Charles D. Taylor

War Ship Charles D. Taylor, 2015-12-12 For the Russians, it was the espionage coup of the century ... An espionage operation has gone horribly wrong ... Soviet agents take a bold gamble and seize an American ship. Now the U.S.S. Gettysburg sits at a dock in Cam Ranh Bay. A computerized, state-of-the-art war ship, the Gettysburg is the never center of America's sea-air defenses. For the Soviets, it's a prize beyond compare. But even as Russian scientists prepare to probe the Gettysburg's vital secrets, one man begins his desperate race to rescue the ship. His name is David Chance. A former SEAL commando, he's been through hell and back. But he's never had a mission like this ...

Civil War Navies, 1855-1883 Paul Silverstone, 2006-11-06 Civil War Navies 1855-1883 is the second in the five-volume US Navy Warships encyclopedia set. This valuable reference lists the ships of the U.S. Navy and Confederate Navy during the Civil War and the years immediately following - a significant period in the evolution of warships, the use of steam propulsion, and the development of ordnance. Civil War Navies provides a wealth and variety of material not found in other books on the subject and will save the reader the effort needed to track down information in multiple sources. Each ship's size and time and place of construction are listed, along with particulars of naval service. The author provides historical details that include actions fought, damage sustained, prizes taken, ships sunk, and dates in and out of commission, as well as information about when the ship left the Navy, names used in other services, and its ultimate fate. 140 photographs, including one of the Confederate cruiser Alabama recently uncovered by the author further contribute to this indispensable volume. This definitive record of Civil War ships updates the author's previous work and will find a lasting place among naval reference works.

USN Battleship vs IJN Battleship Mark Stille, 2017-11-30 In the build-up to World War II both the United States and Japan believed their battleships would play a central role in battle, but after the Pacific War began in December 1941, the role of the battleship proved to be much more limited than either side expected. There would be only two battleship vs battleship actions in the Pacific in World War II, both of which are assessed in this engaging study. At Guadalcanal in 1942, Kirishima faced two modern US battleships, USS Washington and USS South Dakota. In the Surigao Strait in 1944, two World War I-era Japanese battleships, Yamashiro and Fuso, faced six American battleships supported by four heavy cruisers in history's last-ever clash between battleships. Employing full-colour artwork, carefully selected archive photographs, and expert analysis, former US Navy Commander Mark E. Stille examines the two head-to-head clashes between the battleships deployed by the United States and Japan in the struggle for control of the Pacific during World War II.

The Monitor Boys John V Quarstein, 2014-05-27 The stories of the officers and crew who served aboard the ironclad warship up until that fateful stormy New Year's Eve in 1862. The United States Navy's first ironclad warship rose to glory during the Battle of Hampton Roads on March 9, 1862, but there's much more to know about the USS Monitor. Historian John Quarstein has painstakingly compiled bits of historical data gathered through years of research to present the first comprehensive picture of the lives of the officers and crew who served faithfully in an iron ship unlike any vessel previously known. "The Monitor Boys," a moniker the men gave themselves, is a reflection of how these hundred-odd souls were bound together through storms, battles, boredom, and disaster. Just living aboard the ironclad took uncommon effort and fortitude. Their perseverance through the heat, stress, and unseaworthiness that defined life on the ship makes the study of those who dared it a worthy endeavor. Many recognized that they were part of history. Moreover, the Monitor Boys were agents in the change of naval warfare. Following Quarstein's compelling narrative is a detailed chronology as well as appendices including crew member biographies, casualties, and statistics and dimensions of the ship. Readers can dive into the world of the Monitor and meet William Flye, George Geer, and the rest of the men who risked everything by going to sea in the celebrated "cheesebox on

a raft” and became the hope of a nation wracked by war. Includes illustrations

Warship Joshua Dalzelle,2015 In the 25th century humans have conquered space. The advent of faster-than-light travel has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship--and one captain--will soon be faced with this very choice--Back cover.

No Higher Honor Bradley Peniston,2013-01-15 Like its World War II namesake of Leyte Gulf fame, USS Samuel B. Roberts (FFG 58) was a small combatant built for escort duty. But its skipper imbued his brand-new crew with a fighting spirit to match their forebears, and in 1988 when the guided missile frigate was thrust into the Persian Gulf at the height of the Iran-Iraq War, there was no better ship for the job. Forbidden to fire unless fired upon, Captain Paul Rinn and his crew sailed amid the chaos in the Gulf for two months, relying on wit and nerve to face down fighter jets and warships bent on the destruction of civilian vessels. Their sternest test came when an Iranian mine ripped open the ship's engine room, ignited fires on four decks, and plunged the ship into darkness. The crew's bravery and cool competence was credited with keeping the ship afloat, and its actions have become part of Navy lore and a staple of naval leadership courses ever since. This is the first book to record the Roberts' extraordinary tale. After years of research and interviews with crewmembers, journalist Bradley Peniston chronicles the crew's heroic efforts to save the ship as they fought flames and flooding well into the night. The author also describes the frigate's origins, its operational history, and the crew's training. Peniston's personal approach to the subject not only breathes life into the historical narrative but gives readers an opportunity to get to know the individuals involved and understand the U.S. retaliation to the mining and the battle that evolved, setting the stage for conflicts to come.

