancient brewing traditions and techniques have been passed generation to generation on farms throughout remote areas of northern Europe. With these traditions facing near extinction, author Lars Marius Garshol set out to explore and document the lost art of brewing using traditional local methods. Equal parts history, cultural anthropology, social science, and travelogue, this book describes brewing and fermentation techniques that are vastly different from modern craft brewing and preserves them for posterity and exploration. Learn about uncovering an unusual strain of yeast, called kveik, which can ferment a batch to completion in just 36 hours. Discover how to make keitinis by baking the mash in the oven. Explore using juniper boughs for various stages of the brewing process. Test your own hand by brewing recipes gleaned from years of travel and research in the farmlands of northern Europe. Meet the brewers and delve into the ingredients that have kept these traditional methods alive. Discover the regional and stylistic differences between farmhouse brewers today and throughout history.

StrengthsQuest Donald O. Clifton, Edward Anderson (Ph. D.), 2001 StrengthsQuest: Discover and Develop Your Strengths in Academics, Career, and Beyond is a primary component in The Gallup Organization's StrengthsQuest program. The book and the program help students understand their unique, natural talents and develop those talents into strengths that can be productively applied for success in academics and other areas. The book is shrink-wrapped and contains a unique ID code that allows the buyer to take one StrengthFinder assessment and have access to other

program's online components, such as a Learning Center and an Online Strengths Community.

You're Not Listening Kate Murphy, 2020-01-07 When was the last time you listened to someone, or someone really listened to you? If you're like most people, you don't listen as often or as well as you'd like. There's no one better qualified than a talented journalist to introduce you to the right mindset and skillset—and this book does it with science and humor. -Adam Grant, #1 New York Times bestselling author of *Originals* and *Give and Take* **Hand picked by Malcolm Gladwell, Adam Grant, Susan Cain, and Daniel Pink for Next Big Ideas Club** An essential book for our times. -Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone* At work, we're taught to lead the conversation. On social media, we shape our personal narratives. At parties, we talk over one another. So do our politicians. We're not listening. And no one is listening to us. Despite living in a world where technology allows constant digital communication and opportunities to connect, it seems no one is really listening or even knows how. And it's making us lonelier, more isolated, and less tolerant than ever before. A listener by trade, New York Times contributor Kate Murphy wanted to know how we got here. In this always illuminating and often humorous deep dive, Murphy explains why we're not listening, what it's doing to us, and how we can reverse the trend. She makes accessible the psychology, neuroscience, and sociology of listening while also introducing us to some of the best listeners out there (including a CIA agent, focus group moderator, bartender, radio producer, and top furniture salesman). Equal parts cultural observation, scientific exploration, and rousing call to action that's full of practical advice, *You're Not Listening* is to listening what Susan Cain's *Quiet* was to introversion. It's time to stop talking and start listening.

Destination Branding Nigel Morgan, Annette Pritchard, Roger Pride, 2007-06-07 In today's highly competitive market, many destinations - from individual resorts to countries - are adopting branding techniques similar to those used by 'Coca Cola', 'Nike' and 'Sony' in an effort to differentiate their identities and to emphasize the uniqueness of their product. By focusing on a range of global case studies, Destination Branding demonstrates that the adoption of a highly targeted, consumer research-based, multi-agency 'mood branding' initiative leads to success every time.

The Business Romantic Tim Leberecht, 2015-01-06 In this smart, playful, and provocative book, one of today's most original business thinkers argues that we underestimate the importance of romance in our lives and that we can find it in and through business—by designing products,

services, and experiences that connect us with something greater than ourselves. Against the backdrop of eroding trust in capitalism, pervasive technology, big data, and the desire to quantify all of our behaviors, *The Business Romantic* makes a compelling case that we must meld the pursuit of success and achievement with romance if we want to create an economy that serves our entire selves. A rising star in data analytics who is in love with the intrinsic beauty of spreadsheets; the mastermind behind a brand built on absence; an Argentinian couple who revolutionize shoelaces; the founder of a foodie-oriented start-up that creates intimate conversation spaces; a performance artist who offers fake corporate seminars for real professionals—these are some of the innovators readers will meet in this witty, deeply personal, and rousing ramble through the world of Business Romanticism. *The Business Romantic* not only provides surprising insights into the emotional and social aspects of business but also presents “Rules of Enchantment” that will help both individuals and organizations construct more meaningful experiences for themselves and others. *The Business Romantic* offers a radically different view of the good life and outlines how to better meet one’s own desires as well as those of customers, employees, and society. It encourages readers to expect more from companies, to give more of themselves, and to fall back in love with their work and their lives.

Global Nomads Anthony D'Andrea, 2007-01-24 *Global Nomads* provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of

expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

A History of Experimental Film and Video A.L. Rees, 2019-07-25 Avant-garde film is almost indefinable. It is in a constant state of change and redefinition. In his highly-acclaimed history of experimental film, A.L. Rees tracks the movement of the film avant-garde between the cinema and modern art (with its postmodern coda). But he also reconstitutes the film avant-garde as an independent form of art practice with its own internal logic and aesthetic discourse. In this revised and updated edition, Rees introduces experimental film and video to new readers interested in the wider cinema, as well as offering a guide to enthusiasts of avant-garde film and new media arts. Ranging from Cézanne and Dada, via Cocteau, Brakhage and Le Grice, to the new wave of British film and video artists from the 1990s to the present day, this expansive study situates avant-garde film between the cinema and the gallery, with many links to sonic as well as visual arts. The new edition includes a review of current scholarship in avant-garde film history and includes updated reading and viewing lists. It also features a new introduction and concluding chapter, which assess the rise of video projection in the gallery since the millennium, and describe new work by the latest generation of experimental film-makers. The new edition is richly illustrated with images of the art works discussed.

Culture Jam Kalle Lasn,2000-11-07 America is no longer a country but a multimillion-dollar brand, says Kalle Lasn and his fellow culture jammers. The founder of Adbusters magazine, Lasn aims to stop the branding of America by changing the way information flows; the way institutions wield power; the way television stations are run; and the way the food, fashion, automobile, sports, music, and culture industries set agendas. With a courageous and compelling voice, Lasn deconstructs the advertising culture and our fixation on icons and brand names. And he shows how to organize resistance against the power trust that manages the brands by uncooling consumer items, by dermarketing fashions and celebrities, and by breaking the media trance of our TV-addicted age. A powerful manifesto by a leading media activist, Culture Jam lays the foundations for the most significant social movement of the early twenty-first century -- a movement that can change the world and the way we think and live.
