📖 **The Body Builders** Adam Piore,2017-03-14 Fareed Zakaria GPS Book of the Week Weaving together vivid storytelling and groundbreaking science, The Body Builders explores the current revolution in human augmentation, which is helping us to triumph over the limitations and constraints we have long accepted as an inevitable part of being human For millennia, humans have tried—and often failed—to master nature and transcend our limits. But this has started to change. The new scientific frontier is the human body: the greatest engineers of our generation have turned their sights inward, and their work is beginning to revolutionize mankind. In The Body Builders, Adam Piore takes us on a fascinating journey into the field of bioengineering—which can be used to reverse engineer, rebuild, and augment human beings—and paints a vivid portrait of the people at its center. Chronicling the ways new technology has retooled our physical expectations and mental processes, Piore visits people who have regrown parts of their fingers and legs in the wake of terrible traumas, tries on a muscle suit that allows him to lift ninety pounds with his fingertips, dips into the race to create “Viagra for the brain,” and shadows the doctors trying to give mute patients the ability to communicate telepathically. As science continues to lay bare the mysteries of human performance, it is helping us to see—and exist—above our expectations. The Body Builders will take readers beyond the headlines and the hype to introduce them to the inner workings and the outer reaches of our bodies and minds, and explore how new developments are changing, and will forever change, what is possible for humankind.

📖 **The Sense of an Ending** Julian Barnes,2011-10-05 Booker Prize Winner • National Bestseller • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, The Sense of an Ending has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes’s oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.