Ship of Ghosts James D. Hornfischer, 2009-03-25 NEW YORK TIMES BESTSELLER Son, we're going to Hell. The navigator of the USS Houston confided these prophetic words to a young officer as he and his captain charted a course into U.S. naval legend. Renowned as FDR's favorite warship, the cruiser USS Houston was a prize target trapped in the far Pacific after Pearl Harbor. Without hope of reinforcement, her crew faced a superior Japanese force ruthlessly committed to total conquest. It wasn't a fair fight, but the men of the Houston would wage it to the death. Hornfischer brings to life the awesome terror of nighttime naval battles that turned decks into strobe-lit slaughterhouses, the deadly rain of fire from Japanese bombers, and the almost superhuman effort of the crew as they miraculously escaped disaster again and again—until their luck ran out during a daring action in Sunda Strait. There, hopelessly outnumbered, the Houston was finally sunk and its survivors taken prisoner. For more than three years their fate would be a mystery to families waiting at home. In the brutal privation of jungle POW camps dubiously immortalized in such films as *The Bridge on the River Kwai*, the war continued for the men of the Houston—a life-and-death struggle to survive forced labor, starvation, disease, and psychological torture. Here is the gritty, unvarnished story of the infamous Burma-Thailand Death Railway glamorized by Hollywood, but which in reality mercilessly reduced men to little more than animals, who fought back against their dehumanization with dignity, ingenuity, sabotage, will—power—and the undying faith that their country would prevail. Using journals and letters, rare historical documents, including testimony from postwar Japanese war crimes tribunals, and the eyewitness accounts of Houston's survivors, James Hornfischer has crafted an account of human valor so riveting and awe-inspiring, it's easy to forget that every single word is true. **BONUS:** This edition contains an excerpt from James D. Hornfischer's *Neptune's Inferno*.

Ships of the American Revolutionary Navy Mark Lardas, 2012-01-20 Mark Lardas explores the origins of American warships, primarily light and medium frigates, built for the Continental Navy during the years 1776–1783. This was the first navy of the United States and much of the fleet was comprised of ships that had been modified from existing vessels, converted into warships to provide a crucial service during the American Revolutionary War. Despite having no real funding, this unique fleet had a surprising amount of success against the might of the Royal Navy, and this title discusses the strengths and weaknesses of each design, and the differences between European and American warships of the time. With a close look at how these ships performed in key battles, as well as the exploits of John Paul Jones – the founding father of the United States Navy – this is a complete, illustrated overview of the ships' service and development until France's entry into the war and the subsequent decline in importance of the Continental Navy.

Enterprise Barrett Tillman, 2013-02-12 The award-winning author of *Whirlwind* presents the story of World War II's most decorated warship as drawn from oral histories, the author's interviews with last surviving veterans and historical accounts of its most significant military achievements. 35,000 first printing.

Warships Associated with World War II in the Pacific Harry A. Butowsky, 1985

Warship under Sail Lorraine McConaghy, 2018-01-01 Ordered to join the Pacific Squadron in 1854, the sloop of war Decatur sailed from Norfolk, Virginia, through the Strait of Magellan to Valparaiso, Honolulu, and Puget Sound, then on to San Francisco, Panama, Nicaragua, and Costa Rica, while serving in the Pacific until 1859, the eve of the Civil War. Historian Lorraine McConaghy presents the ship, its officers, and its crew in a vigorous, keenly rendered case study that illuminates the forces shaping America's antebellum navy and foreign policy in the Pacific, from Vancouver Island to Tierra del Fuego. One of only five ships in the squadron, the Decatur participated in numerous imperial adventures in the Far West, enforcing treaties, fighting Indians, suppressing vigilantes, and protecting commerce. With its graceful lines and towering white canvas sails, the ship patrolled the sandy border between ocean and land. *Warship under Sail* focuses on four episodes in the Decatur's Pacific Squadron mission: the harrowing journey from the Atlantic to the Pacific Ocean through the Strait of Magellan; a Seattle war story that contested American treaties and settlements; participation with other squadron ships on a U.S. State Department mission to Nicaragua; and more than a year spent anchored off Panama as a hospital ship. In a period of five years, more than 300 men lived aboard

ship, leaving a rich record of logbooks, medical and punishment records, correspondence, personal journals, and drawings. Lorraine McConaghy has mined these records to offer a compelling social history of a warship under sail. Her research adds immeasurably to our understanding of the lives of ordinary men at sea and American expansionism in the antebellum Pacific West.
