If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

The Indian Craze Elizabeth Hutchinson, 2009-03-23 In the early twentieth century, Native American baskets, blankets, and bowls could be purchased from department stores, "Indian stores," dealers, and the U.S. government's Indian schools. Men and women across the United States indulged in a widespread passion for collecting Native American art, which they displayed in domestic nooks called "Indian corners." Elizabeth Hutchinson identifies this collecting as part of a larger "Indian craze" and links it to other activities such as the inclusion of Native American artifacts in art exhibitions sponsored by museums, arts and crafts societies, and World's Fairs, and the use of indigenous handicrafts as models for non-Native artists exploring formal abstraction and emerging notions of artistic subjectivity. She argues that the Indian craze convinced policymakers that art was an aspect of "traditional" Native culture worth preserving, an attitude that continues to influence popular attitudes and federal legislation. Illustrating her argument with images culled from late-nineteenth- and early-twentieth-century publications, Hutchinson revises the standard history of the mainstream interest in Native American material culture as "art." While many locate the development of this cross-cultural interest in the Southwest after the First World War, Hutchinson reveals that it began earlier and spread across the nation from west to east and from reservation to metropolis. She demonstrates that artists, teachers, and critics associated with the development of American modernism, including Arthur Wesley Dow and Gertrude Käsebier, were inspired by Native art. Native artists were also able to achieve some recognition as modern artists, as Hutchinson shows through her discussion of the Winnebago painter and educator Angel DeCora. By taking a transcultural approach, Hutchinson transforms our understanding of the role of Native Americans in modernist culture.

A Year Without "Made in China" Sara Bongiorni, 2010-12-28 Can an American family live without Chinese-made goods? "A wry look at the ingenuity it takes to shun the planet's fastest-growing economy." —Bloomberg News "Journalist Bongiorni, on a post-Christmas day mired deep in plastic toys and electronics equipment, makes up her mind to live for a year without buying any products made in China, a decision spurred less by notions of idealism or fair trade—though she does note troubling statistics on job loss and trade deficits—than simply 'to see if it can be done.' In this more personal vein, Bongiorni tells often funny, occasionally humiliating stories centering around her difficulty procuring sneakers, sunglasses, DVD players and toys for two young children and a skeptical husband . . . Bongiorni is a graceful, self-deprecating writer, and her comic adventures in self-imposed inconvenience cast an interesting sideways glance at the personal effects of globalism." —Publishers Weekly

Culture in the Marketplace Molly H. Mullin, 2001-03-20 In the early twentieth century, a group of elite East coast women turned to the American Southwest in search of an alternative to European-derived concepts of culture. In *Culture in the Marketplace* Molly H. Mullin provides a detailed narrative of the growing influence that this network of women had on the Native American

art market—as well as the influence these activities had on them—in order to investigate the social construction of value and the history of American concepts of culture. Drawing on fiction, memoirs, journalistic accounts, and extensive interviews with artists, collectors, and dealers, Mullin shows how anthropological notions of culture were used to valorize Indian art and create a Southwest Indian art market. By turning their attention to Indian affairs and art in Santa Fe, New Mexico, she argues, these women escaped the gender restrictions of their eastern communities and found ways of bridging public and private spheres of influence. Tourism, in turn, became a means of furthering this cultural colonization. Mullin traces the development of aesthetic worth as it was influenced not only by politics and profit but also by gender, class, and regional identities, revealing how notions of “culture” and “authenticity” are fundamentally social ones. She also shows how many of the institutions that the early patrons helped to establish continue to play an important role in the contemporary market for American Indian art. This book will appeal to audiences in cultural anthropology, art history, American studies, women’s studies, and cultural history.
