The 10 Triangles of Life Robin Sacredfire, Our life is composed of a multitude of events that either bring us upwards or downwards. These events can be predicted by following certain very ancient laws that merge with everything else that we find in nature and within our spiritual evolution. It's for this reason, that we can, not only predict the future, while using them, but also recognize our state of awareness and improve our existence. The law of attraction, the law of cause and effect and the law of karma would not make any sense without a proper assimilation of how the law of the triangle of power operates. And it's for this reason that all secret societies study this topic and keep addressing it as one of the most important, from the individual that needs to improve his social life, to the organization that needs to acquire more power and wealth. The principles that guide us to power are the same for one person or a group. In this book, the reader is presented with ten types of triangles that lead to more success in life. Studying and applying them will certainly prove itself significantly accurate in the road that one travels towards bigger and better achievements in the fields of love and relationships, wealth and spirituality.

African Oracles in 10 Mi Richard T. Kaser,2010-10-12 For more than 1000 years, the Yoruba of Nigeria have planned their lives, found true love, and learned their destiny through a vibrant and poetic fortune-telling system. African Oracles in 10 Minutes puts the power of these ancient methods in your hands. Sensing the strong link between sexual and spiritual energy, the Yoruba have traditionally explored both male and female paths to wisdom. You can choose to follow either the White Cotton Road, which women have relied on for centuries, or the Melon Seed Road, favored by men. Each path offers more than 250 readings that are both relevant to modern life and faithful to the spirit of the original systems. All you need are 16 objects -- coins, shells, beads or dried beans -- to get instant answers to yes or no questions as well as in-depth readings on more profound considerations. African Oracles in 10 Minutes provides both a fascinating glimpse of Yoruban spiritualism and a time-honored method for unlocking the secrets of the past and revealing the destiny that awaits you.

The Hand Reveals Dylan Warren-Davis, 2021-04-26 A practical guide to the fascinating art of reading hands. Cheiromancy is the art of handreading in which all aspects of a person's hand are considered in order to gain an accurate picture of their inner nature, distinct from the fortune telling of palmistry. What has come down to us as palmistry today is a rather degenerate and effete form of the ancient discipline of chiromancy. The word cheiromancy comes from the Greek chir meaning 'hand', and manteia meaning 'divination', literally meaning 'divination through the hand'. The *Hand Reveals* is not merely theoretical: at various points throughout the book readers are encouraged to try and apply this knowledge at every opportunity to find confirmation of the ideas. There is a considerable amount of knowledge and information compressed into these pages, and even the most diligent student would have difficulty in digesting it in one reading. It is recommended that you refer back as often as necessary to go the material you have read, to allow your understanding of cheiromancy to grow gradually. Originally published in 1993, this edition has been revised and updated with new material.

Would you like to delve deeper and learn more about the divinatory art and how to use it to your advantage to catch signs about our future in advance? There are so many psychic people, so many fortune-tellers and a variety of astrologers who try to grasp the future ahead of us using different tools. Are they really all charlatans or is there some truth to it?
