The point is, it's a level of understanding that students of any age can achieve with the right kind of instruction. In Rigorous Reading, Nancy and Doug articulate an instructional plan so clearly, and so squarely built on research, that teachers, schools, and districts need look no further. The 5 Access Points Toward Proficiency Purpose & Modeling: Teachers think aloud to demonstrate critical thinking and how good readers always know why they are reading. Close & Scaffolded Reading Instruction: Teachers engage students in repeated readings and discussions, with text-dependent questions, prompts, and cues to help students delve into an author's ideas. Collaborative Conversations: Teachers orchestrate collaborative learning to get students in the habit of exercising their analytical thinking in the presence of their peers. An Independent Reading Staircase: Teachers artfully steer students to more challenging books, with strategic bursts of instruction and peer conferences to foster metacognitive awareness. Performance: Teachers offer feedback and assessments that help students demonstrate understanding of text in authentic ways and plan instruction based on student understanding. There's more . . .
