Microsoft Works 3.0 for DOS Timothy J. O'Leary,Linda I. O'Leary,1994 This lab module offers brief, hands-on introductory coverage of the Microsoft Works 3.0 software. Microsoft Works is an integrated word-processing, spreadsheet and database software application all in one package. The objectives listed at the beginning of each lab module explain the concepts, commands and competencies to be gained in each software application program. The Sports Club case-study places

real-world business problems within the context of a health-club business environment. Students solve the business problems by using application software, such as word-processing, spreadsheet and database software.
